## NEVER HAD ACCIDENT ON TRAIN.

John McCurdy, one of the oldest engineers in the country, who has run an engine of the Michigan Central road through Hammond and Gary without an accident, died on Wednesday at Jackson, Mich. He began service with the road on April 1, -848, just after it passed from the state to that company. His record covered more than 20,000 trips and for years he ran the fastest train on the road. He was retired at the age of 50. He died as the result of an operation at a hospital in Jackson.

## BILL FOR NEW STATE HOSPITAL

Legislature Will Be Asked  
to Make an Appropriation For It.

## BILL OFFERED BY COMMISSION

An Appropriation of \$300,000 Will  
Be Requested When Statesmen Meet Next Month.

(Special to THE TIMES.)

Indianapolis, Ind., Dec. 5.—The legislature, when it opens its session early in January, will be asked almost at once to make an appropriation for the erection of a state tuberculosis hospital. The bill will be offered by the commission that has in charge the task of finding a location for such an institution. It will probably carry an emergency clause so that in case it passes and becomes a law the commission will be able to begin the erection of the institution at once.

Want Early Appropriation.  
"If we can get an early appropriation," said Isaac Strouse of Rockville, a member of the commission, "we can have the hospital finished and ready to receive 150 patients by January, 1910. Of course, all of the work could not be completed by that time, but we could have it ready for patients. If an appropriation is made the commission believes it should be granted early and not subjected to the delay which the general appropriation bill always encounters. An appropriation of \$300,000 will be requested. The commission met in this city and presented the plans to the legislative visitation committee."

Thinks It Will Create Sentiment.  
Mr. Strouse declares that the work now being done by the Red Cross society in distributing Red Cross stamps to be used at Christmas time will, in his belief, aid in creating sentiment in favor of an appropriation for the hospital. The proceeds from the sale of the Red Cross stamps are to be used in fighting tuberculosis. Mr. Strouse believes this move on the part of the Red Cross society will spread all over the state and will set the people generally to thinking about the question of fighting tuberculosis.

WEATHER HELPS TRADE  
Dun's Weekly Review Says  
Industrial Activity Is  
Maintained

Colder weather brought a better retail demand for seasonal merchandise, and holiday trade made good progress, but assortments are not wholly satisfactory because of the conservatism of many dealers who failed to secure adequate stocks, says Dun's Review.

Industrial activity is maintained except where it is customary to limit operations for inventories at this season. Shoe factories receive much forward business, wholesalers anticipating higher prices in keeping with the persistent upward tendency of hides and leather.

Recent advances in pig iron are held, although there is less pressure to provide the needs of 1909, while the steel industry is almost normal except for the big railroad contracts that are still deferred. Commercial payments are gradually improving.

Inadequate water supply retards work at woolen and pulp mills in New England, coke ovens at Connellsville and various other industrial plants, while lake navigation is about closed for the season.

Dry goods market conditions are more quiet, although there is no evidence of weakness. In some lines there is the usual lull that appears in December, while in other departments the position of the raw material is a disturbing factor.

## ROYAL LEAGUE AT HARBOR HOLDS ANNUAL ELECTION

(Special to THE TIMES.)

Indiana Harbor, Ind., Dec. 5.—The annual election of officers of Harbor Council No. 213, Royal League, was held last evening in the lodge rooms in Cline hall, about fifty members attending. The session was by far the best held by the local council this year and from the enthusiasm displayed by the members, there is little doubt that the league will grow in numbers and power during the coming year. Arrangements were made for the formation of a bowling team of five men to represent the council in tournaments which are to be held in the Landfield alleys during this winter, and Harbor council should show to advantage in the leading games of the series.

The following officers were elected and will hold office for one year: Archon—C. P. Burdick.  
Vice archon—Charles Egbert.  
Past archon—W. B. Van Horne.  
Scribe—F. C. McCrum.  
Treasurer—George M. Witt.  
Collector—John Bevan.  
Orator—C. A. Leach.  
Frelate—F. R. McKnight.  
Guide—J. E. Reed.  
Warden—William H. Hart.  
Sentry—Roy H. Biehl.

W. W. Moberly, who has always been active in the deliberations of the council, was appointed trustee for a term of three years, while W. B. Van Horne, past archon, will attend this year's sessions of the advisory council as a delegate from the local order.

## UP AND DOWN IN INDIANA

### DOE AND ROE FIRED.

William Victor O'Donnell of Columbus, prosecutor-elect for the ninth judicial district, said that when he takes his office he will wholly ignore "John Doe" and "Richard Roe" names that heretofore have taken up much space on the court dockets. He said he would call a spade a spade on all occasions, will play no favorites and that all will look alike to him.

McHugh of Lafayette and members of the engineering crew, it was decided to rebuild the roundhouse in South Bloomington. The old roundhouse was destroyed by fire two weeks ago and a fire insurance has just been adjusted.

### REFUSES GUNNERS INSURANCE.

Asserting the result of the Lamphere trial at Laporte in no wise proved the death of Mrs. Belle Guinness and expressing his belief that the woman is still alive, the Connecticut Fire Insurance company will resist the effort of Wesley Fogle, administrator of the Guinness estate, to collect \$2,800 insurance on the burned dwelling.

### SUSPECT THEFT OF STAMPS.

Milo Zolmer, 21 years old, of Rochester, Ind., was arrested in South Bend yesterday on suspicion of being implicated in the robbery of the South Bend postoffice of postage stamps to the amount of \$18,653. ### RING ON RABBIT'S FOOT.

Patrick W. Kennedy of New Albany, while skinning a rabbit, found on the left hind leg a gold ring. Jewelers who examined the ring say it is pure gold. It was imbedded in the flesh and could not be removed until the leg of the rabbit was cut off. The rabbit was purchased at a grocery store.

## THINKS IT WOULD PROMOTE THE RABBIT INDUSTRY.

Representative Crumpacker Jokes  
About Wool on the Skin.

Washington, D. C., Dec. 5.—Representative of the wool pulling industry appears to ask for an increase of 4 cents in the differential in the duties on wool fleeces and wool on the skin. The former now pays a tariff of 11 cents per pound and the latter 15 cents.

Henry G. Reincke of Philadelphia suggested that revenue could be secured if a duty were placed on rabbit skins. These are being imported by hatmakers, he said, and contain valuable fiber.

"Wouldn't that promote the rabbit industry in this country?" suggested Representative Crumpacker of Indiana.

### Deafness Cannot Be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.
