HEARD BY RUBE.

Have you ever stopped to think that every minute that passes brings us one minute closer to Christmas.

Let us hope that the lawyers of the Lake County Bar association will come to no blows over the superior court question.

The Superior Court Situation.

Gary—"It's ours." Hammond—"Can't have it." East Chicago—"We'd like it." Indiana Harbor—"We'd take it." Crown Point—"Fight it out." Hobart—"Don't care." Lowell—"No chance."

Now that the Gary plumbers and steamfitters have organized an athletic club it is hoped that they won't get too chesty.

It seems that every man in Gary has a right to his opinion as long as he keeps it to himself.

According to Dr. Temple's report Gary's milk supply is above the average of that in other Lake county towns and cities.

Now is about the time that the thin ice will begin to claim its victims. Let us hope that the skating around Gary this year will be safe and sane.

And to think that we will see no hook beer signs in Gary next spring.

We have noticed one thing in particular that the weather is no respecter of the Gary weather prophets.

Whistling is said to develop a robust frame. It also develops the insane desire to kill somebody when we hear the one we don't like trying to whistle.

hardly thought to be safe for the skaters.

FINE DISPLAY OF CHINA WARE.

Mrs. H. E. Austin of LaPorte, was in Gary yesterday and brought with her a beautiful display of handpainted China. Mrs. Austin will put the China on display in the windows of Fred Baldwin, jeweler, at 660 Broadway, where she will offer it for sale for the Christmas trade.

ONE ON THE SIDE.

"Gary seems to be getting more infested with peddlars and agents every day," said a Broadway business man to the barber, as the "knight of the razor" was applying a hot towel.

"They certainly are getting to be a nuisance," answered the talkative one. "There were three in the shop today."

"Wouldn't be so bad," continued the B. B. M. "if they came around during your leisure moments, but they are sure to drop in when the store is crowded. I felt inclined to kick one out today. He came in with a big grip and coughed to attract attention."

"I am, introducing," he began, "a patent electric hair brush."

"What do I want with a hair brush?" I told him, "can't you see I am bald."

"Your lady perhaps."

"Bald too, except when she's dressed up."

"Yes sir, but you may have at home a little child."

"We have one month old, and quite bald, of course at that age."

"But," persisted the agent, "maybe you keep a dog."

"We do, a hairless Chinese dog."

The agent proceeded to dive into another pocket.

"Allow me," he said, "to show you the latest thing in hair growers."

SAFE GUARDS ORDERED

Factory Inspector Visits in East Chicago and Makes Recommendation.

(Special to THE TIMES.)

East Chicago, Ind., Dec. 9.—A thorough inspection was made yesterday of all the hotels and factories in East Chicago and Indiana Harbor, and many appliances designed for the safety of the inmates of such buildings ordered installed immediately. The potent force in the securing of these much needed improvements was Peter Kline, who is deputy inspector of factories, etc., and the local representative of the Indiana inspection bureau, Indianapolis. Mr. Kline's headquarters, however, are in South Bend.

In an interview with a Times representative yesterday, Mr. Kline declared himself as fairly well satisfied with the precautions taken by local factories against the loss of human lives. "The plants are well equipped with machinery safeguards, equally as well, I believe, as any mill or industry in the state of Indiana," he said. "Nevertheless, new guards have been ordered placed around machinery in several of the local mill buildings, thus insuring the safety of operatives to an even greater degree."

Orders Hotel Protection.

Inspector Kline also recommended the purchase of knotted ropes, two inches in diameter, as well as chain cables, to be placed in every room of the Relland hotel in this city, and the Harbor hotel on Michigan avenue, Indiana Harbor. These buildings are both of frame construction and were a fire break out during the night, it would be exceedingly difficult to save all the inmates. The installation of the ropes and cables will at least give protection to the occupants of outside rooms, and assist East Chicago hotel men in their fight to give the city the best possible hotel accommodations.

JOHN RADAISCH BEARS A CHARMED LIFE.

Slips Ten Feet on Stairway Then Tumbles Thirty Feet Through Air, Landing in Tub of Water.

East Chicago, Ind., Dec. 9.—(Special)—John Radaisch, of Railroad avenue, is the possessor of a charmed life. In his narrow escape—if not miraculous—may be taken as an augury. A slide of ten feet down icy steps, followed by a drop of thirty feet into a large tub of water, and then only to sprain an ankle! Had it been anyone else but John Radaisch, the victim would probably be suffering with a broken limb, if not a more serious injury.

John was on his way to work yesterday morning and failed to notice that his rear steps were covered with ice. Living in the second story of a frame flat building, he attempted to hurry down the steps, and slipped. About ten feet from the top there is a sudden turn, surrounded by a wooden railing. The railing, however, failed to stop Radaisch, and he slipped under it. He declares that he was too frightened to notice any particular sensation when he commenced his thirty-foot downward flight, but distinctly remembers the concluding splash.

Someone had conveniently left a large tub of water in the yard and Radaisch fell into this. There was an awful splash and Mrs. Radaisch rushed to the door to see what was the matter, expecting to find her husband in pain at the other end of the stairs. Radaisch, however, managed to limp up stairs and had the ankle dressed by a local physician, with the result that he will be able to use it again within two or three days.

EAST CHICAGO IS SUED

Defective Boardwalk Causes a \$10,000 Damage Suit.

(Special to THE TIMES.)

Indiana Harbor, Ind., Dec. 9.—Attorney P. A. Parks yesterday notified officials of the city of East Chicago that he had filed action against them for damages sustained by Andrew Mitrich of this city, by falling through a defective boardwalk. The case has been filed in the superior court and Mitrich prays for damages in the sum of \$10,000.

Attorney Parks yesterday informed THE TIMES representative that the accident occurred on Nov. 5—the morning after election. Mitrich was returning from his work in the inland mill, about 7 o'clock, and stepped on a loose board. One end of the board was brought against his abdomen with terrific force, laying him unconscious for almost an hour. Dr. C. C. Robinson was called and the man's removal to the Washington Park hospital, Chicago, was necessitated. He was released from the institution on Nov. 23, after undergoing a serious operation.

A strange feature of the case is that some one evidently notified the city officials that the accident had occurred, as in less than an hour after it happened the defective board had been replaced by a new one, the street commissioner making the repairs. The accident occurred in front of the building at 3735 Cedar street—a part of the city in which concrete or cement walks have not yet been laid.

MAY COST WHITING MAN LOSS OF EYE

Whiting, Ind., Dec. 9.—James Morrison of New York avenue last night suffered an injury which may cost him his eyesight. He is employed in the boiler department of the Standard Oil company, and last night at 6 o'clock, upon returning home, was about to place some tools in the basement when he accidentally struck a rusty nail which was protruding from a cross-beam. The nail penetrated the eye socket, almost tearing the eye out. Inflammation has set in and there is grave danger that Mr. Morrison will lose the use of the eye.

Should he be so unfortunate as to lose this eye, he would be completely blind, as he suffered the loss of his left eye nearly two years ago to a day in another accident.

Mr. Morrison has a wife and child, and his family has the sincere sympathy of the community for the misfortune which has befallen them.

Davidson will discuss her many travels abroad in the subject, "Europe as Seen by an American."

BAD MAN GOES TO GALLOWES.

Chattanooga, Tenn., Dec. 9.—Tomorrow is the date fixed for the execution in the Chattanooga jail of David D. Edwards, the man who caused a sensation at his trial last summer by declaring that he had killed so many men in his time that he could not remember the exact number.

The crime for which Edwards is to pay the death penalty was the murder of J. W. Davis, a foreman in the employ of William J. Oliver, the railroad contractor. The crime was committed last March and was of a most brutal character.

Prior to the killing of Davis a number of men had fallen victims to Edwards' ready gun. A number of them were negroes and in most cases he escaped without punishment. It is believed that his victims numbered at least sixteen men. Mrs. J. W. Davis, the widow of his last victim, has asked permission to spring the death trap when Edwards is executed. The request, of course, was refused, but it is said that relatives of the murdered man will be here from a dozen states to witness the execution.

NEGRO CONGRESS ON TUBERCULOSIS TO MEET.

Tuskegee, Ala., Dec. 9.—Beginning next Monday and continuing through the entire week, the International association for the Study and Prevention of Tuberculosis will have its tuberculosis exhibit at the Tuskegee institute. The program to be followed is approximately the same as that carried out at the great International Congress on Tuberculosis held recently in Washington.

During the week there will be held meetings of negro states representatives of the Negro Y. M. C. A., the Negro Y. W. C. A. and colored women's clubs. These meetings will be in addition to a course of lectures to be given for the benefit of the negroes at large. Local committees have been at work preparing for the exhibits, and a strong effort is to be made to secure the attendance and the co-operation of the strongest medical forces among the negro people of the entire country. The tuberculosis exhibit is being installed in commodious quarters on the institute grounds.

REYNOLDS IS APPOINTED

Whiting Council Takes Up Several Questions of Importance.

(Special to THE TIMES.)

Whiting, Ind., Dec. 9.—The council held their regular meeting on Monday evening. The assessment to be levied upon the property owners for the paving of New York avenue and also of One Hundred and Nineteenth street, was discussed, but no definite sum was decided upon.

An application was presented by Adam Talko of One Hundred and Nineteenth street asking for his appointment to the local police department. As there are no extra police needed on the force at present the petition was set aside for future use.

It was decided to appoint F. H. Reynolds of Sheridan avenue as landscape gardener for the new lake front park. Mr. Reynolds has an exceptionally fine artistic ability and it will be satisfactory to learn that a local man is to be given the preference to an outsider.

It was also decided to send Alderman Frank Long to Washington with Mayor Smith delegate to the National Rivers' and Harbors' Congress.

HELM ENCAMPMENT TO HAVE BIG TIME

The Helm encampment of Odd Fellows at Gary will initiate fifteen members into the patriarchal degree Saturday night. The Mount Pisga encampment of Valparaiso will have charge of the work, and it is expected that the Wheeler encampment will attend the meeting in a body.

It is expected that there will be in the neighborhood of seventy-five members present from outside lodges at the meeting.

MERCURY DROPS TO 10; COLDEST DAY OF SEASON.

Low Mark Recorded Seven Hours; Storm Today Predicted.

Another cold day was recorded yesterday when the mercury went nearer the zero mark than at any previous time this season, 10 degrees being recorded for seven hours in the early morning. It gradually went upward after 5 o'clock a. m., until it reached 27 degrees in the afternoon, the maximum for the day. The day portended a heavy fall of snow, which the twenty-miles an hour wind from the southwest seemed to encourage, but the best was a trace during the morning. The mean temperature was 18 and the normal 32 degrees. Snow and rain were recorded through northwest and south and other storm is due here today or tomorrow, according to the weather man.

WILL BUILD SYNAGOGUE

Jews of Whiting Change Their Mind Regarding House of Worship.

(Special to THE TIMES.)

Whiting, Ind., Dec. 9.—The house at One Hundred and Nineteenth street and New York avenue, occupied by Mr. and Mrs. M. Helman, is now again the property of the Standard Oil company. The building was recently purchased by the Jewish people of Whiting to be used as a synagogue. Having taken the cost of remodeling the building into consideration, and it was found that the cost would be far greater than was expected. The location was also discussed at a recent meeting, and all the members were of the opinion that the corner was too noisy and also too conspicuous for a house of worship of this sort.

The matter was laid before the real estate agents, Davidson Bros., through whom the sale was made, and they in return took it up with the officials of the company. It was decided to return the money paid on the building and the Jewish people will no doubt soon begin the erection of a new synagogue.

EGGS ARE 3 CENTS A PIECE; PRICES ARE STILL SOARING.

According to Dealers 50 Cents a Dozen Mark Is in Sight—Shortage in Storage Supply Cause.

Three cents apiece for eggs at wholesale was the market price yesterday, an advance of 1 cent, placing the value of fresh eggs at the top notch for the season and indicating another sharp upturn in the retail quotations.

Strictly fresh goods were sold at 36 cents, wholesale, which is the highest price scored in several years and dealers were of the opinion that, with cold weather continuing, the price will soar steadily.

In some parts of Chicago consumers are already paying 42 cents a dozen. The 50 cent mark is already in sight, according to dealers. Shortage in the supply of storage eggs is assigned as the reason for the big advance.

Present stocks are closely held and there have been rumors of a "corner" in eggs, although dealers give general denials, saying the high prices are the result of the sharp demand and the extraordinarily light supplies of fresh stock.

DEMENTED WOMAN IS LOCATED IN MISHAWAKA.

Mrs. Mary Mitrowska of East Chicago Nearly Frozen and Starved.

(Special to THE TIMES.)

Mishawaka, Ind., Dec. 9.—Without food since last Saturday noon, clad only in a thin skirt, jacket and a fascinator, with no underwear and stockings down over her shoes, Mrs. Mary Mitrowska, the demented woman who disappeared Sunday morning about 2 o'clock from the city hall, sought to gain entrance to the rear door of the Ray Worthington home, 105 East Fourth street, at 10 o'clock this morning coming through the back yard.

The demented woman was so nearly frozen that she could not enter the

MRS. MAUD B. OPLINGER, Philadelphia, Penna.

As a rule women understand the nature of their delicate organism, but overlook the wonderful influence their nervous system has upon their general health. They do not realize that nearly all their ills are directly traceable to the nervous system. Thousands of women have regained their health and vigor by the use of

house without assistance and nearly collapsed after being helped into the warm room.

Mrs. Mitrowska is the woman from East Chicago, who has two children and while being taken to insane hospital at Longcliff pleaded to see them and the husband consented. Arriving there she did not want to leave and the chief of police took the couple to the city hall and placed a bed in the court room where Sunday morning about 2 o'clock while the husband was asleep she escaped from a window, and has been roaming about and in hiding since that time until found this morning. The woman desires to again see her children and her love for them is indeed pathetic. She will be taken back to Longcliff as soon as possible. The chief of police has notified all surrounding cities that the missing woman has been found.

TO PRESERVE THE FORESTS.

Madison, Wis., Dec. 9.—Definite plans looking to the preservation of the forests of this section of the country will be considered and acted upon at the two days' meeting begun here today by the Lake States' Forestry association. The association was formed at a meeting held at Saginaw a year ago, at which the states of Wisconsin, Michigan and Minnesota were officially represented. This year Indiana, Pennsylvania, New York, Illinois and the province of Ontario were invited to join the movement.
