

FROM NEIGHBORING TOWN AND CITY

NEWS OF THE COUNTY SEAT

MAY START CANNING AND RENDERING PLANT.

Crown Point Brewery May Be Used For a New Purpose.

How much credence can be given the news is not known, but it is reported that in the event of the brewery leaving Crown Point, that a company of business men here will lease the building and start a canning and rendering plant. It is said that there are hundreds of cattle in Lake county that have recently undergone the tuberculosis examination and have been found infected with the disease to some extent, which makes them unfit for the milk shipping industry, which is the chief factor and purpose in their being kept by the farmers. These can be bought comparatively cheap, and it is said their flesh and meat is perfectly healthy and fit for canning purposes. It is the intention of the alleged company to purchase these animals at a much reduced price, to be used for the above named purpose. The report gained wide circulation yesterday, but the names of the members of the proposed company remain in the dark.

The funeral arrangements have not been made as yet, but it is thought that the body will be brought here for burial. The Chicago papers have the following to say regarding the death of Mr. Kretz's brother, Valentine:

"Valentine Kretz, 73 years old, 927 George street, died at the Elizabeth hospital of burns suffered yesterday while lighting a pile of excelsior in the Tidy lamp repair shop at Sedgewick and Chicago avenue. His wife, who is critically ill in another room in the hospital, was made temporarily insane, the hospital authorities say, when informed of his death."

A new tasteless and odorless discovery which can be given secretly by any lady in tea, coffee or food.

Heartily endorsed by temperance workers. It does its work so silently and surely that while the devoted wife, sister or daughter looks on, the drunkard is reclaimed even against his will and without his knowledge. Many have been cured in a single day.

died suddenly of heart failure at his home on Tuesday evening, will occur at the Lutheran church on Friday at 1:30 o'clock. It is reported that a certain farmer recently purchased a well bred heifer for a price near the \$100 mark. At a test recently made by the veterinarian in their search for tuberculosis infection, it was found that the animal was slightly infected. Deafness Cannot Be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can be cured by HALL'S Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c.
