

A DAY IN GARY LAND

LUTHERAN CHURCH OF GARY IS NEARING COMPLETION.

Attorney T. P. Beuscher, Legal Advisor for Extension Board, Visits City to See Progress of Work.

Attorney T. P. Beuscher, the legal advisor for the board of extension of the German Lutheran church, was in Gary yesterday looking after the construction of the Lutheran church in this city. So near completed is the building at the present time that the local congregation feels that they may be able to hold the dedicatory services the first week after January.

The date has not been set as yet, however, owing to the fact that any sudden change in the weather at this time would seriously hamper the work, and the contractors would not be able to have the work finished as soon as they expected. Attorney Beuscher states that he is well satisfied with the progress of the work to date, and that the church will certainly be completed before the first of February.

SALAMANDER SETS NEW STORE BUILDING AFIRE.

Quick Response to Alarm Averts Damage—Place Belongs to Attorney White.

A fire was reported yesterday afternoon at 4:30 in the new store building being constructed by Attorney White on Eighth and Adams streets. One of the salamanders in the building, which had been left there for the purpose of drying out the plaster, happened to turn over and the red coals looked as if they would set the building on fire. The alarm was turned into the department and Acting Chief Neumann responded at once. Before he got to the building, however, the salamander had been frightened and the danger was averted.

SUFFERS AN ATTACK OF APPENDICITIS, BUT RECOVERS.

Mrs. V. M. Young Is Hurried to St. Luke's Hospital, But Operation Is Not Necessary.

Mrs. V. M. Young, wife of the local real estate man, was taken to St. Luke's hospital in Chicago Saturday afternoon suffering with appendicitis. Although it was thought at first that her condition was serious after she had rested at the hospital for a few hours it was decided that an operation will be unnecessary. Mrs. Young expects to be able to return to Gary in a few days.

PLACED UNDER BOND; BOUND OVER TO HIGH COURT.

Junk Dealers Will Have to Go to Jail to Await Their Trial.

Pete Gardner and Frank Crook, the two Gary junk dealers, who were arrested last week on the charges of having dealt in junk which was stolen property from the Gary Casino were each placed under \$400 bond by Judge Fitzgerald and bound over to the superior court at Hammond. They were unable to secure bondsmen and will have to await their trial in the Crown Point jail.

ANOTHER GARY WIFE-BEATER IN COURT THIS MORNING.

Tony Greahovich Not an Amateur at Molesting His Better Half.

Tony Greahovich, a Gary saloonkeeper, living at Seventeenth avenue and Massachusetts street, was arrested this morning on charges preferred by his wife. He is charged with assault and battery and an attempt will be made to place him under peace bonds, as he has been brought into court before on similar charges.

GEM THEATER OPENS DOORS TO THE PUBLIC.

New Gary Amusement Place Is Received With Popular Favor and Promises To Be Successful.

The new Gem theater opened for business with a matinee on Saturday afternoon. The new amusement house at both the afternoon and evening performances was crowded to the doors, and promises hereafter to become very popular. A Sunday afternoon performance will be a new feature of the Gem.

Strong Test of Friendship.
Good friends can walk together, talk together, read together and work together, but you must be more than good friends to do nothing together.

NOTICE.

The election of trustees of Helm Encampment No. 256, I. O. O. F., for the year of 1908 will take place on Dec. 15, 1908, at Odd Fellows' hall, Gary. 2w

GARY BRIEFS.

The ladies of the Congregational church served a chop suey dinner in the basement of the Hall building on Saturday evening from 5 to 8 o'clock. The supper was very well attended and the ladies realized ladies realized a neat sum through their efforts.

The services at all the various churches were all well attended yesterday. All the churches are preparing special services and entertainments for Christmas.

Eric Lund of Hammond transacted important business in Gary on Saturday.

The regular meeting of the Bible study class of the Methodist church will take place this evening at the home of the pastor, Rev. George Deuel.

Miss Margaret Quinn, formerly night operator at the Whiting telephone exchange, began her duties as night operator at the steel company's switchboard this evening.

Shoe Sale on now. See the R. & S. Co.

The domestic science section of the Ladies' Guild of the Episcopal church, under the leadership of Mrs. Cogshall, is making arrangements to have their headquarters in a room in the Jefferson school building, so generously offered by the school superintendent, Professor Wirt. It promises to be a very active section, and will embrace all the ladies in the city who desire to join the class.

Miss Nellie Quinn, day operator at the steel company's switchboard, and Miss B. Leonard attended the theater in Chicago Saturday evening.

The R. & S. for largest display of Christmas goods, Fifth avenue. 1f

The Sunday school class of the Episcopal church will hold their Christmas festival on Christmas eve of next week. A big program is being arranged and the festival will be well attended.

Cut prices on Rubber Ware at the R. & S. Co., Fifth avenue. 1f

Contractor William Kendrick of Hammond was in Gary on Saturday evening on business.

PNEUMONIA DAYS HAVE ARRIVED

"The pneumonia days have come," said Dr. J. N. Hurty, secretary of the state board of health, yesterday.

Dr. Hurty declares the statement a true one because cold weather has come, which means that the people will house themselves more closely than before, and get their bodies in condition for the disease. To warn the people of the state against the danger, he is preparing some information in pamphlet form for general circulation, the advance sheets of which were in his hands.

"Last night," he said, "I rode down Illinois street in a crowded car. Not a single ventilator was open, and the air was foul and sickening. I rode on the platform to escape breathing air which had probably been used four or five times. I spoke to a doctor friend of mine on the platform. After getting out of the car he said: 'It's more work for the undertaker. I guess I could use a few cases of pneumonia.'"

Dr. Hurty's warning states that in December, the pneumonia month, not less than 230 persons, now well and strong, will lie dead of pneumonia in the state of Indiana. This has been the rate in previous Decembers. He says: "Be temperate in drink and food, sleep not less than eight hours in an extra well ventilated bedroom, and don't ride inside steam or trolley cars when the air is foul. To breathe foul air is a good way to lower the body's disease resisting powers."

He gives the following sarcastic advice: "To bring the disease whenever you want it, drink freely of stimulants, take a few cocktails or high balls, many cups of coffee and many cups of tea every day; eat quantities of meat and salad, dig into society, hard and exhaust your strength; practice all kinds of intemperance, be sure to keep out of the fresh air; don't ventilate your bedrooms, library and office, and ride in the close, thrice-bathed air of the trolley cars. If doing all these things doesn't bring you pneumonia, then you are indeed extra strong. So many business men have pneumonia. They attend a convention, enjoy a big 'feed,' spend much time in the hotel buffet with tobacco smoke and bad air, and then go home in a sleeping car berth with curtains tightly drawn. Pneumonia has been termed 'the Captain of the Men of Death.' It is increasing in the cities at a rapid rate, and slowly increasing in the country. A very large proportion of pneumonia cases which recover afterwards die of consumption."

Deafness Cannot Be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound and imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, Free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

ALL TALK ABOUT PUBLICITY IS "GEEK TO YOU" UNLESS YOU ADVERTISE OCCASIONALLY.

GET FOUR MORE NURSES

Work at Mercy Hospital in Gary Is Increasing Greatly.

Dr. T. B. Tempin has returned from Burlington Iowa, and Chicago, where he has been for the purpose of securing four more sisters and nurses for the Mercy hospital. The local institution is under the direct control of the Burlington hospital and the business of such nature is usually transacted through them.

The four additional nurses were secured because of the steady increase in the work done at the institution. Dr. Tempin denied that the patients had been neglected or improperly treated at the Mercy hospital. He said, however, that the sisters had been overworked in tending to their duties and the way it should be tended to, and that with the increase in the number of patients that the number of help had to be increased in proportion.

The four new nurses will begin work at once. Two of them have already arrived from Burlington, Iowa, and two more will come from Chicago today. For the past few weeks the number of patients at the hospital have been increasing steadily, and it is expected that by the time that they are ready to move into the new building that the capacity of the building will be tested to the limit. The people of Gary, however, consider themselves fortunate to have such an institution within the city hospital while the city is still so young.

MAY NOT BE TRIED NOW

Witnesses in Washington Street Improvement Case

Go to Valparaiso.

The case of the Washington Street Improvements association against the various railroads which have blocked the thoroughfare with their elevations is set for a hearing in the Porter county superior court at Valparaiso today. Several of the witnesses went to Valparaiso, but it is doubtful whether the case will be tried today, as the docket in the case is crowded.

The suit was instituted by a number of property owners, who are represented by Attorney F. P. Fetterer. The suit is brought against the Michigan Central, the Wabash, the Pennsylvania and the Gary and Western railroad with the object to get these roads to place a viaduct under their elevations.

DON'T BE BALD

Nearly Anyone May Secure a Splendid Growth of Hair.

You can easily find out, for yourself if your hair needs nourishment, if it is thinning out, getting dry, harsh and brittle, or splitting at the end. You simply have to pull a hair from the top of your head and closely examine its root. If the bulb is plump and rosy, it is all right—if it is white and shrunken, your hair is diseased and needs nourishment.

We have a remedy for hair troubles that cannot be surpassed. It has a record of growing hair and curing baldness in 93 out of every 100 cases where used according to directions for a reasonable length of time. It will even grow hair on bald heads if the scalp is not glazed and shiny. That may seem like a strong statement—it is and we mean it to be, and no one should doubt it until they have put our claims to an actual test.

We are so sure that Rexall "33" Hair Tonic will cure dandruff, prevent baldness stimulate the scalp and hair roots, stop falling hair and grow new hair, that we personally give our positive guarantee to refund every penny paid for Rexall "33" Hair Tonic in every instance where it does not give a claim or fails to give entire satisfaction to the user.

Rexall "33" Hair Tonic is as pleasant to use as clear spring water. It is delightfully perfumed and does not grease or gum the hair. We have it in two sizes. Price 50c and \$1.00. We urge you to try Rexall "33" Hair Tonic on our recommendation, and without guarantee back of it you certainly take no risk. Kaufman & Wolf, Hammond, Ind.

LOWELL.

Mr. and Mrs. Albert Hull are visiting their daughter, Mrs. C. W. Pulver, and husband at Kankakee city.

Mrs. George Shaver is visiting friends at Logansport.

Dr. Achilles Davis of Chicago visited his mother, Mrs. J. E. Davis, over Sunday.

Word was received here announcing the marriage of Miss Cora Everett of Rensselaer to Sherry Simpson of Oregon, the ceremony taking place at Winamac, Mrs. Simpson is at the present time holding a position in the post-office at Rensselaer, where we understand they will reside for a short time. She was formerly a clerk in the Lowell postoffice, making her home here with her sister, Mrs. F. L. Hunt. Her many friends here join in wishing her and the husband of her choice happiness and prosperity.

William Bennett of Evansville, Ind., visited his sister, Mrs. C. E. Atwood, and family here from Friday till Sunday. Mr. Bennett is superintendent of the infirmary for the poor in the county in which he resides.

SOUTH BEND LINE IS ENJOINED.

(Continued from page one.)

operated by electricity by what is known as a single phase alternating current traction system which consists of an overhead trolley wire, used for the transmission of the electric current, and the rails of the track for the return current. The single phase electrical system of the interurban develops 3,000 volts, transmitted from the big power station at Michigan City, which is increased to 6,000 volts by the use of transformers located at Terra Coupe and Indiana Harbor.

The current of electricity employed by the Lake Shore railroad and the Western Union and Postal Telegraph companies is of such a character and of such small intensity as to only require 150 volts of electrical current to carry on their telegraph and cable business. They in no way interfere with the electrical conditions of the earth or the air in the near proximity to other electrical wires.

The plaintiffs in the case allege that so powerful is the current employed by the interurban company, that by the process of induction they attract the current of the telegraph wires and render them absolutely useless for service. Not only is the power so great that it attracts, but by some unknown method it throws off the current to the telegraph companies wires paralyzing the system and endangering the lives of operators and employees at long distance from the place where the induction takes place and exposes the plaintiffs' property in offices connected with the circuit to destruction by fire.

NOT CONTINUOUSLY INTERRUPTED.
Since the time when the Chicago, Lake Shore & South Bend interurban company began the operation of their line, the various corporations have suffered more or less from interference of their electrical current. The strange part is that the interference is not continuous, but depends, and is coincident, with the employment of the electrical current in the operation of their cars. It varies so much that it is impossible to determine the exact time when the telegraph lines will be rendered useless. Not only are the telegraph company's lines interfered with at Gary, Michigan City or South Bend, but it results in a general tie-up and inability to use their wires all through the towns and cities east of Chicago as far as Buffalo and New York.

The railroad companies are also deprived of the use of its railroad lines, which results in a delaying of trains, endangering the lives of its trainmen and passengers and the loss of time to the United States mails under schedule which they are at this time under contract to carry.

Wherefore, the Lake Shore and Michigan Southern Railroad company, the Western Union Telegraph company, and the Postal Telegraph and Cable company pray the court with adjudge and decree that it is entitled to continue the maintenance and operation of its lines of telegraph and be free and uninterrupted from the destructive currents of electricity engendered by the defendant, and that the defendant be required, within a short time to be named, to see to it that its said railway electrical and other appliances which will neutralize the destructive currents of electricity employed by it, and prevent their interference with the plaintiffs' lines, and that in default of the defendant then adopting its system so that the plaintiffs' lines of telegraph may be operated without interference from the said destructive currents, that an injunction shall be granted restraining the defendant from operating its said line of railway until the same shall have been so constructed and arranged so as the plaintiffs' lines of telegraph shall not be interfered with, and that upon final hearing of this case such decree shall be entered making said injunction perpetual in case said defendant shall thus not equip and operate and maintain its said lines of railway with such methods as will not interfere with the operation of the plaintiffs' lines of telegraph and for such other further relief as the facts may justify and the law sustain.

MEET VERY LIVE CORPS
East Chicago Police Follow a Clew to Murder Case.

(Special to The Times.)
East Chicago, Ind., Dec. 14.—"Don't get too funny with me—I just killed my wife and might start in on you," was the exclamation of Mike Szalodiz, a Roumanian, and started inmates of the Kahn saloon at Chicago and Kennedy avenues drew back in horror. One of the men telephoned to the police station, telling Officer Quinlan of the strange declaration, and requested the sending of two or three officers to capture the self-confessed murderer.

Szalodiz was easily arrested by two police-officers and told Sergeant Bowen that he lived on Alexander avenue, near One Hundred and Forty-ninth street. Hastily noting the address, two police-officers were sent to the address given, expecting to find the murdered woman. A curious group followed them on their mission of inquiry. On reaching the house, it was found to be dark, and with a feeling akin to horror, Quinlan knocked the front door. Imagine his surprise when the door was opened by the supposed corpse, who demanded an explanation of which she was awakened at such a late hour.

Officer Quinlan was not acquainted with the woman, but others in the crowd who saw the joke that had been perpetrated upon the police by Szalodiz, began to laugh heartily, and Quinlan "got wise." Returning to police headquarters, he reported the finding of his "live corpse" and Szalodiz was brought in for an explanation. He was unable to give a satisfactory reason for the trouble he caused the police, but suggested that it was due to the unusual amount of beer that he had consumed. The officers quickly took advantage of this statement, and booked him on a charge of intoxication, for which he will be tried before Mayor DeBrie this morning.

MYSTERY IN DEATH OF A CARPENTER

Fred W. Nimon, Fourth Man to Be Killed in Four Days in East Chicago.

MAY HAVE BEEN A SUICIDE

Body of Unfortunate East Chicago Man Is Found on Pennsylvania Tracks Yesterday.

East Chicago, Ind., Dec. 14.—In the death of Fred W. Nimon, of One Hundred and Forty-third and Olcott avenues, this city, the East Chicago police department is confronted by a mystery that may never be solved. From statements made by Nimon to a police officer but a few hours before he met his death on the Pennsylvania tracks at Indiana Harbor, it would appear that the unhappy affair was a suicide, although the police must concede that finding of Nimon's lifeless body was coupled with facts that practically define it as an accident.

Found on Switch Tracks.
The body of the unfortunate man was found lying beneath two switch-tracks of the Pennsylvania company, about half a block from the Harbor canal. The body was badly bruised and the head crushed by its concussion with one of the rails. Aside from the various contusions and the crushed skull, his body was not torn, and he had evidently been thrown by a passenger train on Saturday evening. The body was found at 1:30 o'clock by a passing switchman and when discovered was covered by a thin sheeting of snow.

Teal's ambulance was immediately called and the remains taken to the Teal parlors, where Coroner E. R. Gordon held his inquest yesterday.

Nimon was in Indiana Harbor at 7 o'clock on Saturday evening and was spoken to by Officer Needles, with whom he was well acquainted. Nimon told the officer at that time that he was just on his way to East Chicago, but insisted that he was going to walk. Instead of using the Kennedy avenue route, Nimon insisted that he could reach home by walking down the Pennsylvania tracks, towards Whiting, and after bidding the officer good-bye, commenced the walk that resulted in his death.

He must have been struck by the engine within half an hour after his conversation with the police-officer, but as there were a number of trains passing both east and west at that hour, it is impossible to determine which one struck the unfortunate East Chicagoan.

Nimon is a married man, about 35 years of age, and lives quietly with his wife and four small children. He was a member of the United Brotherhood of Carpenters and Joiners, a local of which, No. 1,110, is stationed in this city. The family is grief-stricken over the terrible accident and the hand of sympathy is extended to the bereaved ones by their life-long friends in this city. The body of Nimon will be brought to East Chicago today, where it will be prepared for burial by a local undertaker.

COMMISSION AT WORK

Project of Burns Ditch Is Taken Up Today By Those Interested.

The Burns' ditch commission, which was appointed some days ago, began its first work today. A meeting was held this morning at the Victoria hotel, Gary, at which time Randall H. Burns, who is the father of the project, submitted his plans for the ditch. They will be considered first of all, as they give the first outline of the course which is to be taken by the waterway. If this course is not satisfactory the commission itself will lay out a proper course, and then proceed to make the spread of the assessments. The committee will remain in session until all the preliminary work is disposed of in order that the first ground may be broken next spring without a hitch. The committee was scheduled to hold a meeting some time ago, but this was postponed until the Porter county men could secure more necessary data.

LAKE CO. WILL GET A HARBOR.

(Continued from Page One.)

seemed earnestly in favor of the project, even going so far as to define Indiana Harbor as the greatest industrial community in the west. With such sentiments as these, there can be no doubt regarding Mr. Burton's co-operation with Congressman Crumpacker in getting an appropriation through the house, covering a sufficient amount to get the work started.

Wickey Is Re-elected.
Mr. Wickey was re-elected a director of the National Rivers and Harbors congress, occupying the same chair awarded him last year. He reports that the sessions this year were by far the most interesting in the history of the organization, and were attended by about three thousand delegates.

The East Chicago man was also present at the sessions of the Farmers' National congress, and had the honor of being the only Indiana man to address the National Conservation commission at its hearing with President Roosevelt and President-elect Taft. The sessions of both these committees were filled with interest to country-loving Americans and Mr. Wickey thoroughly enjoyed his affiliation with their interests.

Awaiting the outcome of the legislative contest proposed by Edward Simon of Hammond, against his occupancy of the representative's chair, Mr. Wickey will attend the trial of the cause at Crown Point during the next two weeks, and will attend the dedication of the monument erected on the Vicksburg battle field in honor of the Indiana soldiers who lost their lives in that memorable siege. The dedication will be held on Dec. 29, and Mr. Wickey will be a guest of the Indiana-Vicksburg Military Park commission, who had in charge the building of a suitable monument for the state's dead.

ADVERTISED MAIL.

The following letters remain uncalled for in the Hammond postoffice, week ending Dec. 14, 1908:
Simon Alexandru, Rolly Armstrong, Thomas B. Aaron, Sampson Cox, Wil-

liam Conway, James Glassford, Allen Hoffman, B. Meyers, Mrs. Anna Miller, George Moor, Mrs. V. B. Morris, Mrs. Clarence Nelson, Juan Rambo, Mrs. M. Rogers, Charles Schenelly, Earl Williams, Lawrence Zecher.

WILLIAM H. GOSTLIN, Postmaster.

AGE NO BAR

Everybody in Hammond is Eligible.

Old people stooped with suffering. Middle age, courageously fighting. Youth protesting impatiently. Children, unable to explain. All in misery from their kidneys. Only a little backache first. Comes when you catch a cold. Or when you strain the back. Many complications follow. Urinary disorders, diabetes, Bright's disease.

Doan's Kidney Pills cure backache. Cure every form of kidney ills. Mrs. D. B. Hunt, of 265 Fayette street, Hammond, Ind., says: "Doan's Kidney Pills are a fine remedy and one that should be in every home. We have kept them in the house ever since their value was first demonstrated to us. My little girl was the first to use them. We gave them to her as her bladder and kidneys were so weak that she could not control the secretions, especially at night. My back was greatly run down in health and became weak, puny, and nervous. Doan's Kidney Pills, procured at Bicknell & Co's drug store, stopped this trouble in a short time and she has since had no return of it. Other members of my family, have used Doan's Kidney Pills after this occurrence for lame back and pains in the kidneys with equally good results. They have our highest endorsement."

For sale by all dealers—Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.
