

POLICE RAID TWO MORE "BLIND PIGS"

Gary Authorities Swoop Down Upon 'Drug Stores', and Confiscate Whiskey and Beer—Chief Martin Files Affidavit.

In the raid of the notorious blind tiger conducted by the Gary Pharmacy company on Sixth avenue and Broadway, at 4 o'clock yesterday afternoon, Chief Martin demonstrated beyond all doubt that he intends to enforce the letter of the law hereafter in "Sunday school" Gary.

Immediately after the sensational descent of the officers upon this place, the drug store owned by J. Steele, on Fifth and Virginia street, was also made the object of a second raid. In both places a quantity of liquor was confiscated, which after being hauled to the police station was soaked into the thirsty sand.

It was evident yesterday that hereafter no discrimination "goes." The hurling of bombs Nos. 5 and 6, which diversion the Gary police are now enjoying, exploded with the greatest noise and smoke of any that have yet been cut loose among the public.

Raid a Common Sight.

Pedestrians on Broadway and the paths of the Broadway and Fifth avenue "speak-easy" places were amazed when the cart was hauled to the door of the drug houses and the search warrant was read by Chief Martin and Officers Newman and Miller. Instantly a large crowd gathered around, for the people of this end of the city have not yet grown accustomed to sights of this character like many have south of the Wabash.

A search for spirituous, vinous or malt liquors throughout the building revealed the presence of one barrel of whiskey and a case of beer, of which amount the Gary pharmacy was at once relieved. This was taken over to the police station, and while the contents of the barrel was being drained upon the ground the raid on Steele's new place was being executed.

May Expect More Raids.

Here a quantity of whisky was found, but no beer. This store has been but recently opened and the fact

that they disposed of liquor was not generally known to the public as it was of the Gary pharmacy. Two plain clothes men securing evidence about the city that liquor is being sold today purchased the stuff, turned over the evidence to the chief, who himself signed the application for the search warrant for the two stores.

Chief Martin said that the little affair of yesterday afternoon would not end the trouble in store for the law violators of the city. Any one caught in any part of the city would be shown no mercy, and he will show the people of Gary how tight they can clamp down the law when once they have determined to do so.

Will Enforce Blue Laws.

The chief also reiterated his statement to the effect that the stores and theaters in Gary would be closed next Sunday, and those desiring an ice cream soda or even a watermelon will have to put that delicacy on ice Saturday for consumption on the Sabbath. For this purpose four new deputies have been hired by the chief to assist in the enforcement of the blue laws, and as many more as necessary will be sworn in at any time.

The case against Charles Herboldt and J. Steele will be tried this evening in Justice Fitzgerald's court.

STANDARD FORGING CO. TO ENLARGE

Rumors Carrying Good News About Indiana Harbor Factory Are Rife—Plant's Capacity to Be Increased One-Third.

(Special to THE TIMES.)

Indiana Harbor, Ind., Aug. 4.—Rumors are rife that extensive improvements are under contemplation by the Standard Forging company, whose plant is located in Watling street, this city. The improvements will increase the capacity of the plant by about one-third and will add in the neighborhood of 100 more men into the force of 300 employed there, if carried out as indicated.

While the officials of the Forging company do not confirm this report, neither will they deny it, and the information to the effect that the improvements are contemplated seems to be authentic.

Not only will the force be increased, but the company expects soon to be in a position to require all of its men to reside in Indiana Harbor. Most of the working force already live in this locality, but about fifty of the workmen have their homes in South Chicago and Chicago. These will remove to Indiana Harbor as soon as the big sewer now under way in Indiana Harbor is completed. Superintendent Carl Jernberg has set a laudable example to his men as a lesson in confidence and loyalty to Indiana Harbor, by purchasing a lot in Grapeland and 142nd streets, and here he intends to build a home as soon as the sewer is finished.

Started Five Years Ago.

The Standard Forging company is one of Indiana Harbor's most substantial and consistent industries. It started something over five years ago with a building 500 feet in length by about 120 feet in width and a force of about 100 workmen. Additions have been added to the plant until now it occupies 12½ acres, and the building is 1,000 feet in length by 120 feet wide and the working force numbers about 300. Most of the men are Swedes, the superintendent and assistant superintendent, Carl Jernberg and his son, Richard, respectively, being of that nationality.

The president of the company is F. W. Steele of Highland Park.

Superintendent Carl Jernberg previous to his affiliation with the Standard Forging company was connected with the American Bridge company's plant in Chicago.

(Has the Daily Outfit.)

The output of the plant consists chiefly of railroad car axles and locomotive axles, although more or less shape work, shafting, etc., is turned out. Nearly 300 tons of axles and 800 tons of shafting is turned out daily. The equipment is such as to enable the plant to finish its work in toto, but this is only done for packing companies, such concerns as do not own their own car shops, the railroads for which the company does work for the most part preferring to do their own finishing. The equipment includes twelve hammers, seven of them beam hammers, while four of the large upright and one a small upright. The improvements contemplate the installation of four more large uprights according to report, and the work of laying the foundation for these has already begun.

Work Two Shifts.

The plant employs two shifts, the men working seven hours in each shift, making the total working day at the establishment fourteen hours. The record of the plant is not a single day's absolute shutdown since the plant was first opened. For a time last year there was the nearest approach to a shutdown, the plant running quite short-handed, but during this interim, some improvements of a substantial nature were added, a coat ran being erected at the time.

That the company has the interest of its workmen at heart is evidenced by the fact that it has dug a well on the premises 425 feet deep which provides splendid and healthful water, although the water contains such properties as sulphur and iron in small quantities. These, however, do not detract from the healthful qualities of the water.

GARY MERCHANTS TAKE UP MANY IMPORTANT TOPICS

At the regular monthly meeting of the Gary Retail Merchants' association, last night, new officers for the ensuing year were elected, and several important topics were taken up for consideration and discussion. Principal among the latter was the subject of rents, for business places and homes. Lower rents in Gary, it was argued, would induce more people to come there, creating a better business for the merchants, while, as for themselves the rent is such as to be a burden under which many are sorely handicapped. Another subject affecting the Gary merchants directly and the whole city indirectly was that of express rates for the city of Gary. The merchants feel satisfied that the size of the city and the amount of express business warrants a lower rate.

May Get Lower Rate.

Bearing this in mind a committee was appointed some time ago to take this matter up with the express company. This committee reported last

night that it had received word from the various companies that they had the subject under consideration and that they asked the association to give their opinion as to what should be a minimum rate. Should the association accomplish the reduction of rents, or at least to prevent them from going higher, and also secure lower rates, the members feel that they have accomplished something for the benefit of themselves and the city as well, and that their work and organization has been worth while.

New Officers Elected.

The officers elected for the ensuing year are as follows:

President—H. H. Highlands.

Vice president—Charles P. Dalley.

Treasurer—Samuel Miller.

Secretary—Leonard Fitzgerald.

Directors—Joseph Steiner, E. C. Simpson, J. M. Marks, Harry Alschuler, Walter Acker, J. W. Pryale, W. G. Riley, S. A. Huff, M. Nusbaum, Joseph

to the pavement and severely shaken up. He was not seriously hurt.

Miss Anna May Lavek of Eighty-ninth court and Buffalo avenue is spending a week at Aurora, Ill.

Kathryn Arthur, of Windsor Park, is in New Buffalo, Mich., for a month's visit.

Edward Marth of East Side is in Fremont, Mich., on a vacation.

Word was received in South Chicago Sunday that Julius C. Hostettler, who formerly lived at 1664 Avenue H, had killed himself on his father's grave in Bloomington, Ill. The following note was found on his person after his death, which he took with two ounces of carbolic acid:

"Dear Sister, Eddie and Edith—My relatives are more than I can stand. Tell Jose, my wife, she has killed one man and that was her Julius. Her address is 1977 Blue Island avenue, Goodby, and take awful good care of Eddie and Edith."

His body will be brought here for burial.

Little Joseph Yasseer, 18 months old, 8337 Ontario avenue, was instantly killed when he fell from a two-story window to the ground Sunday. He had been playing near the window, and evidently leaned hard against the screen, which gave way, throwing him to the ground.

A controller on a South Chicago street car blew up yesterday, causing a panic among the passengers in the car. The accident happened at Ninety-sixth street and Ewing avenue. When the blinding flash came everyone became panic stricken—a man jumped through a window and a young boy, 3 years old was trampled on in an attempt to escape. The injured are:

George Libby, an electrician, 10062 Avenue N, left leg burned by the explosion; taken home in an ambulance.

who have taken out government licenses are as follows: James Ray, Henry Rosenbaum, John Silson, J. G. Sigler, Cecil R. Sigler, Louis Wein, Henry Bixenman, Joe F. Bixenman, Mike N. Elsene, William Gerbing, John Gendler, Anton Helm, Thomas Hune, Fred A. Irons, Aemil Krouse, K. E. Kenyon, Harry Lassen and John Mitch.

Attorney Matthews gives the name of Henry Pitzle of Whiting and Noble Morellet of East Chicago, as those who were granted licenses in spite of the remonstrances against them. It is said, however, that these men were informed by the board of county commissioners that they must close their places on Sunday, take down their screens and remove the slot machines in their places or their licenses will be refused the next time they apply.

PLAY NO FAVORITES.

Attorney Matthews was asked yesterday if he did not think it was doing an injustice to compel them to close their places of business on Sunday when the West Hammond saloons were allowed to keep open and would do all of the business.

To this he replied that he did not intend to play no favorites. He said that all of the violators of the law looked alike to him and he was going to proceed against them, regardless of who they are and where they are doing business.

A Lazy Liver

May be only a tired liver, or a starved liver. It would be a stupid as well as a savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with over work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the detection of other organs.

If you have bitter, bad taste in the morning or a lack of appetite, coated tongue, foul breath, constipation or irregular bowels, feel weak, easily tired, dependent, frequent headaches, pain in the digestive organs, gnawing or distressing pain in stomach, perhaps nausea, or a "sour" rising in throat after eating, and kindred symptoms of weak stomach and torpid liver, no medicine will relieve you more promptly or cure you more permanently than Doctor Pierce's Golden Medical Discovery. Perhaps only a part of the above symptoms will be present at one time and yet point to torpid liver or biliousness and weak stomach. Avoid all hot bread and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery" regularly and stick to its use until you are vigorous and strong.

The "Discovery" is a non-secret, non-alcoholic, is a dietary extract of five medicaments with a full list of its ingredients printed on each bottle-wrapper and attested under oath. Its ingredients are endorsed and extolled by the most eminent medical writers of the age and are recommended to cure the diseases for which it is advised.

Don't accept a substitute of unknown composition for this non-secret MEDICINE OF KNOWN COMPOSITION.

LAKE COUNTY HOPES THAT STRIKE WILL NOT BE CALLED

The fate of the traveling public in Hammond, East Chicago and Whiting so far as the South Chicago City Railway company's lines are concerned will be decided tomorrow in Chicago at the referendum vote of the union employees, which will decide on the question of whether or not the 9,000 motormen and conductors on all the lines operated in Chicago between Evanston and Hammond will strike, accept the terms of the company, or arbitrate their difficulty.

Today it appears as if the union men had decided upon war, and if the lockout goes into effect this region may again witness as stirring scenes as were enacted at the time of the great strike of the Pullman car workers, when Hammond was under martial rule. The developments in the situation to date are:

The Illinois state board of arbitration will volunteer their services in case they are not approached by the competing parties officially.

The city will take a hand in the matter as co-partner of the companies.

Edwin L. Reed, "captain of strikebreakers," announces the presence of 5,000 available strikebreakers in Chicago to work under contract in case the lockout is called.

Union officials hold conference to promote the referendum strike vote to be taken tomorrow.

Employees of lines in the Calumet district will confer with President Mitten this afternoon respecting local demands.

The only ray of hope discerned today in the gathering war clouds is the fact that the state board of arbitration, although their services have not been sought, will go to Chicago today, where they will attempt to induce the motormen and conductors to positive in nature.

Reed was talkative enough in contrast with the silence of the officials of the traction companies, including the one he says he is under contract to serve. The "king" made no attempt to conceal his supposed relations with the Chicago City Railway company.

He admitted that he had been retained by President Mitten of that company and his assertion that he had a contract to furnish strikebreakers in case of a walkout on the part of motormen and conductors was positive in nature.

That he did it for the good of suffering humanity he thinks that he was justified in imposing the penalty which he did, in preference to fining him a large sum of money.

Although Mayor Smith is being criticized to a great extent in the case, the majority of fair-minded citizens think with him that under the circumstances closing Barotinski for five days was sufficient punishment.

To give an idea of what is being done and what may be expected, the work of Attorneys Matthews and Bruce, before the county commissioners yesterday, is a fair sample. The following is a list of the licenses that were refused and the reasons for refusing them.

John T. Kinde, Hammond—License refused because the saloon was not on a highway.

Matt Bratich, Whiting—License refused because he applied for a man by the name of Bucowski, who had kept an illegal place.

Charles Stevens, Lowell—License refused because he permitted people to frequent the place on Sunday and allowed a card room adjoining the bar room.

Frank Sacher, Whiting—Refused a license because he was applying for Frank Sacher and because the brewer owned the fixtures and the place.

Fred A. Irons, Cedar Lake—Refused a license because he was running a place formerly run by Annie Rooney, a woman of bad character.

Sam Gobitz, Hammond—Refused a license because he had sold liquors contrary to law and had been complained against.

Robert Russell, Cedar Lake—Refused a license because he had conducted a place where gambling was permitted and where women of bad character congregated.

WHY THEY WERE REFUSED. These give a good idea of the reasons why certain licenses were refused. It can be seen that any infraction of the law, no matter how trivial, are taken as an excuse for putting a man out of the business.

These attorneys, who are working indefatigably to wipe out saloons in Lake county, say they have only begun their work. They claim that at each session of the county commissioners they will appear against all of the saloonkeepers against whom they can secure evidence.

For instance, they went to Indianapolis and secured the evidence from the office of the United States internal revenue that the following Cedar Lake men have government licenses and only six or seven of them have county licenses. Consequently a large number of these men are alleged to be running "blind pigs."
