

GARY GROWING AS A CITY OF HOMES

Building Operations After a Month
of Quiet Resumed With
New Vigor

TOLLESTON PROGRESSES

Plans for Residences and
Flats Are the Order
of the Day.

Although the building situation, according to the opinion of the local architects, has been dull during the past month, yet the present status indicates that there will be a general revival in Gary from now on. As every day passes Gary is becoming more and more the city of homes. A trip through the residential section of the city and south end will show that new residences

are springing up every day.

Architect Erickson Buys.

Probably one of the busiest architects in the city today is Walter Erickson, who is preparing plans for a number of new residences and store buildings in Gary and Tolleston. Probably the most important of these is the storage house of Anchors & Hall, which will be erected on Washington street, between Sixth and Seventh avenues, at a cost of about \$10,000. The building will be a two-story brick structure, absolutely fireproof, and will be used for storage purposes. Plans are also being prepared by Mr. Erickson for an eight-story building for Andrew Volasko of Tolleston, costing \$20,000. The new flat building will be erected at the corner of Bormann boulevard and Main street. It will be a two-story brick structure, 60x125 feet. Mr. Volasko also let the contract for a two-story brick store and flat building this week to Contractor E. E. Eckert of Gary. The plans of the new building were prepared by Architect Erickson, and the cost of the structure will be \$6,000. Other plans being prepared by Mr. Erickson are:

One-story frame addition for the new

fire station at the corner of Washington street and Thirteenth avenue. The new addition will be forty feet in length and will be used as a barn and store room for the fire equipment, which will be placed there as soon as the building is completed.

Two-story frame residence, 26x28, for George P. Guffin of Guffin & Manzy, real estate dealers. The new residence will be erected at the corner of Harrison street, near Sixth avenue, and will cost \$4,200.

Two-story frame residence, 26x30, on Tyler street, near Eighth avenue, for Attorney A. T. Freer. It will be a seven-room residence, with modern plumbing, heating, etc., and will cost about \$3,500. Mr. Erickson is also preparing plans for a new residence for himself answering the same description as the one above for A. T. Freer. It also will be erected on Tyler street. Work was commenced this morning by E. E. Eckert on the foundation work.

Architect Walter Hudson Is Busy.

Architect Walter Hudson has let the contract for the two-story frame residence for Claude DeGrush in Tolleston. The building is 24x32 feet, all modern and will cost \$3,500. Mr. Hudson also let the contract yesterday for the improvements to be made to the Nuppan Bros. store on Sixth avenue and Connecticut street to Herman Kieselbach. The building will be veneered with brick, and a new store front will be constructed. The improvements will cost \$2,500.

Mr. Hudson has also awarded the contract to the Mayer Home Building company for two two-story frame residences for Mr. Winters. They are to be erected on Madison street, near Thirteenth avenue.

Architect Friedlander Lets Contract.

Architect J. Friedlander yesterday let the contract to E. E. Eckert for a new two-story brick veneer residence for himself, to be erected on Adams street, between Sixth and Seventh avenues. The new residence will cost \$5,500. Work will start this morning on the excavations.

Architect J. W. Masen of Gary is preparing plans for a two-story brick residence, 28x33, for Messrs. Wilson & Wilson of the Brennan block, Gary.

Plans for Baptist Church.

Several local architects are now preparing plans for the new Baptist church at the corner of Fifth avenue and Jefferson street. As soon as the plans are finished they will be turned over to the church building committee and a selection will be made. The brick for the church have already been purchased and are now being placed on the grounds. This is being done so there will be no delay in the arrival of the building materials after the contract for the church is awarded.

Commence on Lichtenstein's Building.

Work was commenced this morning on the new Lichtenstein building on the corner of Seventh avenue and Washington street. The material for the building has been arriving daily and work will be rushed henceforth. The owners have decided to erect an additional story, making the building a three-story structure. The cost will now probably reach \$25,000 before it is completed.

Michigan, it was possible to file the case in any county in any state through which that road traversed. The voluminous complaint contains eighty-four closely typewritten pages, of which there are six paragraphs of complaint. The case was filed in the name of the circus, Benjamin E. Wallace.

The complaint states that the wreck occurred on July 7, 1903. The train, composed of passenger cars, stock cars and flat cars to the number of thirty-six, running in two sections from Trowbridge to LaPeer, and that at the City of Durand the first section of the train stopped at the depot in the middle of the night. Flagmen were sent back to stop the second section of the train to place torpedoes on the track. The breaks on the engine of the second section, being defective, however, the train was unable to stop and crashed into the rear of the first section.

The engineer had previously reversed and jumped, saving his own life. The lives of many others, however, were sacrificed and many were badly bruised and injured. The scene was one of the most terrible ever witnessed. Wild animals, whose cages had been broken open, escaped and ran about the city. Others terribly injured moaned and howled and this, together with the cries of the humans, made the horror indescribable.

One of the Greatest Shows Today.

The actual damage to animals, tents, wagons, equipment and cars was estimated at \$100,000. The other \$25,000 was paid for the loss in advertising and billings towns which they were unable to appear in by reason of the accident, and for the profits which they lost in not giving the exhibitions.

The "Great Wallace Show," as it is called, after the wreck purchased the Haggenback circus and proceeded on their trip through the country. Today they have one of the biggest shows in the country and have been all over the world since the accident. They are now in the vicinity of Denver and moving towards Chicago. The name of the circus is familiar to millions of people throughout the civilized world.

RADBOURNE'S FATHER DEAD

Bloomington, Ill., Aug. 4.—Charles Radbourne, father of Charles Radbourne, one of the world's greatest baseball pitchers, died here last night, aged 55. He was always active in outdoor sports. One daughter, Mrs. Samuel Bennett, lives in Chicago.

Unaccountable Otherwise.

A traveler who has recently returned from Japan alleges that he saw a really pretty Japanese woman while he was there. We suspect that he had been drinking when he met her.

THEY NEVER FAIL

That Is What They Say About Them in Hammond, and It Is Therefore, Reliable.

Another proof, more evidence, Hammond testimony to swell the long list of local people who endorse the old Quaker remedy, Doan's Kidney Pills. Read this convincing endorsement of that remarkable preparation:

Mrs. D. B. Hunt, 255 Fayette street, Hammond, Ind., says: "Doan's Kidney Pills are a fine remedy and one that should be in every home. We have kept them in the house ever since their value was demonstrated to us. My little girl was the first to use them. Her bladder and kidneys were weak, and she could not control the kidney secretions, especially at night. She was greatly run down from this trouble and we could see that it was seriously affecting her health, as she became weak, puny and nervous. Doan's Kidney Pills removed the trouble in a short time and there has been no return of them. My daughter's health has been improved greatly and she is free from kidney complaint. Other members of my family used Doan's Kidney Pills for lame back and pains in the kidneys with equally good results. This remedy has our highest endorsement."

NELSON SCORES A KNOCKOUT

Philadelphia, Aug. 4.—Battling Nelson, champion lightweight pugilist, is as tickled today as the tramp that slept in the Astor bed. The fighter scored what he calls a "clean out victory" over an exclusive hotel here last night.

"I ran over here last night to do a little publishing business," said Nelson, "and incidentally, I put one over on a swell hotel. You remember some time ago, when I came over here and registered 'H. Nelson, Hegewisch, Ill.'? I got the 'polite office' at the desk, to-wit:

"Sorry, but we're all full. In the course of an hour's time we may fix you up." I returned in about an hour and inquired for a room and was told the same thing that they banded me earlier in the evening.

"Last night I put one over them by wiring a friend of mine to secure a room for me in advance, which he did, and paid for. When I came over I got the key and went to my room and dictated to the hotel stenographer. I was not discovered for an hour, as there was quite a crowd downstairs when I came in. It happened that all the bell-boys were busy. I was therefore overlooked.

"About midnight, a house detective

came up to make me vacate the room, but I protested, and besides the door was locked. In the morning I had breakfast, and I am now even with the hotel."

THE TIMES IS TRYING HARD TO MERIT THE SUCCESS IT HAS ACHIEVED.

IT'S HARD TO JUDGE—

The merits of an article except by experience. But if you will just ask some of your neighbors 'who use gas, what they think about it. You'll learn that it is not only economical—But the quickest and most convenient method of cooking, THE YEAR AROUND.

A \$300.00 PIANO FOR \$50.00

They are going to move to another city and they don't want to carry so much furniture with them. They have a standard make piano which cost \$300.00 a year ago. Willing to sacrifice it for \$50.00 spot cash, if bought this week.

Are you able to snap up a bargain like this when you see it? It's a shame to have to let such a money saving opportunity escape you when you want so hard to take advantage of it. You could easily pay the \$50.00 in installments of \$5.00 or \$10.00 a month perhaps, but the other fellow wants the full amount.

Why not get the full amount from us, turn it over to the man who wants to sell, and then pay us at the rate of five or ten dollars a month? Isn't this the sensible thing to do?

Opportunities such as we have mentioned are happening right along, but those who are unable to profit by them on account of not having the ready cash, do not always think of coming to people like us to help them out. And to such persons we want this advertisement to serve as a reminder.

We advance money privately on furniture, pianos, horses, wagons, etc., and the property remains in your possession. You can get the money within a few hours time, sometimes within an hour.

Compare our rates with others. You will find our payments easier, the cost lowest, and our service the best.

Ask about the large rebate if the account is paid before it is due. We give you a statement of your account showing all details.

If you owe another loan company, we will pay them off for you and give you more money at lower rates than you are paying.

There are many other advantages to be had by dealing with the oldest, largest and most reliable company in the Calumet District. REMEMBER—We are the plain figures and square deal company. Call, write or phone, and our representative will see you. We make loans anywhere in the Calumet District on a few hours notice.

No Cure No Pay

NO MATTER how long you have been sick or how many have failed to cure you, come to me. IF I CANNOT help or cure you, I will not take your money. I HAVE HAD twenty-nine years experience curing the sick. DURING THE PAST NINETEEN YEARS, I have made a specialty of curing hard and puzzling cases that other physicians had failed to cure or had imperfectly cured, and have succeeded in curing thousands of those who were pronounced incurable.

DON'T HESITATE to call on me, for if I cannot cure you, I will tell you so promptly and charge nothing for the advice.

Get my agreement in writing. I will tell you just what it will cost to cure you.

MODESTY.—Many times people suffer untold agony from ailments, of which, through modesty they dare not speak to physicians. I will say to all such, if you have any disease or ailments that you don't want the world to know about, call in and tell me about it. You can always depend on getting the BEST POSSIBLE ADVICE AND TREATMENT, AND EVERYTHING WILL BE STRICTLY CONFIDENTIAL. ADVICE ALWAYS FREE.

DAMAGE SUIT FILED FOR \$125,000

Amount Involved Is Largest
Ever Claimed in Northern
Indiana—Wallace Shows,
Plaintiff, Against Grand
Trunk Railroad.

GROWS OUT OF TRAIN WRECK SIX YEARS AGO

Disastrous Rear-End Collision at LaPeer, Mich., Resulted in Death of Twenty-Seven People and Injury of Hundred Others—Valuable Trained and Wild Animals Killed.

A damage suit for \$125,000, the biggest ever brought in northern Indiana, was filed yesterday afternoon in the Porter circuit court by Attorneys Fetterer and Hall of Gary, in which the Wallace Show company seeks to recover from the Grand Trunk Railway company that amount for the destruction of its cars and animals in a wreck which occurred on this road July 7, 1903.

This rear-end collision, near the town of LaPeer, Mich., was one of the most disastrous in current history. Twenty-seven persons were killed and a hundred seriously wounded, many of the circus cars were demolished, and dozens of elephants, camels, lions and other valuable trained and wild animals were killed outright.

In addition to Attorneys Fetterer and Hall of Gary, the firm of McIntyre and Mulligan of Chicago are interested in the case. This firm originally brought suit in the United States federal court at Indianapolis and after it had been pending for several years was finally thrown out because that court did not have jurisdiction. The local firm was then engaged and a new complaint, which was filed yesterday, was drawn up in Gary.

Rear-End Collision.

Although the accident happened in

Michigan, it was possible to file the case in any county in any state through which that road traversed. The voluminous complaint contains
