

E. CHICAGO CRUSADE GOING ON

That Mayor McCormack of East Chicago was not playing to the galleries when he advised the soft drink proprietors that the sale of whiskey must cease was in evidence again Saturday night and Sunday when several raids by Chief Williams and his officers resulted in the confiscation of about fifty gallons of the very best kind of booze.

The fun started Saturday evening and after getting the goods on several men operating in what were saloons a respite was taken until Sunday morning when suspicions were confirmed in practically every place visited.

The following men were placed under arrest: Ignac Dzidowicz, Lithuanian, 5601 Baring avenue; Frank Siglitz, Croatian, 501 Emily place; Joe Balin, Hungarian, 509 143rd street; George Sateka, Lithuanian, 4945 Baring avenue; Thomas Lestakauskas, Lithuanian, 4945 Baring avenue; Rade Kusanovich, 622 161st street; George Bloskey, 702 151st street; Kasimir Woznicki, 4852 Macoun avenue; Tony Kairis, 5005 Baring avenue; John Flora, 4749 Melville avenue, and two Roumanians, who were picked up at the Lake Shore station with about a gallon apiece in their possession.

This is the third time that Tony Kairis has been arrested, the two previous arrests resulting in a fine in each case. He is now on bond to appear before the federal court as a result of prior investigations.

John Flora, Melville avenue, had over \$1,000 on his person when searched at the East Chicago station. As Mayor McCormack said, however, "What profiteth a man if he maketh thousands of dollars and lands in the penitentiary?"

City Judge Cohen will hear the above cases as fast as he can get to them on the calendar.

The funeral of William Foster, 4921 Melville avenue, East Chicago, died of pneumonia following an attack of influenza at Camp Custer, will be a public service attended with military honors and will be held tomorrow (Tuesday) at ten o'clock in the lobby of the city hall.

The address will be given by Rev. J. M. Howard, colored pastor at Indiana Harbor. The body, which is in charge of Undertaker Huber, will lie in state in the city hall corridors from nine until ten o'clock when the service will begin.

Soldiers will act as pall bearers and the procession to Oak Hill cemetery, Hammond, will be escorted by officers from the department of city police. There will be a firing squad and a bugler in attendance.

A committee of citizens has charge of the preparations and they are extending an invitation to the whole community, irrespective of race, color or creed, to turn out to the service tomorrow morning and do honor to one of our colored men who thus has given his life on our own soil to the upbuilding of our army.

This committee consists of Abe Otenheimer, John Tinsley, J. O. Sinclair, Frank Callahan and R. M. Boyce.

The deceased has been in service only about one month. He leaves a wife only.

He said there can be no discussion

of President Wilson's terms.

"To discuss them under an armistice does not square with our military advantages," he said. "We demand resubmission, purely and simply. It is hardly possible after fifty months of bloodshed that anyone can even think otherwise."

On the "New Democracy Against Kaiser Booke," Mr. Grathwell said the German atrocities and outrages can be traced directly to beer. He cited the famous statement of Emperor William, "The nation that drinks the least beer shall win the war." Saying that intemperance of the Germans led to excesses and wanton crimes. War pro-

hibition in the United States is not enough, he said. Prohibition at all times is necessary to safeguard the nation. Alcohol kills three times as many men as war. War takes the strong men, but alcohol takes the strong and weak. A democracy needs moral men and women. Delegates who had taken part in the early struggle of the organization to obtain temperance legislation recalled the days when the liquor forces controlled the state.

Unconditional surrender characterizes the general comment. It is felt that Germany and her allies have not gone far enough for an armistice, and that, although they have stated that they are willing to talk peace on President Wilson's plans, they have not shown submission, such as was forced upon Bulgaria.

"Germany wishes to stop the war at the moment she is going to be beaten, and knows it," says Figaro. "Let us suppose the proposition is accepted. Immediately Germany there would be a delirium of joy. The people are electrified and the Kaiser has retaken them into his hands. The humiliation of having demanded peace would disappear rapidly. He becomes the hero of heroes. He has resisted a world coalition."

"We are on the road to victory," says L'Homme Libre. "We will not let them stop us. An armistice is not possible at the point at which we now are. Maximilian of Baden's propositions for peace are insufficient. We would not be satisfied with autonomy for Alsace-Lorraine. We want reparation for the past and guarantees for the future. Maximilian is silent on these two important points. The war continues. Germany is in despair. She begins to feel the anguish of her defeat."

Dr. Hale, in announcing the order, said that it was taken as a preventive measure against an epidemic of influenza in the city which has marked many cities in the East, and in view of the fact that Surgeon General Blue, in a Washington dispatch, recommended such action wherever an epidemic loomed.

As the order will be in effect indefinitely, notice will be given through the press as to the date schools will be resumed.

The theaters and moving picture houses will close in compliance to the request.

Germs Readily Transmitted.

Dr. Hurty, in explaining the action of the board, said that the influenza germ is transmitted in crowds very readily. School children and others are carriers of the germs, he said, although often seemingly unaffected.

When asked concerning the length of the epidemic, Dr. Hurty said that its course was approximately six to eight weeks, a recurrence in some cases being noted. He would not say, however, that the closing order would be in effect for any such length of time, as the city is not in the clutches of an epidemic, the

NEW STATION FOR PENN. RY

The Pennsylvania Railroad Co. began work in East Chicago this morning on one of the finest freight stations that the Calumet district affords.

It will be commodious, conveniently arranged, equipped with the necessary offices and with modern filing equipment.

It is to take the place of the structure that was located on Tod avenue and that burned down a year ago. J. J. Dreesen, agent, says that it will be a structure that the city as well as the company will be proud of. More complete details later.

Grathwell Substitutes Bryan at State Gathering at Richmond, Ind.

RICHMOND, IND., Oct. 7.—At the forty-fifth annual convention of the Indiana W. C. T. U. yesterday, Samuel Grathwell of Cincinnati, associated with the Ohio dry faction, delivered addresses afternoon and evening, taking the place of William Jennings Bryan, who was unable to appear.

On the "New Democracy Against Kaiser Booke," Mr. Grathwell said the German atrocities and outrages can be traced directly to beer. He cited the famous statement of Emperor William, "The nation that drinks the least beer shall win the war." Saying that intemperance of the Germans led to excesses and wanton crimes. War pro-

Boy Scouts Show Grown-ups How To Raise Corn.

The Boy Scouts of Washington, D. C., not only have made two ears of corn grow where one grew before, in the fields about the Nation's capital, but they have made as many as five, six and seven ears grow where none grew before! Enlisting as regulars in the great Food Conservation army of the Food Administration, they planned and planted their crop unaided.

The crop which they gathered from the reclaimed mud-flats of the Potomac, in particular, is worthy to be representative of the efforts of the nation.

Visitors from all over the United States and the whole world who have driven and motored in Potomac Drive, known as the "speedway," back of the Monument, have wondered all spring and summer about the beautiful corn crop which nodded in the breezes from down the river. Who planted it, whose was it, and who was going to take it away, were daily questions asked of the chauffeurs and cabbies who piloted the visitors about. Very few knew the answer to all of the questions, but now there is no need to ask them.

A perfect swarm of small persons in khaki, replicas of their older brothers across the sea, are flocking into the corn fields and stripping the tall stalks of their juicy burdens.

The Boy Scout Food Administration regulars are way up and "over the top," when it comes to growing corn.

number of cases being too small to be so considered.

Dr. Hurty wished it made plain that the measure was taken wholly as a preventative against an epidemic. The ravages of the disease in other cities and the manner in which it has swept through Germany, Spain and other European countries and through many army units of those countries. The disease was prevalent in Germany during May, June and July.

Plenty of fresh air and sunlight, with exercise, are the best preventives, according to Dr. Hurty. He advocates clean surroundings and warns against the use of brushes in dusting.

GARY WOMAN'S ASSAILANT ARRESTED

John Sims Held in Chicago, Accused of Crime Last Summer.

A negro by the name of John Sims, who has been identified as the assailant of Mrs. William Davenport at East Gary last summer, was captured Saturday and is now being held in Chicago. The negro refuses to come to Indiana without extradition papers.

Last summer Mrs. Davenport at East Gary was viciously attacked by a burly negro who made his escape. Upon description of the negro given by Mrs. Davenport officers of the law have been working on the case ever since. Deputy Sheriff Fred Stultz, through another negro acquaintance of Sims, got a clew on Mrs. Davenport's assailant. Sims worked at the East Gary foundry and immediately after the assault left for East Chicago where he obtained work under an assumed name. After a few days in East Chicago he went to Chicago under his right name and wrote to his former landlady, a colored woman, living at 315 West 11th avenue, Gary, stating that he would never return to Gary and that he wanted her to go to a Gary cleaner and send to his address in Chicago two suits of clothes he had left with the Gary cleaner. The woman confided in Sims' friend who confided in Sheriff Stultz who traced the address of Sims in Chicago, the arrest being made on Saturday.

Sims fights being brought to Indiana without extradition papers from the governor of Illinois. Sheriff Stultz will leave for Indianapolis today to obtain the governor's warrant when he will go to Springfield for extradition papers to bring Sims to Indiana.

Spanish Influenza CAUSES HER DEATH Popular Young Whiting Woman Victim of Epidemic Yesterday.

WHITING, IND., Oct. 7.—Spanish influenza was the cause of another sad death in Whiting yesterday morning when it claimed Miss Sophia Wenger, age 24 years, who passed away at her home in Davidson place.

Miss Wenger was an estimable young lady and was a graduate of the Whiting high school. For the past seven years she has been a valuable and trusted employee in the office of Henry S. Davidson and was elected an officer of the Whiting Savings & Loan Association, being assistant secretary. She was at her post Friday evening, but on Saturday was very ill. On Sunday morning she appeared to be resting very easily, being asleep at 10 o'clock. Fifteen minutes later the mother again went to her daughter's bedside and found that life was extinct.

Mrs. Wenger is survived by her mother, Mrs. R. H. Wenger; her sister, Carrie, who entered a convent several years ago; her sister, Miss Pauline Wenger, of Whiting; and another sister, Mrs. Joseph Krieger, of Gary.

The funeral will be held Wednesday and will be in charge of Undertaker Owens. Services will be at the Sacred Heart church on Wednesday at 9 a. m. Interment will be at St. Joseph's cemetery, Hammond.
