

SETTLES STRIKE FOR A PERIOD

At a monster meeting of some 500 striking steel workers of the Gary crew and Bolt works at Turner Hall at Fourteenth avenue and Broadway last night, an agreement was reached between representatives of the company and the strikers.

last Monday morning when a general walkout occurred, the plant resumed operation this morning and practically all employees are back at work. The strike effected in the neighborhood of 20 percent of the employees.

The agreement reached was that all men who had been laid off be reinstated and that all employees be given the time and one-half for overtime claimed to be taken away.

While the strikers have other demands to make, they will not be presented until in the near future, when it is said in union circles that the unorganized labor body of the Bolt and steel workers will go before the officials of the United States Steel Corporation of Gary to discuss the labor situation.

When the climax is expected is not definitely known. The conference is

expected to come up though, within the next month or six weeks. The various iron and steel labor bodies are holding regular and big mass meetings and it is evident that they are putting all their efforts forth to be prepared for the big fight. Some of the demands which will be made to the Steel Corporation will be printed in these columns yesterday.

Intense interest is now being displayed, not only by the steel workers but Gary as a whole. Should the Steel Corporation refuse the demands and the steel workers walk out, it is said that the steel corporation is now in a position to start a

RAIN STOPS GARY FLIGHTS YESTERDAY

A heavy rain in the morning, causing a soggy field, prevented Pilots Paul Milner and G. W. Parmley of the Interstate Air Line Company of Chicago from making any passenger-carrying flights in Gary yesterday.

The failure of the arrival of some special gasoline from Hammond was also responsible for the two biplanes not leaving the ground.

In a fifteen minute interview with Mr. Milner and Parmley, a Times reporter found the two air pilots very pleasing and interesting to talk to. Both appeared to be very enthusiastic over their work and said while flying was a business matter with them, they at the same time derived a lot of pleasure out of the game.

Good Landing Site.

"This is a very good landing site," said Pilot Milner, "and if the city is figuring on securing a municipal landing site which they will have to no doubt in the future, I do not think Gary could find any better."

"It is just far out enough from the outskirts of the city and close to the street car line. From every direction one gets an open view of the field from a long distance in the air and there is ample ground for a good take-off and to land. All that would be needed would be to level the ground in a few places, and a heavy roller would accomplish the purpose nicely."

Gary Should Take Action.

"It will only be the matter of a short time that Gary will find itself behind the time if it does not take a landing field for the air ships. In another five years the air will be common with aeroplanes and if Gary is not on the air map, why aviators will not even give it the once over."

Five Years Ahead.

"England is five years ahead of America in her airship program. All important cities in the country have landing sites and all that a pilot has to do is to look at his map and he can find its location and whether suitable or otherwise."

"This is what we are endeavoring to do in America and soon it will be possible for us to get a machine at Chicago, take a trip to Gary, Michigan City, South Bend, and other cities en route and land where we please. These numerous landing sites will also aid in the safety of the game, as a pilot never knows what is going to go wrong with his plane and if something does go wrong, the first thing he will do is to look below for a landing site."

FOR UNIVERSAL TRAINING

(INTERNATIONAL NEWS SERVICE) WASHINGTON, July 31.—Universal military training for the army and navy is provided for in a bill introduced in the house today by Rep. Kahn, of California, chairman of the house military affairs committee. All male citizens and those who have declared intention of becoming citizens between the ages of 18 and 20 years, would be affected. The training would be for a period of six months, with additional time for enrollment, mobilization and demobilization.

STANDARD OIL CO. BANQUETS

Board of Directors and Committeemen Meet at Fine Spread.

(SPECIAL TO THE TIMES) WHITING, Ind., Aug. 1.—The Board of Directors of the Standard Oil Co. of Indiana and the members of the Joint General Committee of the Whiting refinery met at a dinner and conference in the dining hall at the plant on Thursday evening. This company recently put into effect an Industrial Relations Plan, whereby representatives, elected by the employees and representatives appointed by the management, formed a committee empowered to consider any matter of mutual interest to employees and management or any matter of special interest to employees.

The Board of Directors has adopted as a policy a plan for meeting with these representatives for the purpose of becoming intimately acquainted with them and thus break down the imaginary barrier often existing between employees and officials of a corporation.

A number of those present addressed the meeting and expressed themselves freely in regard to the Industrial Relations Plan recently adopted and in regard to other general policies of the company. The entire evening was expressive of a general feeling of harmony and co-operation.

WHITING PEOPLE TESTIFY AS FRAUD

So. Chicago Lawyer Tried in Whiting City Court Yesterday.

(SPECIAL TO THE TIMES) WHITING, Ind., Aug. 1.—Attorney C. H. Greenwald of South Chicago was arraigned in the city court on the charge of obtaining money under false pretenses. For this offense he was fined \$50 and costs, and appealed the case to a higher court. There are three similar charges pending against Greenwald in the Whiting city court, these being preferred against him by Elizabeth Kabeel, Joseph Lesko and John Hajduk. He is under \$500 bonds in the Kabeel case, \$500 in the Lesko and \$500 in the Hajduk case. The Hajduk case is booked for August 22.

Greenwald, it will be remembered, is said to have secured money from a number of Whiting people by means of an insurance misrepresentation.

AUTO ACCIDENT PERILS GIRL CAMPERS

News of a bad accident to Miss Edith Carlson, who is soon to wed Dr. J. F. Drummond, the Gary dentist, reached friends in East Chicago this morning.

Miss Carlson with a large party made up of her chums from Chicago went to the Adirondacks for a camping expedition of the Interstate recreation faculty where more than fifteen hundred girls were having a splendid time. A favorite pastime was canoeing and gathering of twenty indulged in this sport with the result that when the party reached its destination where a dancing pavilion afforded dancing and music for the evening, six of the number felt inclined to return back by water and so the trip was commenced in an auto. In a narrow turn of the road the machine containing the six young ladies slowed down and sounded their horn but an approaching car not hearing or seeming to see the approach of their car and going at a very high rate of speed, crashed into them turning their car turtle with the occupants pinned beneath. Miss Carlson suffered a broken ankle.

ROUMANIA PROFOUNDLY DISSATISFIED

By ARTHUR LUCIEN JONES (Exclusive Cable to the I. N. S. and the London Daily Express.) BUCHAREST, July 30 (Delayed).—Roumania is profoundly dissatisfied with the peace conditions and unless I obtain guarantees of some concessions I shall resign, declared Premier Bratiano, of Roumania, in an interview today. He continued:

"The reparation clauses are insufficient and it is unfair to expect us to pay any portion of the Austro-Hungarian debt if Transylvania is ceded to us. Roumanians are indignant that Paris (the peace conference) made so many concessions to Serbia at our expense. We are sure our troops, with the help of our allies, can crush Bela Kun."

"We think that Paris and London do not understand the menace to the peace of Europe that lies in the soviet government at Buda Pest. It is a festering sore."

LONDON COPS ON A STRIKE

(INTERNATIONAL NEWS SERVICE) LONDON, Aug. 1.—The strike of London policemen, called for today, proved a failure. Only 224 out of 8000 men on duty had left their posts this morning. Not a single man in the west end went out.

The strike, however, promises to bring serious consequences and the home secretary conferred with Premier Lloyd-George.

The city electricians and the railway engineers are threatening to go out in sympathy.

The strike threatens to spread to the provinces.

EVANSVILLE — An engine made in Evansville made the round trip trans-Atlantic flight on the British dirigible R-34. It was used for com-

PRETTY GIRL TRIES TO END HER LIFE

False rumors on the part of neighbors and friends concerning Miss Laura Mazurkiewicz, of 4856 Walsh ave., East Chicago, a pretty and popular girl in Polish circles brought about a shattered romance, it is said, and induced melancholy on her part which resulted in the attempt of her taking her own life by swallowing a mixture of iodine and carbolic acid, Tuesday evening at her home about midnight. Her means brought the attention of the other members of the family who immediately summoned medical aid. With quick measures her life was saved. The young woman is in her twenty-first year and has been employed by a cloak firm on Milwaukee avenue for the past few years.
