

BARBER IS ARRESTED

Roy Breeding Figures In White Slave and Drug Ring.

CHICAGO, Aug. 11.—Through the arrest of Roy Breeding, a barber from Indianapolis, who had 150 lurid letters and a mysterious private telephone book containing more than one hundred Chicago numbers, the police obtained evidence yesterday which they believe points to the existence of a ring of white slave and drug operators in the city. They also believe the "ring" conducts a wholesale traffic in drugs.

Emmett Donohue, a bell-boy, Frank Read and a "Miss Brady," twenty years old, who says she was lured to this city from Indianapolis by Breeding on the promise of marriage, also were arrested.

The girl, who claims to be a member of a good family, was released in custody of a private detective.

Read, who says he is a traveling salesman, denies having had any criminal part in the scheme.

The girl and Read were arrested in the latter's room.

Donohue confessed, the police say, that Breeding brought the girl to the hotel and introduced her to Read and that he had become party to a scheme to call her from Read's room and others in the hotel.

The girl told the police she had been led to believe he was a man of importance and had been overwhelmed by his ardent wooing and promise of marriage.

BRANDEIS IN FAVOR OF PALESTINE

FLOYD MACGRIFF (STAFF CORRESPONDENT L. SERVICE) LONDON, Aug. 11.—Louis D. Brandeis, of the United States Supreme court, who has just returned from a seventeen-day tour in Palestine, declared today that he is heartily in favor of making that country the national homeland of the Jews.

"I understand now why the Jews love this land," said Mr. Brandeis. "I understand why they want it, why all the world wants it. It is because it is well worth having. That is the thought that struck me standing before Mount Olivet overlooking Palestine, and it is known to be true."

Mr. Brandeis was accompanied by Jacob D. De Haas, executive secretary of the Zionist movement in America. They visited twenty-three Jewish colonies and the city of Jerusalem, Jaffa, Haifa, Safed and Tiberias.

It is regarded here as certain that the British government will adhere to Foreign Secretary Balfour's pronouncement guaranteeing the establishment of a Jewish homeland, the details of which are being worked out.

Mr. Brandeis and Mr. De Haas brought back an enthusiastic report of the possibilities of one great Jewish settlement in the Holy Land. Even at a conservative estimate they believe the population would be 3,000,000, while it may reach 5,000,000. They found the present population literally thirsting for an opportunity to get American help in any direction. They are eager and willing to be "shown" how to develop their country on modern lines.

DODGE DOG. CAR FLOPS

Gary Family try to be Kind To Animals With Disastrous Result.

In attempting to avoid hitting a dog at Nineteenth and Taft sts., in Tollenstons, a Ford automobile containing four people had a miraculous escape from serious injury yesterday evening when the Ford turned turtle and again righted itself and finally came to a stop up on the curb.

The Ford was driven by J. Schack, 324 Delaware st., Gary, and was occupied by Mrs. Schack, a son and daughter. They all luckily escaped with painful bruises. In charge of Dr. Stone, they were taken to the Mercy hospital for treatment. Later they were able to return to their home.

According to witness, the Ford was traveling south on Taft at the rate of about thirty miles an hour. Near Nineteenth st. Mr. Schack saw a large dog run directly in the path of the car, and when he turned to one side to avoid hitting the dog the Ford swerved

YOUR CATARRH MAY LEAD TO CONSUMPTION

Dangerous to Use Treatment for Only Temporary Relief.

There is a more serious stage of Catarrh than the annoyance caused by the stopped-up air passages, and other distasteful features.

The real danger comes from the tendency of the disease to continue its course downward until the lungs become affected, and then dreaded consumption is on your path. Your own experience has taught you that the disease cannot be cured by sprays, inhalers, atomizers, jellies and other local applications.

S. S. S. has proven a most satisfactory remedy for Catarrh because it is directed to its source. Get a bottle today, begin the only logical treatment that gives real results. For free medical advice write Medical Director, 47 Swift Laboratory, Atlanta, Ga.

CHORUS GIRLS GOING TO STRIKE NOW

When They Get Out of Bed This Afternoon They're Going to Start Union.

NEW YORK, Aug. 11.—The lovely chorus girls, when they get out of bed some time this afternoon, are going to form a branch union all their own and join the actors' strike.

This was the most important bit of news to the average New Yorker that emanated from headquarters of the Actors' Equality Association, the strikers' organization today. The strike leaders said they did not know where the chorus girls would have their headquarters, but the managers said they guessed it would be right around the corner from the Grand Hotel, where they had the biggest soda fountain, and they said other things like:

"Who's going to take care of Tessie's poodle-dog while Tessie's on picket duty?"

Just how many of the chorus girls are going to join the strikers was a deep dark secret, but some of the strikers told many of the girls would stay out indefinitely, even if they had to pawn their limousines, buy chocolates and ice cream. The strikers forewarned possible action by the chorus girls by announcing that musical comedies, using the loyal girls in both shows in a combined chorus and staging vaudeville acts in place of the regular show.

PLUMB WOULD CUT PASSENGER RATES

Wants to see Water Squeezed Out of Railroad Stocks.

WASHINGTON, Aug. 11.—Under his plan for government ownership and tripartite operation, railroad passenger rates could be lowered to one and one-half cents a mile, one-half of the present rates, and freight rates cut forty per cent, declared Glenn E. Plumb, who now holds the center of the stage in Washington in labor's fight for public ownership of the transportation system.

In an interview today.

"The people want to travel," Plumb said. "It is a part of their standard of living. If they would they would travel at lower rates. The railroads are crowded with excursionists whenever the chance offers. On sound capitalization, with returns equal to those paid on Liberty bonds, passenger rates could be one and one-half cents a mile and freight rates cut forty per cent."

The deficit being borne by the government in its operation of the railroads would be turned in profits if the "water" were squeezed out of the railroad stocks and there were a proper capitalization, asserted Mr. Plumb, who is quoted in the railroad about \$1,000,000,000 a year. Were the water squeezed out this would amount to half that. Instead of a deficit last year, we would have made \$250,000,000. This year we should make \$450,000,000. But we will pay \$350,000,000 at least out in taxes, to pay dividends on the water."
