H. E. BARNARD CALLS CO. FOOD DIRECTOR

(Continued from page one.)

stration in Lake county, to effect a normal and reasonable price level for not only foodstuffs, but rents, clothing, shoes, coal, ice and the like.

GETTING OLD STAFF AT WORK.

All day Sunday Mr. Barnard worked at his office with a staff getting out word to members of the old organization that worked so vigorously all over Indiana during the war. He called on each of the county food administrators to resume his former duties and to broaden the scope to include rents and the like as noted. He called on the community representatives of women's organizations, labor unions, merchants' associations and others formerly in the work to assist as they did before. Responses received today indicate that the proposal has received hearty support everywhere. All of the dependent organizations and their committees were requested to report at once to the county food administrators who will be instructed in detail as quickly as possible from the state headquarters.

HERE IS BARNARD'S LETTER.

His Administrator Parry received the following letter from State Administrator Barnard:

"May I urge that you immediately organize in Lake county a comprehensive committee which will include the price reporters who served you during the war period, retail and wholesale grocers, members of labor organizations, representatives of boot, shoe, textile industries, fruit and vegetable growers, market men and particularly a group of consumers who represent different sections of the city.

"The attorney general has asked that this committee make the same investigations with reference to food products and the ordinary necessities in dry goods and clothing that were made by our fair price committees last year. While this committee will be an extra legal body without power to summon witnesses or fix prices, it can ascertain cost

prices, determine a fair margin of profit and arrange to publish retail prices on staple commodities.

"I believe the investigation should extend further than a study of food prices. The information at our office does not show a greater increase in food prices than in the price of such other necessities as shoes, clothing and coal. Constant reports are reaching us to the effect that rentals are mounting rapidly and beyond reason. I think your committee may very properly investigate this subject.

TO REPORT FINDINGS.

"This committee will report its findings to you and if upon further investigation you find any evidence of hoarding, or profiteering, of foodstuffs, will make any attempt on the part of any person or group of persons to prevent the production or distribution of foodstuffs will you furnish me with all the facts in order that the cases may be turned over to the United States Attorney General Black for prosecution."

SITUATION FOR SHOP-MEN UNCHANGED.

(Continued from page one.)

Morris of the labor press committee, "Our organization is intact and there is not the slightest possibility of a break in the ranks. We are receiving some good reports this morning, but as yet there is nothing to give out to the newspapers."

SHOPMEN MEET FOR NEWS.

Another meeting of the striking shopmen is being held at the labor headquarters in Gary this morning and they are listening to reports as to the outcome of the conference that is in progress at Washington. There is no evidence that the strike will be called off until their demands are granted.

Washington dispatches said last night that both the president and Mr. Hines had received telegrams from Mr. Saunders for the unions, in which the latter asked recognition from the railroad administration. The telegram was construed to indicate that Saunders would then be willing to order a settlement in the strike.

WILL DEAL WITH CHIEFS ONLY.

The president referred his telegram to Mr. Hines, who made a reply. His position is that the administration will recognize no local officers, but will deal exclusively with the international chiefs against whose authority the union rank and file is in revolt.
