Mrs. W. Aldrich and daughters, Dorothy and Mildred, are visiting at the home of Mr. and Mrs. E. Friesen, of Myrtle avenue, for a few days.

Mrs. H. Brockman and daughter, Ethel, of Atchison avenue, were in Chicago on business Saturday.

Alkali in Shampoos
Bad for Washing Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is Mulsified coconut oil shampoo, for this is pure and entirely greaseless. It's very cheap and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff—Adv.
