

BIG GAMES AROUSE THE B. B. FANS

(INTERNATIONAL NEWS SERVICE)
NEW YORK, Aug. 12.—Weather permitting the Giants and Reds will clash here twice today in the opening of a six game series that may figure importantly in deciding the winner of the National League race. Three double headers are to be played in three days.

Pat Moran's men were four and one-half games out in front before today's clashes. Should Cincinnati make a sweep of the series they would push themselves so far ahead it would be almost impossible for the Giants to overtake them. While interest is not at fever heat that it was maintained at Cincinnati during the recent series there between the Reds and Giants it is believed the attendance records for the three days are likely to be broken. It is estimated 100,000 people will see the six games.

McGraw plans to start Arthur Nehf and Phil Douglas against the invaders today, while Moran probably will send Slim Sallee or either Ruther or Ring to the mound.

The weather early today was not favorable but nothing short of a near cloudburst is expected cause a postponement of today's games.

FROM CADDY TO A CHAMPION AT SIXTEEN

When Francis Ouimet started the amateur world by winning the national open championship little Eddie Lowery was his caddy—the envy of the other caddies. Today Lowery has joined the ranks of the champions. He recently won the Massachusetts junior title in the tourney over the Brookline Country club links, where he caddied Ouimet to a championship. Lowery equalled the amateur record by going around the course in 72. He is just sixteen years old.

THIS SPEAKER alone beat the Yanks. He had nine putouts, an assist, drove in one of Cleveland's runs and scored the other himself after stealing second.

SOME one had better get out an injunction to stop these Tigers, they massacred the poor Athletics.

The Giants found a team they could beat—Brooklyn. Jess Barnes' airtight twirling was responsible.

THE Browns held a field day at Boston and copped easily.

Is it Possible to Legislate Life and Brains?

Swift & Company is primarily an organization of men, not a collection of brick, mortar, and machinery.

Packing Plants, their equipment and usefulness are only outward symbols of the intelligence, life long experience, and right purpose of the men who compose the organization and of those who direct it.

Will not Government direction of the packing industry, now contemplated by Congress, take over the empty husk of physical property and equipment and sacrifice the initiative, experience and devotion of these men, which is the life itself of the industry?

What legislation, what political adroitness could replace such life and brains, once driven out?

"A little knowledge is a dangerous thing"—and the confirmed tire "shopper" can hardly hope to have more than a very little knowledge of any make of tires—or any real understanding of true tire economy.

The car owner who rides on Firestone Gray Sidewall Tires stops "shopping." He knows that at least one make of tire delivers more miles of service. He knows that the name Firestone uniformly spells economy to him.
