

KOLCHAK FAILURE, RUSS FEAR

Situation Again Critical because Omsk Government Shattered by Discussions.

(STAFF CORRESPONDENT I. N. SERVICE) WASHINGTON, Aug. 14.—The Russian situation again is critical. Admiral Kolchak, picked by the peace conference at Paris, to lead a stable Russian government, has utterly failed. His troops are facing complete annihilation. Latest advices reaching Washington official and diplomatic circles indicate that the so-called Omsk government is shattered by dissensions. Its armies are shy of arms and munitions. Shipments sent to them via Siberia either have failed to reach them or have been lost in action and any now on the way will arrive too late to do any good.

Foodstuffs sent forward as a result of the promises made by the Paris conference, have failed to reach their destination. All the information reaching Washington indicates that the complete downfall of the Kolchak government is a matter of weeks, possibly of days.

A complete report already in the hands of the state department very soon. Roland S. Morris, the American ambassador to Japan, is now enroute back to his post at Tokyo following an investigation at first hand of Russian conditions. His preliminary report already is in the hands of Secretary Lansing but has been withheld from the public. However, it is understood that he has reported that the Kolchak forces are being pressed back at every point by the Bolshevik troops and that some of the most influential of Kolchak's former associates have deserted him.

It is understood that there will be no change for the present in the position taken by the U. S. toward the Lenin-Trotsky government in Russia. Although representatives of that government are here in the U. S. and have been endeavoring to secure a resumption of trade between Russia and America on a basis of gold deposits in Sweden the U. S. is standing by its understanding with the allied governments that the blockade of Bolshevik Russia shall continue. In Paris in June the allied governments endorsed by the President Wilson authorized complete recognition of the Kolchak government. This was refused, but the president entered into an agreement whereby all possible aid was promised to the admiral. Arms, ammunition and foodstuffs have been sent forward since then. However, now it seems certain that the bulk of these supplies cannot be delivered and it is likely that further shipments will be held here.

Interest in the railroad shopmen's strike at the Kirk yards in Gary shifted from labor headquarters on Broadway today to the Garfield Hall, 5444 Westworth ave., Chicago, where hundreds of local strikers and delegates are attending the convention of delegates of the railway shop craft union.

The convention is considered of great importance. All the delegates from the cities and towns in the Chicago district will be in attendance. Matters of interest pertaining to the strike and its settlement will be open to discussion. At the mass meeting at the labor hall yesterday the strikers were waiting late news from Washington, but as late as noon today no advices had been received.

Efforts of the international officers to break the ranks of the strikers has been without avail. The shopmen are standing firm and no fear is evidenced that they will give in until they either get their demands or go back to work at the advice of the union heads. The strike has boiled down to a fight between officials of the international organization and the Chicago district council, with which the Gary strikers are affiliated. The district council charges the international officers of having betrayed the interests of the rank and file of the organization.

That the railroad administration will deal with the strikers only through the regularly constituted international officers of the regularly constituted organizations and their authorized committee was again refreshed in the minds of the strikers by Director General Hines in a letter today.

HOW STOCKS OPENED

NEW YORK, Aug. 14.—The most important feature of the trading at the stock market opening today was the accumulation of buying orders over night indicating that outside interests are not affected to the same degree as the professionals by the current labor developments.

Steel common was prominent advancing 1/2% to 103 1/2%, but changes in the generally at the start were about evenly divided between gains and losses with strength developing in stocks which declined in the initial transactions.

Baldwin Locomotive opened down 1/4% at 102 1/2%, advanced to 111 1/4% and dropped to 110. American Locomotive was influenced by a rumor that an extra dividend will be declared at the directors meeting today and rose over two points to 92 1/2. American Telephone and Telegraph gained one point to 8. Transcontinental Oil which was listed last night, sold at 45 1/2 to 46 1/4, against 46, the last sale on the curb. Tobacco Products dropped one point to 102 1/4, and then rallied to 103 1/4. Studebaker moved up 1/4 to 107 1/4, and then reacted to 106 1/4. Pan-American Petroleum advanced 6 1/4 to 111 1/4 from which it reacted to 110 1/4.

According to C. M. Leary this morning, owner of the Double L Laundry, one of the biggest concerns of its kind in Gary, the drivers refused to arbitrate. "It isn't the wages we object to as much as other questions involved," said Mr. Leary. "While the increase will mean nearly \$1,500 a year to us, we are up against the problem of Chinese laundries, shipment of laundry out of the city and other questions involved."

It is thought that the laundries and the drivers will come to some terms.

Hair On Face DeMiracle

Ordinary hair growth on face, neck and arms soon become coarse and bristly when merely removed from the surface of the skin. The only common-sense way to remove objectionable hair is to attack it under the skin. DeMiracle, the original sanitary DeMiracle, does this by absorption.

Only genuine DeMiracle has a money-back guarantee in each package. At retail counters in 50c, 40c and 30c sizes, or by mail from us in plain wrapper on receipt of price.

FREE book with testimonials of highest authorities, explaining what causes hair, why it increases and how DeMiracle removes it. Mailed in plain sealed envelope on request. DeMiracle, Park Ave. and 120th St., New York.

SHOPMEN GATHER IN CHICAGO

Delegates From Local Railway Crafts Attend Important Session.

DIRTY SHIRT STRIKE IS LATEST

Unless your wife does plain and fancy washing, you are likely to go around with a dirty collar and shirt next week. Single men are going to be hit hard. Unless the Gary laundry drivers get their salary increases and commissions on or before Saturday night they have voted to go on strike Monday morning. They are demanding \$11.00 a week and twelve per cent commission on collections. Their present scale is \$10.00 a week and eleven per cent commission. They also ask the week-end or Saturday noon.

According to C. M. Leary this morning, owner of the Double L Laundry, one of the biggest concerns of its kind in Gary, the drivers refused to arbitrate. "It isn't the wages we object to as much as other questions involved," said Mr. Leary. Twin City News Notes

Boulah, the three year old daughter of Attorney and Mrs. A. C. Foley of Elm St. met with bruises and slight injuries as she was about to cross the street nearby her home and became confused at the approach of two autos going different directions with the result that one machine struck her but it is not known which one nor the owner of the machine. The only information that could be learned was from a playmate who saw Boulah lying in the road after the machine had passed. The child was taken care of at once and the parents feel fortunate that nothing more dire had happened to her. The greatest loss to Boulah was her pretty curls which had to be cut to allow the healing of the bruise on her head.

Mrs. A. Riffe of Elm St. is home from a journey to Canton and Cleveland, O., of six weeks.

TENTH DISTRICT MEDICS MEET

Members of the Tenth District Medical Society are in session in Gary today. Some one hundred strong, they gathered at the Library Auditorium this afternoon, where an interesting program was in progress. The speakers included presidents of the Lake, Porter, Newton, Jasper, Benton and LaPorte County Societies. At the Y. M. C. A., the Gary society will banquet the visiting brothers.

STRIKERS ARE FACED WITH EXPULSION

Railway Shopmen Out On Strike, Must Make a Decision Today.

(INTERNATIONAL NEWS SERVICE) CHICAGO, Aug. 13.—Faced with threatened expulsion from the union, striking railway shopmen must decide today whether they will follow the order of their international officers and return to work once, or forfeit any benefits which may be derived from prospective negotiations. Officials of the Chicago council of the rebellious workmen were to present to the meeting a telegram received this morning from R. M. Jewell, head of the Shopmen's Union, which read:

"Make orders positive to all points. Now is the time to act. We cannot much longer delay and if you refuse to comply, will be compelled to advise Hines and Wilson, if necessary, that you do not belong to the organization. If negotiations are resumed strikers will be deprived of benefits."

The threat of Jewell to expel from the union shopmen who insist on staying out, followed the continued disregarding of orders from the international leaders to return to work pending negotiations in Washington by the Brotherhood of Railway Car and Equipment, the recognized "hub" of the walkout.

Local officers were of the opinion that Jewell's threat brought the walkout to a crisis. Its success or failure was to be decided, they opined, at today's session.

In the meantime freight was accumulating at Chicago terminals. Most of this is destined for the West. Foodstuffs, and perishable freight, it was stated, is being handled normally. Passenger service is suffering, many trains, both in and out of Chicago, being delayed.

The general situation, regional directors reported, showed little improvement. Twenty-six roads running into Chicago reported that no men had returned to work up to this morning. Two roads, the Chicago & Alton and the Baltimore & Ohio, reported that their boilermakers had voted to return to work. The Erie reported fifty shopmen returning to work at Hammond.

BOTH SIDES ARE CONFIDENT

(INTERNATIONAL NEWS SERVICE) CHICAGO, Aug. 14.—Victory in the courts is predicted by both sides in the strike of actors here, which was temporarily called off after two houses were dark one night. Hearing on the injunction suits to restrain actors appearing in "Up in Mabel's Room" and "The Passing Show," from walking out have been continued until tomorrow morning. This action was taken following assurance that matters would remain in status quo pending a decision of the master in chancery, who is to hear the petitions.

"We have the strike beaten," said local managers today.

"We will fight to the finish," was the word from the actors.

MORRIS IN DEFENSE OF EGG STORAGE

(INTERNATIONAL NEWS SERVICE) CHICAGO, Aug. 14.—In all the storage houses in the United States there is now held out but two dozen eggs for each person in the country. Edward Morris, of Morris & Co., declared in a statement here today, in which he characterized the seizure by United States authorities in Chattanooga, of 2,300 cases of eggs being held for his company, as apt to cause an egg shortage soon.

"I cannot imagine on what theory our eggs were seized. To force these eggs on the market out of season is neither intelligent, nor business-like, and in the event this is done, there will be an over-supply for a brief period, and a shortage when needed," Morris said. "The present holdings of eggs in all the warehouses of the United States is approximately 2,000,000 cases of 30 dozen each, or two dozen eggs per capita. In other words, there is now left a ten per cent of the entire 1919 egg crop in storage and the present is the peak of storage holdings."

EXECUTIVE SESSIONS ARE HELD

(STAFF CORRESPONDENT I. N. SERVICE) WASHINGTON, Aug. 14.—There will be no additional public hearings by the senate foreign relations committee on the Versailles peace treaty. The committee commencing today will hold executive sessions on the treaty and every effort will be made to expedite action on it, but a lengthy discussion is sure. When the treaty was first read by Chairman Lodge, so soon as a disputed conclusion was reached the senator opposing gave notice of a reservation, and the section was passed. One senator has entered more than one hundred objections. All will have to be thrashed out before the treaty can be voted on in committee and either favorably or unfavorably reported to the whole senate.

The feeling among the senators is growing very bitter since President Wilson refused to send the Biles letter opposing the Shantung settlement and the minutes of the league of nations committee meeting in the senate. Consequently personalities are entering into the debate in committee and the ultimate fate of the treaty is a matter of grave doubt.

Yesterday there was a lively clash between Republican and Democratic members with Senator Fall of New Mexico and Hitchcock of Nebraska featuring the argument. The committee met to discuss the Columbia pact. It was learned, however, that the state department had telegraphed reservations to Columbia designed to prevent repetition of the Mexican oil dispute in Columbia and until the matter received no action on the treaty with Columbia was possible. The senate committee then began discussion of the Versailles pact.

A. L. CO. TODAY INCREASES DIVIDENDS

(INTERNATIONAL NEWS SERVICE) NEW YORK, Aug. 14.—The American Locomotive Co. today increased the dividend at a meeting of directors on its common stock from a five to six per cent basis by the declaration of a regular quarterly dividend of 1 1/2 per cent on that issue; in addition to the regular quarterly dividend of 1 1/2 per cent on the preferred stock. Both dividends are payable Sept. 30 to holders of record Sept. 13.

Pressure caused losses ranging from 1 to 5 points during the forenoon.

American Locomotive advanced from 89 1/4 to 91 1/4; American Telephone and Telegraph 1 1/4 to 95 1/4.

FUNERAL OF IRON MASTER HELD TODAY

(INTERNATIONAL NEWS SERVICE) LENOX, Mass., Aug. 14.—Dark skies and a heavy rainstorm hovered over Shadowbrook, the summer home of Andrew Carnegie, when the funeral of the late iron master and philanthropist, was held today. The train came down in torrents as the some forty mourners gathered in the great mansion for the funeral service, impressive through its simplicity.

Rev. Dr. William Pearson Merrill, pastor of the Brick Presbyterian church, New York City, was the officiating clergyman, assisted by Rev. Benson J. Wyman, pastor of the Lenox Congregational church.

These are the two churches attended by Mrs. Carnegie and her daughter. Mr. Carnegie was not a member of the church. It was recalled by Dr. Merrill that when the ironmaster's daughter became a member of the Brick church, Mr. Carnegie said:

"This is the happiest moment of my life."

The Presbyterian service for the dead was held. Vocal numbers were provided by the Brick church quartet, led by Clarence Dickinson, organist.

WARNS LABOR TO STAY OUT OF POLITICS

Head of English Seaman's Union Gives Warning to American Unionists.

(INTERNATIONAL NEWS SERVICE) CHICAGO, Aug. 14.—Havelock Wilson, head of the Seamen's Union, today warning American trade unions against forming a political party such as they have in this country.

"The idea is no good," exclaimed Mr. Wilson today, when asked to comment on the forthcoming trip of Arthur Henderson to the United States to help establish a labor political party.

"If American labor is misled into forming a political party it will doubtless find, as the British trade unionists have done, that the British have their own cause and thereby become tools of self-seeking politicians."

"British trade unionists found their money devoted often to purposes with which the majority were not sympathetic. They also found themselves supporting policies not sanctioned by any trade unions."

"Knowing what I do of America, my best advice is the same as that of Samuel Gompers, president of the American Federation of Labor—stay out of politics as a labor party would simply divide American trade unionists."

Arthur Henderson refused to answer when asked who largely is the element in American labor circles that invited him to that country and who is financing the project.

MILITIA CALLED TO NEW RIOTING POINT

Troops in Illinois are Called Out Again By Governor Lowden.

PEORIA, Ill., Aug. 14.—Illinois state militia, that just returned home from race riot duty in Chicago, are on their way here from several points in the state today, as the result of an outbreak of rioting brought on by a strike at the plant of the Keystone Wire & Steel Co. The troops were called out last night by Gov. Frank O. Lowden, following trouble yesterday when six persons, one a woman, were shot, and a score injured in rioting.

In addition to local militia, Gov. Lowden ordered troops from Danville and Springfield to proceed here, and that companies in Rockford and Decatur be held in readiness.

Rioting continued practically all of yesterday between striking employees of the Keystone Co. and deputy sheriffs guarding the plant. Employees of the plant went on strike eight weeks ago, demanding higher wages and a closed shop.
