

# KIRK STRIKE MAY END THIS P. M.

## (BULLETIN.)

At noon today, it was reported that a large number of the Kirk yard shopmen would start back to work this afternoon at 4 o'clock to get things in readiness, for the bulk of shopmen who will return to work in the morning. Officials of the Kirk yards were called and they stated that all the open hearths will be in full operation by the first of the week.

The mills also received some coal yesterday and sufficient it is said to start some of the departments until the "I" shipments begin to arrive. On account of the congestion at the Kirk yards and also in the mill, it will be several days before it will be relieved. A thousand or more cars are waiting to be moved. Providing there are no other obstacles appear in this time it will be a week or ten days before things will be moving smoothly again.

From authentic source it is learned that the strike vote among the Gary steel and iron workers is being taken and that it has been practically cast. It is reported that the local workmen are overwhelmingly in favor of a strike. This is also true among the South Chicago steel workers where a vote is being cast. As soon as the vote is completed, the results will be sent to the headquarters in Pittsburgh but it is thought that it will be sometime at least before the vote will be made known.

Gary breathed a sign of relief this morning.

The railway shopmen's strike which has tied up the entire steel mills, the Portland cement plant and other concerns throwing ten thousand men out of employment has been settled temporarily at least, according to latest advices and the men will go back to work tomorrow morning. It was just two weeks ago today that the E. J. & E. 500 shop employees of the Kirk yard walked out, demanding more pay, better working hours and recognition of the union.

The settlement was reached in Chicago yesterday when a monster meeting of the district delegates and shopmen at Pulaski's hall, Eighteenth street and Ashland avenue. Delegates representing 26,000 shop workers were present and voted to call off the strike and will abide by the order to go back to work at 8 o'clock in the morning.

At the labor headquarters on Broadway this morning the shopmen are holding an important meeting. Union officials refused to give out any information as to the nature of the meeting. It is probable though that the workmen are being informed of the procedure of yesterday's session in Chicago and questions of vital importance will be open for discussion. There is no feeling

## ALL SHOPMEN ARE EXPECTED TO RETURN

Railroads Prepare to Re-sume Their Full Schedule Saturday.

(INTERNATIONAL NEWS SERVICE)  
CHICAGO, Aug. 15.—With the striking railroad shopmen ready to return to work Saturday morning railroads running into Chicago were making preparations today to resume their curtailed schedules in full.

The prediction was made today that the vote to return to work, which came after a nine hour battle between radicals who wanted to hold us, and the more conservative element of the workers, would cause most of the shopmen, now out over the country, to heed the orders of their international officers to go back to their work pending mediation.

With the shopmen of Chicago, the recognized "hub" of the strike, returning to their jobs, it was not believed the smaller councils would be willing to take a chance on holding out in the face of threatened expulsion from the brotherhood.

J. D. Sanders, secretary of the Chicago district council, telephoned President Wilson, telling him the result of the convention and expressing confidence that the president will use his influence to secure the demands of the shopmen.

INDIANAPOLIS—Figures held by the state board of tax commissioners reveal that land valuations in Indiana range from \$8.12 an acre in Brown county to \$158.30 in Marion county.

## HOW STOCKS OPENED

(INTERNATIONAL NEWS SERVICE)  
NEW YORK, Aug. 15.—There was another display of strength at the stock market opening today. The oil stocks were among the most prominent issues. Pan-American Petroleum, advancing 2½ to 111½, and Mexican Petroleum after declining to 17½, rallied to 176.

Steel common was firm, holding around 102 compared with 101½ at the close yesterday.

American Locomotive advanced over one point to 88½, and Baldwin Locomotive 1½ to 108½. American Telegraph and Telephone rose ½ to 100. Fiske Rubber Tire was traded in for the first time on the exchange ranging from 45 to 46, compared with 45½, the last sale on the close yesterday.

The Gary School Board Awards \$83,000 Contracts.

The Gary Board of Education at its meeting last night had a very busy session when \$82,000 in building and extension contracts was let.

**HUBBINGER  
AFTER FARMERS**  
Gary City Food Inspector Frank Hubbinger, who also has charge of the city market, is making it extremely interesting for the farmers who bring produce to the market and rob the unwary by charging excessive prices.

One manikin is said to have charged a woman 12.00 a bushel for tomatoes when the same was retailed by the local merchants at \$1.50. Several marketmen, it is declared, were selling new potatoes and green corn far in excess of the selling price by the local merchants.

Strict watch will be kept by Food Inspector Hubbinger on all rural providers and when one is found they will immediately be ruled from the city market.
