This sale is planned along such extensive lines and offers such remarkable reductions in prices that it would be foolhardy on the part of any dealer to attempt to maintain it for more than one week's time. The limited amount of goods has been word—limited in the date, limited in the extent of saving and limited in the quantity of goods supplied as we reserve the right to remove any offer the instant the limited amount of goods has been sold. We also reserve the right to refuse these goods to any dealer. Remember the week, Monday, August 18, until Saturday, August 23. One week only. The biggest sale ever attempted by a drug store in this vicinity.

## The Famous Jeweled

Phonographs *Pathe* and Records

No needles to change

### Are Now On Display

You are invited to come in and hear the unusual tone of these instruments. An expert demonstrator will be pleased to show you the following unique features of the Pathe.

1. **The Full, Clear Tone** of each individually tuned instrument is produced by the all-wood, violin tone chamber and the Sapphire Ball, the round, polished jewel which fits exactly into every groove of the record and accurately reproduces every shading of the artist.
2. **No Needles to Change** on a jeweled Pathe. The Sapphire Ball never wears out.
3. **Plays All Makes of Records** with a Universal tone arm—and Pathe plays them better.
4. **The Sapphire Ball** does not wear out records—it glides smoothly around them. The music flows out, isn't scratched off. Every Pathe record guaranteed to play 1,000 times.
5. **Always Ready to Play** as soon as you slip on a record. No stopping to change a needle.
6. **The Pathe Controlla** enables you to play all records loudly or softly with the same Sapphire Ball.

And in addition, the Pathe has all the good features of other talking machines; silent, strong motor, and large, artistically finished cabinets. Yet remember—the Pathe costs no more than ordinary phonographs.

If you already have a machine you will be particularly interested in the Pathe Double-Disc Records.

You will find in the Pathe musical library your favorite songs and opera arias, sung by the famous artists of Europe and America; stirring military marches, and the popular ballads.

And Pathe has the latest hits—first and best—the songs that Broadway is whistling, and the dances that are all the craze.

We will be pleased to show you how you can play Pathe records on any machine.

The Pathe Sapphire Ball glides smoothly around the records. No needles to change; no wear on the records; always ready to play.
