

GARY GETS 4 CARLOADS NEXT MONDAY

H. C. L. It is Believed Will
Get Something of A
Jolt Then.

With the arrival of four carloads of government meats and canned goods early next week, and orders for surplus war department foodstuffs to be received at the postoffice Monday morning, high cost of living prices are to be given a severe jolt in Gary.

The carload of sugar purchased by the committee a week ago has been cancelled. When Chairman J. A. Brennan learned from the food authorities at Indianapolis that it would be necessary to handle it through the dealer and giving him his usual profit, it was decided by the committee that it would not aid the public and stopped the shipment.

Preparations are now being made by the purchasing committee for the sale, distribution and disposal of the four cars of meats and canned goods. Word has been received that all carload shipment of foodstuffs would be shipped out of Chicago by this evening and providing there is no unusual delay the shipment ought to reach Gary some time Monday. A meeting will be held by the committee at the Commercial club rooms this evening to determine just what amount may be purchased by one family.

In all there will be nine distributing points with a competent man in charge of each station. Besides there will be a representative present from the Gary clearing house association, to check the money and sales and also an officer from the police department. As yet the price list has not been given out, but they will be just as low as possible to cover expenses only.

Postmaster Snyder announced today that orders for surplus war department

foodstuffs to be sold through the post-office department will be received Monday morning at 2 o'clock. Order forms will be furnished by the postoffice department on Monday morning. Orders will be filed in the order received and to the prices given below, must be added the cost of the parcel post which will be worked out by that time.

THE FAIR SEX
AND THE BATTERY

"Leave it to a woman to take good care of a car," says Mr. Durham, the Willard Service Station dealer. "I found out a long time ago that when the woman of the family drives and takes a real interest in a car, it not only looks better, but runs better too."

"Take the battery, for example. It is as hard to make the average man remember to put in distilled water every two weeks as it would be to make him remember to water plants. But when a woman understands that a battery needs water just as much as plants do, she's pretty sure to remember to put it in."

"Another thing that counts is this: a woman driver as a usual thing isn't satisfied unless her car works perfectly, and if the battery isn't up to the scratch she wants to know why. As a general rule she does what every car owner ought to do, and drives around to have us locate the trouble and put the battery in A-1 shape."

LAUNDRY MEN WORK TO END DIFFICULTY

In an effort to avoid a general tie-up in their laundry deliveries, starting Monday of next week, difficulties between the laundry owners and drivers in Gary are being patched up today.

This week sixteen local drivers served notice on the laundry drivers that if they did not get their demands they intended to walk out. They now ask \$12 a week and 12 per cent commission on all collections. The present scale is \$11 a week and 11 per cent commission. It is thought that the owners and drivers will come to the settlement.

"The increase does not seem much," said C. M. Leary, owner of the Double L laundry this morning, "but just the same it will mean another expenditure of about \$1,500 a year."

"I have one driver who is a little over 17 years old and last week he made nearly \$18. Another has his automobile. It is not the increase so much as it is the other questions involved. For years we have been making a fight against the Chinese laundries, who get the cream of the roomers' business and also the shipment of laundry outside of the city. A year ago there were 15 Chinese laundries in Gary and now there are only nine."

"In making package deliveries and also collections we find it necessary to make half a dozen calls sometimes before we find the people at home. They are either at the picture shows, out shopping at work or out of town. Gary people are not 'stay at home' types. It puts us up against a problem, because we have to employ two and three extra drivers just because of this fact."
