

GARY POLICE START STRICT CAMPAIGN

That the Gary police department intends to see that the new parking ordinance is to be obeyed was in evidence over the weekend when nearly twenty violators were placed under arrest. Arrest sheets show that the majority reside outside of the city. A number were Gary residents.

When the ordinance went into effect several weeks ago, it was thought advisable to give the autoists sufficient time to acquaint themselves with it and not be too drastic. Now every driver ought to know whether or not he is violating the law and henceforth the police intend to see that it is enforced. All violators are to be treated alike, no matter who they are or where they live.

"Do not park here" signs are in evidence at all the street intersections in the business district on Broadway and why the autoists insist on parking in the prohibited area is a mystery to the authorities. As long as they violate this ordinance, the police are going to wage war against the practice.

Acting upon instructions, the patrolmen started the campaign Saturday morning. The following were arrested and their cases will come up before Judge Dunn in the city court today:

Edward Gitz, Freeport, Ill., arrested at Fifth and Broadway.

Otto Larsen, 103 Garfield Blvd., Chicago, arrested at Fifth and Broadway.

Happenings Of A Day In Lake County's Lively Capital.

CONGESTION AT YARDS RELIEVED

Congestion at the Kirk yards in Gary, which was tied up for two weeks as a result of the shopmen's walkout, is beginning to be relieved and several more days will see traffic conditions on the E. & E. system normal again, according to officials of that road today.

After the settlement of the strike Friday, the men went back to work at 4 o'clock in the afternoon and got things in ship shape for the bulk of the shopmen who were on the job right and early Saturday morning. There were in the neighborhood of 1000 cars of coal, stone and steel products tied up.

First efforts of the railroad was to get the car shipments to the Gary works and its subsidiary plants which were the worst to suffer the strike. In anticipation of a settlement the mills started getting its departments ready on Thursday and with the arrival of car shipments, the staff of workmen were increased and by the end of the week conditions at the mill will probably be back to normal again. The slab and plate mills called all their men back on the job this morning and all departments will be working regular shifts again in several days. Preparations are also made to start all of the blast furnaces and the open hearths.

The shopmen are watching with interest today the outcome of the conference of the national agreement committee with Mr. Hines on the subject of making wage adjustment demanded by the workers. The conference will probably take place Tuesday.

The wage demands made by the shop craftsmen are: locomotive and coach mechanics, from 68 cents to 85 cents per hour; helpers, from 65 to 80 cents; car mechanics, from 58 to 75 cents per hour; machinists, boilermakers, blacksmiths, sheet metal workers, from 65 to 85 cents per hour.

SELLS CIRCUS MAKES THE CROWD SOR

Call Parade for 11 and Peo-
ple Stand Till 2 P. M.

To See It.

When Sells-Floto circus paraded in Gary over two hours late Saturday night they disappointed thousands of people who packed Broadway early in the morning. The parade was scheduled for 11 o'clock, but did not make its appearance until nearly two.

After standing on the streets for hours and stretching their necks out of office windows, the jam of people became impatient and went to their homes, thinking the parade was not going to put in its appearance. Only a small scattering of people were present when they did show up and on account of it being so close to the show hour the parade was not up to the standard as it was cut in almost half.

World's Champion Jack Dempsey, who took the crown from big Jess Willard, was the attraction on the streets in the morning and on his heels trailed a hundred kids and admirers. Jack was a caller at THE TIMES office, the sporting editor having acquired his acquaintance at a Chicago gym long before the champion notched his present title. Many who saw Dempsey for the first time were disappointed as they had expected to see a huge, bulk of a man, a giant in stature. They could not appreciate how the demon brawler could drop Jess for seven times in three rounds. Jack is the quiet, unassuming fellow that his pictures show him and a gentleman in every detail.

The circus played two performances and capacity houses filled the huge three-ring canvas both in the afternoon and evening. Familiar faces dotted the circle from all over the country.

CONFERENCE UNDER WAY AT STANDARD.

morning but the number increased later. Only a few of the plant employees showed up for work. One of these was stopped but the police came to his assistance and he was allowed to proceed.

The committees went into conference with the Standard officials shortly after 8 o'clock after which the crowd settled down to take things easy until the results of the session should be announced. It is believed that the situation will clear up greatly providing the company will agree to increase the wages of the laborers. However, the increase must be guaranteed before the men return to work as they refuse to go back and have the matter settled afterwards.

A representative from the office of Adj. Gen. Smith at Indianapolis is in Hammond this morning getting acquainted with the situation and preparing for the eventuality of summoning state troops to preserve order.
