HOW WEAK WOMEN ARE MADE STRONG

Mrs. Westmoreland Tells in the Following Letter.

Harrison, N. Y.—"When my first child was born I did not know about Lydia E. Pinkham's Vegetable Compound and had a very hard time. I read in the newspaper about the Vegetable Compound and when my second child came I took it and we well during the whole time, and childbirth was a hundred times easier. Ever since then I have used it for any weakness and would not be without it for the world. I do all my work and am strong and healthy. I am nursing my baby, and I still take the Vegetable Compound as it keeps a woman in good health. You may publish my testimonial for the good of other women. If you choose to do so."—Mrs. C. WESTMORELAND, Harrison, N. Y.

Women who suffer from displacements, irregularities, inflammation, ulceration, backache, headaches and nervousness should lose no time in giving this famous root and herb remedy.

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With young fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin caluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!—Adv.

The Lure of the Open Road

A MAN who owns a motor car—be it a big, luxurious limousine or only a little flivver, has at command the means of satisfying one of his most primitive instincts, a desire to fare forth like a true adventurer and enjoy the freedom of the open country.

Accompanied by his family or his friends, he, like the Argonauts, can start a little journey into unfamiliar places.

He need have no fear of consequences, for the modern automobile is a sturdy, dependable friend. All it asks is gasoline, a little lubricating oil, and water. With this it goes up hill and down, without fret or worry.

The wayside brook, or the well on a friendly farm supplies the water, while gasoline and oil may be had anywhere from the Service Stations of the Standard Oil Company (Indiana).

The splendid system of distribution organized and maintained by the Standard Oil Company (Indiana) covers every city, town, and hamlet, and in many cases there is a tank and pump beside the little store at the fork of the roads.

This complete distribution of its products is one of the chief services rendered by the Standard Oil Company (Indiana) to the motorists of America, yet it represents but one of the many benefits derived by the public at large from the operation of the Standard Oil Company (Indiana) as a public servant.
