Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!—Adv.

Do You Know Your Own Business?

If you own shares in a business do you want a Government employe to tell your executives how to run your business?

If you are a loyal employe, do you want a political appointee to have the power to injure your concern by hampering its operations or by interfering with its efficiency?

Perhaps you have noticed the effect of Government control on the railroads, telegraph, and telephone.

Bills have been introduced to license and regulate the packing industry—perhaps your business will be next.

You would probably dislike to have this happen to your business even more than you would dislike to have your daily supply of meat interfered with.
