

GARY HOLDS ITS BREATH FOR FUTURE

Confronted with three possible strikes gloomy situations in its history, Gary today faces one of the most gloomy situations in its history. The aspect is anything but encouraging and professional and business men of the city are holding their breath.

With Judge E. H. Gary rejecting all demands made by officials of the steel and iron workers, a general walkout of the big steel mills of the city is a possibility within the next two weeks. Should the mill employees walk out, the city is confronted with the bare fact that the steel corporation can "close up shop" for an indefinite period if they so wish.

Because President Wilson refused their wage increase from 68 cents to 85 cents and back pay dating back to the cents and back pay dating back to the first of the year, there is much dissatisfaction among the E. J. & E. Shopen at the Kirk railroad yards, and before the close of another month they may walk out for the second time this year.

It was only a week ago that they went back to work to await for their wage increase decision. The first two weeks of the month they walked out, completely paralyzed shipping facilities in the mills and forced thousands of men to lay idle. The mills were practically closed down. A like tie-up is likely to happen, if the shopen strike again. The mills have just got back to their normal working capacity. It is expected that the shopen will come to some decision at a mass meeting which is to be held at the labor headquarters Saturday evening.

While the steel workers and shopen are reaching a decision, employees of the Gary Steel and Bolt workers are also in another upheaval. Because two of their fellow workers were discharged this week on account of their alleged union activities in the workers, they demand that they be re-instated or they will walk out in sympathy.

He was taken to the Crown Point jail.

JUDGE GARY WRITES TO MILL WORKERS.

Every Steel and Iron worker in Gary received mail yesterday. It was in the form of an individual letter from Judge E. H. Gary, head of the United States Steel Corporation, and its substance was a suggestion for them to pull away from the unions. Meetings were also held in some of the mills by some of the company leaders yesterday asking the men to consider the same subject. Cards were also passed among the mill workers for their signatures. The card asked "Are you willing to work nine or ten hours a day?" The result of the canvass has not been made known.

U. S. MARSHALS TAKE PRISONERS

Milan Divich, Dan Lemach and Milan Mandich, another Gary bunch of liquor law violators, were served with warrants yesterday by the United States marshal on his little cleanup trip. They were charged with conspiracy to violate the liquor law in bringing a barrel of whiskey from Chicago to Gary. Mandich has one wooden leg and the other is so badly infected that amputation will be necessary, so Marshal Ream asked that his case be continued and allowed him to be taken to a hospital.

Divich and Lemach each furnished \$1,000 bond and will appear for hearing before United States Commissioner Charles Surridge as soon as Mandich recovers from the operation.

Dan Cosma, Nick Rocu and John Steve, of Indiana Harbor, who were arrested by Hammond police August 2, were also taken into custody by the marshal. They brought in 240 bottles of beer and five quarts of whiskey. Each furnished \$1,000 bond and was released to appear before the federal grand jury.

James McLeodon, a man who had just finishing serving a jail sentence at Crown Point for train riding, was arrested yesterday by the marshal on a charge of robbing the post office at Clay-ton, Ind., May 4. He was picked up first by Special Agents Carnahan and Zazkowski of the E. J. & E. R. R. force, and as they were taking him to jail he threw away a satchel. Later they hunted it up and found it contained ninety-five pennies and part of a special delivery record from the Clayton post office. Stories which he told at the hearing before Commissioner Surridge indicate that sufficient evidence was at hand to warrant holding him to the grand jury. As he was unable to furnish bond he was taken to the Marion county jail.

AETNA SITE BOUGHT BY GARY MEN

It is a foregone conclusion as per statement by those who are in a position to know that the old Aetna Powder and gunpowder plant site of four hundred acres, two miles east of Gary, has been sold to a new company for \$400,000.

Harry Thomas, now custodian and in charge of the site when interviewed this morning by a TIMES reporter, gave the information that it was a foregone conclusion that the deal for the site is or will soon be concluded for the purchase of the site, as C. E. Wirt, vice president of the National Bank of America, was now the in New York office of the Aetna Explosive Co. closing the deal, and that he would know in a short time.

Mr. Thomas also stated that the old site would be occupied by a steel industry, but the nature of which he could not say.

From information obtained the plant will be built by Gary mill men and in a large measure will be operated by the owners of stock.

About seventy-five expert mill men are among those interested mostly in the new steel project. Many other Gary capitalists are, it is said, have subscribed to large stock.

The Aetna Steel and Iron company

will be incorporated for \$2,000,000 and the plant when complete will employ at first 600 men and 200 of which will be expert steel workers who will be stockholders. And in two or three years it is predicted from three to four thousand men will be employed.
