## ROAD STONE TAKES SHOOT IN PRICE

Road Improvements in the County May Be Slowed Up Through New Prices of Crushed Stone.

Several Hammond subdivision owners went to lunch this noon feeling anything but hungry. Their digestions had been impaired by the crushing news that road stone-crushed stone—had advanced \$1 a yard and proposed road improvements are threatened with delay.

Mayor Brown characterized the increase as "robbery" and a "plain case of theft."

Builders look upon the new rates for crushed stone as a necessary evil and in line with other advances made in building supplies. They do not think that housing projects will be seriously influenced by the new price for crushed stone.

But there is a great divergence of opinion among road builders and realty men. Some go so far as to intimate that action may be requested on the charge that quarrymen are profiteering. Their contention is that the price of coal has not advanced materially since last fall and that the earth yields its quota of stone as willingly now as in the autumn of 1919. And as for labor—well, little labor comparatively is required, and besides the wages are the same now as then. A simple case of profiteering, say they. Besides what good is a new subdivision with unimproved roads?

### Great For Eczema And Old Sores

I Guarantee My Ointment, Says Peterson—Every Box of It.

"If you are responsible for the health of your family," says Peterson, of Buffalo, N. Y., "you should get a large box of Peterson's Ointment today."

"Remember, I stand back of my ointment. Every druggist guarantees to refund the purchase price if Peterson's Ointment doesn't do all I claim."

"I guarantee it for eczema, old sores, running sores, salt rheum, ulcers, sore nipples, broken breasts, itching skin, sun disease, blind bleeding and itching piles as well as for chafing, burns, scalds, cuts, bruises and sunburn."

"I had 30 running sores on my leg for 11 years. In three different hospitals, Amputation was advised. Still nothing was done. I was cured by using Peterson's Ointment."—Mrs. F. E. Ross, 287 Michigan Street, Buffalo, N. Y. Mail order: J. B. Peterson, Buffalo, N. Y.—Adv.

## LESSONS IN OPTOMETRY

BY E. E. CARROLL OF GARROH & NEWTON

WE ARE STUDENTS OF OPTOMETRY

To keep pace with the advances in Optometry it is necessary for an Optometrist to be constantly studying. New ideas are being advanced almost daily, and the progress is very fast. The best of it is that all these new ideas are for the good of the public. But the public must avail themselves of them. We aim to be the medium in carrying and to take advantage of all worth-while improvements that may be advanced.

The state says that street improvement may be equal to 50 per cent of the assessed valuation of the property. If sufficient funds can not be raised in this manner because the property has not an assessed value large enough to carry the burden of improvement then the only recourse is to call upon 50 per cent of the frontage owners who will agree to bear the extra expense. And this, cries the poor realty men, is almost always an impossibility.

A Times reporter investigated the alleged outrageous profiteering of the quarry men and found the following prices quoted at various supply houses:

Beckman Supply Co., Hammond: Crushed stone per yard, delivered in Hammond, \$1.00; carload lots, \$1.50. Bank sand, \$2.00. It was said that the price for crushed stone had advanced about 50 a yard since last fall.

Northern Indiana Coal & Lumber Co., Whiting: Crushed stone, per yard, delivered in Whiting, \$2.25. This is the price charged by the company last fall and has not advanced since due to large supplies of it received at that time. It was said at the office of this company that they had received the increase of \$1 a yard because effective February 1. Bank sand is quoted at \$2.50 a yard, delivered and \$2 a yard in car lots.

At the Wisconsin Lumber Co., East Chicago, crushed stone is \$2.25 a ton. A yard contains 2,500 pounds. The price given is said by one of the salesmen to be approximately \$1.50 per ton greater than last fall. Bank sand is quoted at \$2.50 a yard.

No reason could be given for the apparent discrepancy in prices. The situation according to men thoroughly acquainted with conditions is not one to cause alarm and the increase was so expected. So far as timing up road work goes because the cost of construction might become too high by using crushed stone at present prices, this difficulty can be solved by employing slag.

What action will be taken by the alarmer has not been determined.

## SUPT. WIRT WRITES TO STATE SUPT.

In a letter to this paper and another to Hon. I. N. Hines, Indiana State Superintendent of Instruction of Indianapolis, Superintendent William Wirt, of the Gary school system, today aired his views concerning the teachers' wage controversy, stating that in doing so high school teachers and are inclined to oppose any expenditure of money for the better administration and supervision of the schools and the enrichment of the old traditional curriculum.

"The present situation is most unfortunate because the need for good schools is greater now than at any other time in our history and this need is now understood by a large percentage of our population."

"One of the principal obstacles to reaching a satisfactory settlement is the difficulty in determining what is a reasonable salary for the teacher."

"The elementary teachers are so hard pressed on the basis of present salaries that they oppose reasonable salaries for high school teachers and are inclined to oppose any expenditure of money for the better administration and supervision of the schools and the enrichment of the old traditional curriculum."

## 112 Millions used last year to KILL COLDS

HILL'S CASCARA QUININE BROMIDE

Standard cold remedy for 25 years—in tablet form—safe, sure, no opiate—relieves in 3 to 5 days. Money back in full. The genuine box has a Red top with Mr. Hill's picture. At All Drug Stores

Supt. Wirt said in part: The minimum daily wage for a ten-hour day in the steel mills at Gary and practically everywhere else in the United States, is \$5.95 for the lowest paid common laborer. Boys are leaving school before reaching high school and are earning more than \$1500 the first year as mill laborers. Girls and boys are leaving high school at the end of the second year and are earning higher salaries than those given in the table for stenographers.

"Teachers do not expect to make as much money in teaching as in other professions and occupations. Many persons can probably be attracted to teaching because of the opportunities for social service, loss of the work and the five-day week and ten-month year. But we must also take into consideration that laborers have the opportunity to realize much more than six per cent on a wise investment of their early surplus earnings while teachers do not have any surplus earnings and have the risk of losing their original investment entirely through loss of position, not being able to succeed as a teacher or premature disability. Also much more is expected from teachers in the way of standard of living than is expected from stenographers and common factory laborers. Certainly the salary schedule recommended must be considered only as an absolute minimum."

"I am making this letter public because I know that you wish in every way possible to assist in reaching a just opinion concerning teachers' wages."

Very sincerely yours, WILLIAM WIRT, Supt. of Gary Schools."

## GLASER CASE UP MARCH 4

Judge Anderson Sets Day For Hearing in the Federal Court.

According to news which comes from Indianapolis today the final hearing in the case of Paul H. Glaser, Gary lawyer, charged with contempt of court, will be heard before Judge A. J. Anderson, in the federal court on Thursday, March 4th.

The charges of contempt of court were brought against Glaser on information that he had charged excessive fees against clients whom he had advised to plead not guilty, when he knew they had signed confessions of guilt.

A petition to have citizenship papers canceled is also pending against Glaser in the federal court.

## BANDIT HOLDS U. S. CITIZEN FOR RANSOM

Villa Also Believes in Getting While the Getting Is Good.

WASHINGTON, Feb. 12.—Francisco Villa, Mexican bandit leader, is holding Joseph E. Askew, an American, for payment of a ransom of \$20,000 by the state department of the U. S. according to information furnished the state department this afternoon.

Villa maintains that the \$20,000 is an old debt owed him by the state department, the advice declared. Villa aided an American mining concern to get a large amount of silver bullion out of Mexico during one of the periods of civil warfare and he was to receive \$10,000 for this help. He was paid \$20,000, but the state department advised the mining company against the payment of the other \$20,000. Villa now maintains he will hold Askew until the state department pays the \$20,000 which it prevented Villa from receiving several years ago, according to the advice today. Villa has declared he will not accept ransom from sources other than the state department.

Askew was kidnapped from a raid on a ranch near Lordsburg, Durango, on the night of February 1st.

## SENATE LAYS PEACE TREATY ON TABLE

WASHINGTON, Feb. 12.—The treaty of peace with Germany has been laid aside by the senate. It will be permitted to rest on the senate table for the present while senators wrestle with railroad and other pressing domestic legislation.

National and international subjects connected directly or indirectly with the treaty may be injected into debate but with the senate still deadlocked on the long disputed article 16 of the league of nations covenant, there is no disposition by the leaders on either side to pursue the moot question of ratification of which both are admittedly weary.

Senator Lodge, the Republican leader, is confined at his Washington residence by a severe cold. The eyes of administration senators are fixed upon the White house. Both they and Republican senators are wondering what is going to happen next in the Fiume mixup.

## HOW STOCKS OPENED

INTERNATIONAL NEWS SERVICE NEW YORK, Feb. 12.—Price movements were mixed at the opening of the stock market today with the price tendency generally to lower levels. Crucible Steel had a wide opening ranging from 138 to 144, compared with 138 1/2 at the close yesterday. Later the stock sold off to 138 1/2. U. S. Steel advanced 1/4 to 88 1/2 while Republic Steel at 95 1/2 and Baldwin Locomotive at 111 1/2, both showed losses of 1/4.

General Motors advanced 1/4 at the start to 22 1/2, reacted to 22, but rallied to 22 1/2. Studebaker dropped nearly one point to \$1 1/4.

Mexican Petroleum yielded one point to 17 1/2. Pan American Petroleum after advancing 1/4 to \$4 1/2, dropped to \$4. Royal Dutch rose one point to 10 1/2.

There was a falling off in the demand for railroad stocks.
