Buy Your Coal Direct From Mine—Big Saving

The high cost of coal is a thing of the past! At least, there are no complaints on this account—since the removal of government restrictions—among those who have learned how to buy coal. The way to buy coal is to get it direct from the mines. This saves several middlemen's profits. It saves hauling expense. Anyone can now buy at mine prices, whether a casual buyer or one who uses only ten or fifteen tons a year. This has been made possible through a plan evolved by a large and old-established concern, THE BERNECO COAL COMPANY with main offices at 445 Como Building Chicago.

This company has thousands of customers in various sections of the United States who receive all of their coal direct from the mines. These customers are pleased not only because of the many dollars they save every year, but also because of the quality of coal they are getting. Many write that they never before had coal that makes so little dust, that burns so well, leaving so few ashes. If you are a coal user—whether you use hard or soft coal, much or little—it will be greatly to your advantage to write the Berneco Coal Co. at once for prices, stating kind and quality of coal you use.—adv.

Corn Pain Quick Stopped

"Gets-It" Loosens Them So They Lift Off in a Jiffy.

The corn pains cease as soon as a few drops of "Gets-It" reach the corn. It goes out of the hurting business forever.

For a day or so the corn remains, getting looser and looser and without a twinge from it. It gets so loose that you just lift it right off, without even feeling it, and cast it away. That's how easily and simply "Gets-It" disposes of the corn nuisance.

"Gets-It," the infallible, guaranteed, money-back corn remover, costs but a trifle at any drug store. M'd by E. Lawrence & Co., Chicago. Sold in Hammond and recommended as the world's best corn remedy by J. W. WEIS, Summers Pharmacy, Ostrorowski Pharmacy.—Adv.

"Defty" Blouses

They are arranged here in a charming assortment of new conceptions that are entrancing in fact, words are absolutely lacking wherewith they may be described.

But—Conspicuous among them will be found the Georgette, Tricollottes and Crepe de Chine, with touches of beading, yarn and chenille braid that only designers artistically inclined could conceive.

Come to Blouse Headquarters, the trip will prove captivating to the most ardent blouse admirers.
