The Farmer's Merry-Go-Round

National Crop Improvement Service
The farmer works
To make more money
To buy more land
To raise more corn
To feed more hogs
To make more money
To buy more land
To raise more corn
To feed more hogs
(repeat ad lib)

THIS is the farmer's merry-go-round. The clever farmer who knows how to conduct his business, will borrow all the money he can at a low rate of interest in order to carry out this cycle.

The Federal Land bank is furnishing money to businesslike farmers who already have a bankable credit and it is said that a very large proportion of the loans so made are to buy more land to raise more corn to feed more hogs etc.

And as such, there will be no complaint except that the farm tenant and hired man or the beginner has very little opportunity to borrow money from that source to buy land on the same basis.

Objections are made to one feature of this excellent law because the bonds are exempt from taxation. At this time of year, when farmers are figuring out the income tax which they are required to pay on the in-

come received from their land and livestock, it is a good time to think about the complete exemption that is granted to wealthy owners of Federal Land Bank bonds and Joint Stock Land Bank bonds. The taxes that the rich men evade, by buying tax-exempt bonds of any kind, are simply added to the taxes paid by farmers and others whose incomes are not exempt.

The Federal Farm Loan Act was enacted to help the business of agriculture. Like all other laws, it might be improved. It is not fair that very wealthy men should be exempted from taxation when farmers, who are paying interest on the funds which they have furnished, are obliged to pay the property taxes and also income taxes.

It is only within the last three or four years that the policy of tax exemption has become a practical matter of great importance to every one. The enormous national debt which the war placed upon our nation must be paid, and tax exemption is furnishing a means of escape for the wealthy men with large annual income. Something must be done to make up the shortage in tax revenue. There are only two ways to escape it—either the rich men must be made to pay their share of the heavy tax burden or small property owners and land owners must have their taxes increased.
