The Spring Rains Bring Grippe

This sort of weather brings colds and grippe. If it's just a common cold people say, "there's no danger in that!" But many a fatal sickness begins with a cold—with vitality weakened—the system is ready for the Influenza germs. Begin early to ward off the attack. Purge the system of the toxins (poisons) by taking castor oil, or a vegetable laxative made of Mayapple, leaves of aloe, and jalap, rolled into sugar-coated pills and to be had at all drug stores as Dr. Pierce's Pleasant Pellets.

✕ If the cold starts with a cough, and it persists then some local treatment for this condition should be taken. A well known alternative extract which has been on the market for a great many years, and which has been highly recommended by thousands of users, is Dr. Pierce's Golden Medical Discovery. This tonic compound is composed of an extract of roots and herbs without alcohol, and has a soothing effect upon the mucous membrane, allays the irritation and at the same time works in the proper and reasonable way, at the seat of the trouble—the stagnated or poisoned blood.
