Straight Toes for Boys

KEEP your boy's toes supple and straight. Don't bind them in pointed shoes. Youthful bones are easily bent—and bent toes mean a lifetime of corns, bunions, callouses, weak arches, ingrowing nails, and other foot ailments.

We recommend Educator Shoes for all growing feet—and feet already grown. Educators are shaped like the foot. They give natural toe room. They "let the feet grow as they should."

Let your boy try on the sturdy, service-giving Educator boot pictured below.

They were marched down to the town hall and later on were taken to Crown Point where they will go to the penitentiary. Mr. Pietrie identified the three as the ones that entered his place.

FRANK B. McILROY
OF HAMMOND
Republican Candidate for
SENATOR

In making my announcement as a candidate for Senator I deem it my duty to briefly but frankly state the principles upon which I stand, and which will govern my course, if I am elected by your generous suffrages a seat in the Senate of Indiana. These principles compressed into the narrowest compass are as follows:

I declare for state rights and individual liberty. I believe in the support of state sovereignty and local self-government. I am opposed to the National and State Prohibition act, because the people were denied any direct voice in its ratification or rejection, which is an infringement on personal rights.

I am opposed to the present obnoxious Tax Law, and if I am honored with a seat in the senate I will do all in my power to enact a new tax law that will be just and equitable to all taxpayers, whether large or small. I am opposed to the taxation of the poor whose personal property is valued at less than \$500.00. I believe in taxation justly proportioned to such an extent only as is necessary for maintenance of government economically administered.

I favor a just and liberal appropriation to the American Soldiers of the world war, maimed or injured while fighting somewhere in France or upon the high seas to make the world safe for Democracy. I believe that each state should take care of their own. We owe the American Soldier a debt of gratitude that we can never repay.

Labor: The difference from times immemorial between capital and labor lies in the development and acceptance of the sharing of profits. Capital is dependent upon labor and labor upon capital. There must be co-operation between the employer and the employee—harmony must exist for the happiness and prosperity of both.

I believe in and stand for the rule of the people, and I invite all men, who so believe, to stand with me to the end.

Frank B. McIlroy
