

JAIL CELLS HELP SOLVE HOUSING PROBLEM

Home hunter residing temporarily in Chelmsford, England, jail cell.

To help solve the acute housing problem, the Chelmsford, England, town council has opened spare cells in the local jail to homelessers unable to find houses. The cells are left unaltered, though, so that they'll be available for lawbreakers.

PENNSYLVANIA STATE CONSTABULARY ADOPTS MOTORCYCLES.

The Pennsylvania state constabulary, a military organization which rivals that of the famous Canadian Northwest Mounted Police, will henceforth use motorcycles in patrolling the state highways and running down motor thieves and other law violators. The first sign was hung on Old Dobbin when a contract was recently awarded one of the leading motorcycle manufacturers for seventy of the latest model motorcycles. All of the mounted men will take a thorough course of training in the operation and maintenance of motorcycles at the factory school.

INTERNATIONAL ROAD RACE AGAIN AT MARION.

The International 200-mile motorcycle road race will again be held this year at Marion, Ind., on Labor Day. The event last year drew riders and enthusiasts from practically every part of the country and was one of the biggest and most successful of the season.

INTREPID RIDER BRAVES DEATH VALLEY.

An achievement that is unequalled in motor history was performed this month by John E. Hogg of Los Angeles, when in the interests of three large rail-

road companies he made a tour of Death Valley on a middleweight machine. The trip, which is a hazardous one at any time of the year, because of the utter absence of distinguishable trails, the great distance between water holes, and growing packs of coyotes was accomplished by Hogg and his little machine without a single mishap. He covered over 800 miles on the floor of Death Valley itself, which is the greatest depression on the face of the earth with the exception of the Deep Sea region in Palestine.

What Courtesy Overlooks.

One way to make sure that you maintain amiable relations with your immediate neighbors is not to permit yourself to take advantage of their close proximity to you. There are always little things that you can learn about your neighbors that it is the part of courtesy to overlook.

"Fire Tree" of Australia.

One of the most extraordinary of Australian trees is the "fire tree" which is common in New South Wales. When in full bloom it is a mass of flame-colored flowers, and looks like a tree on fire.

[National Crop Improvement Service.]

"THERE are more horses in America today than ever before in spite of the activities of the mechanical motive power manufacturers.

"There is a greater variety of uses for the horse than there is for a tractor or a truck, both of which are extremely useful in their own field.

"When it is considered that if the farmer or teamster should keep nothing but well bred teams of brood mares, that the progeny of these mares will make an independent profit to the owner, it will be seen that the argument that the horse eats its head off when not working, is a little far fetched.

"Moreover, the horse as an aristocrat playmate for out-of-door sports is coming back so rapidly that all well bred hunters or horseback riders are bringing fabulous prices, and are increasing in number as the demand grows.

"There is another angle," says Mr. Frank Baackes, V. P. American Steel & Wire company, "in which the use of mechanical motive power is wasteful and that is that all kinds of labor is drawn to this industry to supply a demand for motors of all kinds which are not used to their capacity or anything like it.

"A well balanced America is what we are after, and horses are sane and sensible and always will be."

Says His Prescription

Has Powerful Influence

Over Rheumatism

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of needless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. Your druggist has been appointed agent for Allen's in this vicinity with the understanding that he will freely return the purchase money on the first two bottles to all who state they received no benefit.—Adv.

Kills Pesky Bed Bugs P. D. Q.

Just think, a 25c box of P. D. Q. (Pesky Devil's Quietude), makes a quantity enough to kill a million bedbugs, roaches, fleas or cockroaches and stops future generations by killing the eggs and does not injure the clothing.

Liquid fire to the bedbugs is what P. D. Q. is like. Bedbugs stand as good chance as a snowball in a justly famed heat resort. Patent spot free in every package of P. D. Q. to enable you to kill them and their eggs in the cracks. Look for the devil's head on every box then you'll have what Hospitals have found to be the best insecticide known to science. Special Hospital size \$2.50 makes five gallons—contains 3 spoons—either size at your druggist or sent prepaid upon receipt of price by the Owl Chemical Co., Terre Haute, Ind. Genuine P. D. Q. is never peddled.—Adv.

State Street Retail Store For Sale!

Between Oakley Avenue and Hohman Street

If you are looking for a fine location, modern building, steam heat and large windows with 35 feet of plate glass, investigate our offer.

Our location is worth a bonus of \$1,500.00—we ask nothing for it.

Our stock and fixtures are worth \$5,000.00—this is all we ask you to buy.

Will Give Terms to Responsible Parties

Careless Shampooing Spoils the Hair

Soap should be used very carefully. If you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is Multifold coconut oil shampoo (which is pure and greaseless), and is better than anything else you can use.

One or two teaspoonsful will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy, and easy to manage.

You can get Multifold coconut oil shampoo at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.—adv.

the dealer and service man, promises this year to surpass that of probably any two previous seasons. All of the manufacturers are working their plants at the maximum but still the universal cry from the dealers and riders is for more motorcycles and sidecars. An extensive program of competition events on the track and road is on schedule for this season also.

NATIONAL GYPSY TOURS JUNE 18-19

The National Motorcycle Gypsy Tours will again take place this year, under the auspices of the M. & A. T. A., the governing body in the motorcycling sport in this country. The tours are short sociability runs and outings promoted by local clubs which take place simultaneously about the country. Last year 22,000 registered motorcyclists took part in the gypsy tour and it is conservatively estimated that 30,000 will participate this season.

UNIQUE FRENCH RELIABILITY TRIAL.

One of the most important motorcycle events of the year in France was recently concluded. The run was from Paris to Nice, 650 miles, and was of a duration of four days. American, British and French makes of motorcycles and sidecars took part. Yankee machines were well up in the list of contestants with high marks. In fact, an American make machine with sidecar made the highest score in this class. The contestants were required to maintain a certain riding schedule and in addition to this, special tests for reliability, silence, flexibility, easy starting, etc., were used in awarding the marks.

Once You Try Mazola You Will Never Go Back to Lard or Butter for Cooking—or Olive Oil for Dressings

OF interest to every wide-awake housewife are these important facts about the general use, the quality and the unusual economy of Mazola.

Deep Frying

No fat excels Mazola for deep frying. It is far better and a great deal more economical than lard or compounds. Mazola is 100% pure vegetable fat. It contains no moisture. Butter and Lard contain moisture. The same lot of Mazola can be used over and over again—even after frying fish and onions. Merely straining makes it perfectly fresh for use as a shortening. It carries no odors or flavors from the foods cooked in it and does not smoke up your kitchen.

Shortening

The purity and richness of Mazola best demonstrates itself in the fact that $\frac{1}{4}$ to $\frac{1}{3}$ less Mazola is required than that of butter or lard. This means that your cakes and pie crust will not only be light, rich and easily digested but will cost you less to prepare. Being an oil, the tiresome "creaming-in process" is eliminated. Mazola is always ready for instant use.

Salad Dressings

Thousands of Italians, who certainly know olive oil, use Mazola. Not only because it costs about half that of the best olive oil, but because of its richness, quality and purity. For French Dressing, Mazola blends readily—and mayonnaise made with Mazola will keep for weeks without separating.

Important to Housewives

One of the most severe comparative tests ever used on a cooking fat gives unqualified FIRST HONORS to Mazola.

Understand the remarkable economy and high quality of Mazola by these figures.

FRENCH FRIED POTATOES

2 lbs. of Mazola	fried	26 lbs. Potatoes
2 lbs. of Lard	"	8 " "
2 lbs. of Compound	"	11 1/2 " "

Note: Mazola goes over three times as far as lard; is twice as economical as compound.

FISH

2 lbs. of Mazola	fried	25 lbs. Fish
2 lbs. of Lard	"	15 " "
2 lbs. of Compound	"	20 " "

Note: Compare the figures yourself. Even with frying fish Mazola does not smoke up your kitchen.

DOUGHNUTS

2 lbs. of Mazola	fried	216 Doughnuts
2 lbs. of Lard	"	144 " "
2 lbs. of Compound	"	168 " "

Note: All doughnuts were the same size. Mazola - made doughnuts are more easily digested.

P. S. Reasons for these remarkable figures are explained in column to the left. Read it.
