

Two Lake County Men Seek Post

Glenn Harris and Otto F. Field Seek Speakership of Legislative House.

(TIMES BUREAU AT STATE CAPITAL) INDIANAPOLIS, IND., July 28.—Lake county will have to decide on a course of action if it intends to land the speakership of the house of representatives at the 1921 session of the general assembly.

The legislators attending the special session declare that they believe that Lake county has an excellent chance of landing this important legislative post. Representative Glenn Harris probably has the best chance of any man in the house to land the place. He has campaigned for the place for months. In fact he was a receptive candidate at the last regular session, and made formidable advances for the post upon several occasions late last year and again this year when special sessions threatened.

His chances may be weakened by the fact that another Lake county representative is also seeking the place. It is asserted that Representative Otto G. F. Field of Hebron is a candidate for the speakership. Should both of these Lake county men put up a course of action for the place at the regular session it is possible that an outsider may be chosen.

At the present time Mr. Harris has much the best chance of gaining the favor of the representatives. This is not to the discredit of Mr. Field, who is generally respected by the members, but he is under the disadvantage of being late in making his candidacy known. Mr. Harris is regarded as equipped for the place. He is alert and shrewd and is capable in every way of handling the house.

SUBSTITUTE FUEL OIL FOR COAL

Oil Being Used in the Gary Steel Mills Because of the Great Coal Shortage.

Fuel oil, fed by huge burners is to be used by the Gary Steel Mills as a substitute for coal until the seriousness of the coal shortage shows signs of improvement, according to an announcement made by officials yesterday.

The oil burners were first put into use during the big coal miners strike last winter. For another coal substitute, was also consumed in large quantities. Monday of this week the oil burners were re-lighted and officials hope to keep the main coals of the plant in operation until the crisis passes.

Oil is now being shipped into the mills in large tank cars from Whiting and other shipping points. It is said that the 300,000 gallons of oil in storage tanks at the plant are being put into use. According to a rough estimate the mills will need something like 90,000 gallons a day to operate, but whether this amount can be shipped in fast enough is a question.

Open hearths Nos. 2 and 3 are running on tar while No. 4 will burn oil. Eastern coal only has been received in the plant for some time and it is the large supply of western coal from the Illinois and Indiana mines that has been used in the operating of the open hearths.

Superintendent Gleason yesterday expressed a belief that the serious situation in which the shortage of coal places the industries would of necessity clarify in a few days. "It is of such tremendous interest to the country at large and threatens the whole country that some agreement will have to reach an agreement soon. Perhaps tomorrow will tell the tale."

A number of eastern mills operate with oil while in the natural gas regions the gas is used as the chief fuel in the mills. Gary Works, however, has been operating entirely on coal. The coke plant is using up what coal Gary Works can get shipped, but enough fuel is not being produced to keep up a normal supply of iron from the furnaces or steel for the mills.

MERRILLVILLE

The Centenary Club will meet next Friday with Mrs. Adie Boyd, chairman, desirous of a good attendance.

The Henry Kuehl family motored to Lincoln Park for a family picnic last Friday.

Mrs. Frank Buckholz and son Arle, is visiting at the Henry Kuehl home from Oak Park, Chicago.

Dr. Davis, superintendent of the M. E. Church will preach here next Sunday at 2:30 o'clock, the sacrament will be administered and quarterly conference, following. All yearly reports should be in at that time.

The Walter Blatchley family attended a cousin's funeral at Chesterton last Friday. A mother taken leaving seven children.

A good crowd attended the Epworth League social last Friday evening, Mrs. Moore had the misfortune to fall off the steps at Merrill hall and was in a serious condition. Ralph Loyce is the owner of a Ford machine. He can now make his trips back and forth to the Gary post office. He is on a regular mail route now.

SEEKS TO QUIET TITLE TO STRIP

Last year Meyer Nagdeman built a garage at his home in Hammond. As his lot was not wide enough to provide room for a driveway he dickered with his neighbor, Clarence Smith, for the purchase of a strip five feet wide of the adjoining lot. It was agreed upon and Mr. Nagdeman went ahead with the construction of the garage. Now he has brought suit against Smith in the Hammond Superior court to have the title to the strip of land quieted in his name. Smith, it seems, never came after the money for the land and the property was never conveyed. Since then he has arranged to sell the strip along the rest of the lot to another man. This would leave Nagdeman without a driveway. Coach, Gavett and Stinson are attorneys for the plaintiff.

WILL NOT ENFORCE A SHUT DOWN

(INTERNATIONAL NEWS SERVICE) INDIANAPOLIS, IND., July 28.—No effort will be made by the United Mine Workers to enforce an immediate shut down of all mines operating in the central competitive field involving some 210,000 men, as a result of the settlement at Danville, Ill., it was believed certain today. In a statement Saturday night, President Lewis of the Mine Workers, declared that any settlement made in Illinois which "modified the basic inter-state agreement," would result in such a step unless applicable to all mines of the central competitive field.

When the International News Service dispatch from Danville was read to the miners executive he expressed the view that the mines in which settlement was made are probably independent mines, not members of the operators' association.

While Mr. Lewis declined to be quoted, it is known he holds the opinion that such settlement may be subject to later adjudication, along with the hoped-for interstate agreement.

DEMAND GIRL'S REINSTATEMENT

The Indiana Box Company, which is located on the East Chicago canal near Forsyth avenue, has been able to keep their employees satisfied with fair hours and good wages, but this morning they struck a snag when about fifty of the employees walked out with the demand that one of the girls who was discharged yesterday be re-employed.

The girl was discharged, officials say, because her work was unsatisfactory, but apparently that made no difference to her friends who demanded that she be re-employed before any of them returned to work. The crowd stood around the entrance to the plant for a couple of hours but attempted no violence. They then returned home.

The plant ordinarily employs about one hundred and twenty-five persons and although the loss of fifty materially slows up production officials assure that operation will be continued and predict that most of the strikers will be back to work within a few days.

Personal and Social News

The Mayflower club had a beach party yesterday at Lake Front park. The party was in the nature of a birthday surprise in honor of Mrs. George St. John. Mrs. St. John was presented with a beautiful gift from the club. The guests were Mrs. Blanche Callahan and Mrs. Fred Colbertson of Hammond and Mrs. B. Deford of Anderson, Ind.

weeks with his parents, Mr. and Mrs. J. S. Smith of Warren street.

May Fietemeyer is visiting friends in Lafayette.

Rev. C. J. Sharp returned this morning from a tour of the west and the southwest, where he has been doing evangelistic work.

Boy Scout Column

Sixty husky, lusty young Americans at Camp Waugansic, Lake Eliza, recently held a field day for exhibition of Scout craft. Fathers and mothers, sisters and brothers were present to witness Hammond's Boy Scouts distinguish themselves.

The results of the first period of camp life which ended Saturday are: Best all-around camper, George Hanauer, Jr., first-class Scout, Vern McMullen, second-class Scouts, Joe Ruff, Bert Boswell, Carroll Warner, Anton Havill, John Govell; Eight Scouts received life saving merit badges, ten swimming badges—and not one Scout was allowed to go home until he proved that he could swim.

Third camp began Monday. Scouts should hasten to enroll for a term at Camp Waugansic. Training in camp breaking, bridge building, swimming and all phases of wood craft.

Stanton, Scoutmaster of Troop 3, which meet at Wentworth school, has been commended for the wonderful showing of his troop and the continued lively enthusiasm of the boys.

With three days remaining, Scouts are busy guessing how many beans occupy the bottle in the window of Golden Bros. store at 272 Fayette st. The contest closes July 31. The winner gets a Scout knife and should have a merit badge for luck.

Paton, new Scoutmaster of Troop 3, which won the inter-troop contest, has his hands full with the temporary supervision of Troop 3 for which a scoutmaster is now being sought.

Gordon, scoutmaster of Troop 1, boasts he has the liveliest scout organization in Hammond. Troop 1 is the largest troop in the city and is now forming a basketball team that promises to whip any team of its age in the city. Most of the boys of Troop 1 are now at the Lake Eliza camp where they have entered into the spirit of the surroundings and declare "there will be no fooling."

Herman, youngest scoutmaster in Hammond, and leader of Troop 2, was a Scout himself when Troop 1 was first organized years ago.

Collet, pilot of Troop 17, says Scout Yark is the "cheerful" scout. Scout Joe Mauck, wood carver of considerable ability, has carved a wooden shield which is on exhibition at Golden Bros. The troop meets every Thursday night at Wallace school. Boys are urged to bring their guitars, mandolins, ukuleles or other music boxes.

THRILLS AT ORPHEUM
Jack Dempsey, who, as a movie star, has been furnishing the thrills in the Pathe serial, at the Orpheum theatre, for a number of weeks, winds up his engagement this week. Today, Thursday and Friday he appears in the final episode of "Daredevil Jack." The serial has been crammed with thrills from the first but the author outdid himself in the last episode. The way Jack handles his enemies and performs superhuman is something awful.

Along with the picture are six big vaudeville acts, prominent among which are Whitney's "Operatic Doll," a novelty comedy and singing revue and Nesbitt & King, eccentric comedians.

CARD OF THANKS

We wish to express our appreciation for the kindness shown us and to extend our heart felt thanks to the women's relief corps, the Dorcas Rebekah lodge, No. 253, I. O. O. F., the Sons and Daughters of Liberty, Golden Rule council, No. 1, the Painters Union Local, No. 460 and to the Rev. N. E. Tinkham for the kind and comforting words and to the sisters for the beautiful hymns rendered. And to our many friends and neighbors for the beautiful floral offerings and sympathy shown us in our hour of sorrow in the death of our beloved wife and mother.

Mr. David E. Evans, Mr. and Mrs. Arthur Rick, Mr. and Mrs. David Evans, Jr., Mr. and Mrs. Anthony Falco, Mr. and Mrs. Gust Beresola, Miss Lela Beresola. 7-25-1

CARD OF THANKS

The undersigned are desirous of extending their heartfelt appreciation to all those who showed such great kindness in their late bereavement in the loss of their three-year-old son, who met death by an automobile Sunday. Especially to Rev. Father Connolly of St. Patrick's church, Twin City circle, daughters of Isabella, all neighbors and friends and for the many beautiful floral offerings sent.

Mr. and Mrs. A. Brogan, Mark Subdivision. 7-27-1

Lake county Pythians will gather at Castle Hall, Gary, Ind., on Wednesday evening, July 28th. A rank of Knight will be conferred on a large class by an all county team. Every Pythian in Lake county is urged to attend this meeting. Crown Point, East Chicago, Hammond, Indiana Harbor, Lowell and Whiting lodges will all have a large representation. 7-26-27-28

It Is Iron In The Blood That Makes Iron Muscles Like These---

Physician Explains a Secret of the Great Power and Endurance of Athletes—Tells

How Organic Iron—Nuxated Iron Helps Build Rich, Red Blood

That Gives Physical Strength and Energy

To touch the arm of a strong, sturdy man—to feel the steel-like firmness of those muscular sinews—to think of the tremendous force and power that must lie behind such strength—these are thrills that come to the thin-blooded men and women whose own bodies are weak and physically unfit.

It takes men of red-blooded force and power to hit the sledge-hammer blows that count—and whether you are a pile-driver or a bank president you cannot expect to win out against odds forever unless you are a man of iron—constantly able to strike—and strike hard.

There are countless numbers of men today who at 40 are broken in health and steadily going downward to physical and mental decay," says Dr. John J. Van Horne, formerly Medical Inspector and Clinical Physician on the Board of Health of New York City. "Yet there are thousands of such men who undergo a most remarkable transformation the moment they get plenty of the right kind of iron into their blood to give increased energy and endurance. To help build stronger, healthier men and women, better able physically to meet the problems of everyday life, I believe that physicians should, at every opportunity prescribe organic iron—Nuxated Iron—for in my experience it is one of the best tonic and red blood builders known to medical science."

If you are not strong or well you owe it to yourself to make the following test: See many another has gone down to inglorious

how long you can work or how far you can walk without becoming tired. Next take two Evergreen tablets of Nuxated Iron three times per day, after meals, for two weeks. Then test your strength again and see for yourself how much you have gained. Many an athlete or prize fighter has won the day simply because he knew the secret of great strength and endurance, which comes from red blood builders known to medical science. It is having plenty of iron in the blood, while
