"EAST CHICAGO POST, NO. 21"

"East Chicago Post No. 21" seems to be the favored name for the East Chicago Post of the American Legion although "Company L Post" is running a close second in the suggestions which have been received to date by Post Commander Allan Lewis. "East Chicago Post, No. 21" has been suggested by fourteen different people and "Co. L Post" is the choice of eleven.

At a recent meeting the members who were present had almost decided to call the post by the name of one of the East Chicago boys who lost his life in the great war. The only difficulty lay in selecting the one from the fourteen and in order to help in reaching a decision it was decided to call for suggestions from the public. After "East Chicago Post, No. 21" and "Company L Post" the favorites to date are "Frances Thomas Post" with five supporters, "John Noror Post" suggested by three, "Arthur Bremer Post" suggested by two and six of the others were each suggested by one.

Those eligible to recommend are the members of the Legion, men and women who served in the war and their fathers and mothers. Suggestions will be received only during the next week and should be addressed to Allan Lewis, 4709 Forsythe avenue, East Chicago. The names of those who gave their lives in the war are:

Eddie Bledaycki, Frances Thomas, Bent Arthur Bremer, John Noror, William Owech, Joseph Zolnowski, Marcus Miner, Charles Murray, George Miesch, Hiram Haller, Omar C. Heeden, William Foster, Steve Strippi, Charles Quigley.

A QUIET WEEK END

A quiet week-end was the order at East Chicago and Indiana Harbor for the last day of July and the first of August. Only a few minor troubles were reported to the police and the few thefts which occurred could all be classed as petty crimes.

Two small fights relieved the monotony. George Thomas, a negro, who lives at 3871 Guthrie street, was visiting a friend at 2637 Pennsylvania ave. when several negroes became involved.

in a friendly argument and Thomas received a knife wound in the chest. Thomas did not know which friend did the cutting.

A dance at Columbia Hall broke up early Sunday morning when a deputy constable drew a revolver and threatened to shoot up the place. Fred Kahan and Joe Gilboe, two young men from Indiana Harbor, subdued the constable and took his gun away after which he left the dance hall much the worse for wear. The young men later turned the gun over to the police.

The thefts included a bicycle stolen from Stanley Lashewski, 4852 Carey st., \$15 and a gold watch stolen from Wm. Barnes, while he slept in his room at the corner of Michigan and Commonwealth avenues; a watch and \$58 stolen from W. M. Roberts while he slept in his room at the Palace Hotel, the door was opened with a key which was left in the key-hole; a check for \$45.54 taken from the pocket of Julius Powlanski, 3619 Deodar street, while he was on a Green line car.

W. A. FUZY IS ELECTED

William A. Fuzy is now president of the East Chicago School board, succeeding J. H. Ross whose term of office expired this year. The election of W. A. Fuzy as treasurer and D. C. Norris as secretary also took place at the same meeting.

Following the election of officers for the ensuing year, Fred Buse and D. D. Dixon acted as hosts in serving light refreshments as a token of esteem for the retiring member, J. H. Ross, and as a welcome to the new member, W. A. Fuzy. Speeches were then made in order and many of those present made short talks commending the work of Mr. Ross during his period of office.

The board took up the question of compulsory swimming instruction for all children in the school and considered the advisability of building a natatorium, probably in connection with the new high school building. It is improbable that anything definite along this line can be accomplished this year but the board expects to have some definite plans for the following year.

The city of East Chicago will find itself fairly well equipped for school purposes this fall. The Garfield school improvement is practically completed and will add eight rooms for use and the industrial building will add another six rooms. The entire building in which conditions are expected to be very crowded to the Harrison building and the board is planning for improvements there.

An enthusiastic crowd attended and were well pleased with the program of speaking and singing. Alderman John Tenkley, Gabriel Sasse, Atty. W. A. Fuzy and Dr. Jacob Goldman were the principal speakers.

- Q. What is Threaded Rubber Insulation?**
A. A storage battery insulating material made up of rubber pierced with thousands of tiny threads.
- Q. How does it differ from other battery insulation?**
A. Ordinary insulation is wood, cut in the form of thin sheets, and is neither as uniform nor as durable as Threaded Rubber Insulation.
- Q. Why is insulation so important?**
A. Because battery life depends largely on insulation, and because any defect or weakness of insulation is quickly evidenced by buckled plates, short circuits, failure of the battery to hold its charge and so on.
- Q. What has this insulation to do with battery shipment?**
A. The kind of insulation determines whether the battery must be kept wet, or can be shipped in "bone dry" condition. Wood insulation must never be allowed to dry out, hence makes necessary wet or partially wet shipment. With Threaded Rubber Insulation the battery can be shipped absolutely "bone dry."
- Q. Why is "bone dry" shipment and stocking preferable?**

- A. Because it is the only method by which chemical action in the battery can be entirely held up, so that the battery reaches the buyer in truly brand-new condition.
- Q. Why does wood insulation need to be replaced?**
A. Because wood insulation, being soft, wears out more rapidly than any other part of the battery. It is also subject to cracking and checking, which, if allowed to go too far, seriously damages the battery.
- Q. Why does Threaded Rubber Insulation outlast the battery?**
A. Because the basis is hard rubber, which resists wear and does not crack or check.
- Q. How can I be sure my battery has Threaded Rubber Insulation?**
A. Look for the red Thread-Rubber trade-mark. It can be found only on the Still Better Willard Battery.
- Q. How many car and truck manufacturers have selected Threaded Rubber Insulation?**
A. 136 in all. The complete list is printed at the right.
