

NOBLEWOMAN IS JUSTICE OF PEACE

Lady Caroline Petre and her son, head of the house.

Lady Caroline Petre, member of one of the oldest families in England, has been sworn in as justice of the peace for the county of Essex, England. In 1863 the fourth baron of the family line died in the tower of London, where he had been incarcerated for his religion. Lady Petre's small son is now the head of the house, as his father was killed in the World war.

ARGENTINA

REFUSES TO PAY

GENEVA, Dec. 14.—Argentina today refused to pay her financial assessment from the league of nations and the matter was referred to the league council.

Disarmament was debated at the morning session of the league assembly.

(Argentina's refusal to pay her league of nations dues was evidently based upon withdrawal of the Argentine delegation from participation in league of nations affairs. Honoreo Peyrerredon, head of the Argentine delegation, explained at the time of the withdrawal of the Argentine delegation from the assembly that this was equivalent to absolute severance of relations with the league under Article 26 of the league covenant which specifies that a dissenting nation shall no longer be considered a member of the league.)

WOMEN AT LEAGUE MEETING

GENEVA, Dec. 13.—Women partici-

pated actively in the league of nations meeting today for the first time. Women alternates for the delegates from Norway and Denmark took part in the committee debate on international health organizations to be created under the league.

SEARCH FOR CLARA SMITH IS STOPPED

FORT WORTH, Texas, Dec. 14.—Search for Clara Smith, charged with the murder of Jake L. Hamon, Oklahoma "Empire builder," was dropped here today when authorities declared the woman had "never intended coming here."

Newspaper men held the same belief. Authorities held the theory that the fugitive woman had either escaped into Mexico or else is being protected by friends of the dead oil king until after Prosecutor Russell B. Brown of Ardmore goes out of office Jan. 1.

The Times' want ads bring astonishing results if their users are to be believed.
