The following is a letter recently sent to all the industries by Henry W. Peterson, president of the Chamber of Commerce:
To the Industries of East Chicago:
Our Chamber of Commerce is extremely interested in boosting the City of East Chicago and as a means of doing so, we respectfully urge that in the matter of employment your organization give preference to ex-residents and preference to residents of East Chicago over non-residents. We realize that a great number of the industries are already following this plan and are to be congratulated on so doing. Our Chamber of Commerce feels that other things being equal, residents of East Chicago should be given first consideration. The industries of our city are naturally interested in its growth and development and in as much as steady employment is of vital importance in promoting the welfare of our city, we feel sure that all industries not already doing so, will hereafter give preference to East Chicago in the matter of employment.
