Increase of traffic. Neither of these things seem at all likely to occur for at least a year.

The order requires that the company continue to file with the commission and cities the monthly report on its business in order that both may be kept fully informed.

SPEEDERS FINED.

A pair of speeders were fined in the Hammond city court this morning. Joseph Sideman, 1549 S. Turner avenue, Chicago, who left \$25 for his appearance to answer to the charge, failed to appear in court at the time specified, thereby losing his bond. Harold Lyle, 653 East Thirty-seventh street, Chicago, paid \$15.

A CORRECTION.

In an item of news from Crown Point yesterday it was stated that James K. Stinson was the attorney for Miss Ethel Locklin of Hammond in her suit against Alonzo Dickinson, an elder of the Christian church, for alleged slanderous remarks said to have been made by Dickinson at a private meeting of the board of elders discussing the charges against Rev. Clarence Smithson, the pastor.
The attorney in the case is not James K. Stinson, but John M. Stinson.

The day will be devoted to patriotic exercises, athletic contests, games and a noonday basket dinner.
The occasion is intended to be of special interest to the pupils of Trinity Sunday School.

PROSPECTS OF STRIKE ARE SLIM

Railroad Unions' Meeting in Chicago Will Seek Compromise Negotiations.

(INTERNATIONAL NEWS SERVICE) CHICAGO, July 2.—With the railway labor chiefs gathered in Chicago to discuss the 12 per cent wage cut fully determined to avoid hasty action and hot words, prospects that the committee charged with formulation of a policy stand by the workers would recommend a strike at this time were slim today.

The committee of five railway labor heads will determine what action will be recommended to the 1,000 labor delegates gathered here. Their recommendation, it is believed, very likely will be endorsed by the delegates.

There was considerable talk today that the railwaymen would be urged to accept "temporarily" the wage slash, pending further negotiation, or to back up a compromise proposal of a smaller wage cut, say, possibly six per cent.

It was recognized by the delegates that a strike at this time would not be to their advantage and that the roads would be less injured by an immediate strike, with the industrial depression, than later.

It was agreed by the committee of five that no inkling of its position be made public until a signed statement is issued.

The trend of opinion among the four railroad brotherhood delegations was that the wage cut might be accepted informally, but that compromise negotiations should be re-opened with the railway line individually.

The policy committee may spread its sessions over several days. This body is composed of H. M. Jewell, head of the Railway Employees' De-

partment of the American Federation of Labor; F. H. Fitzgerald, president of the Brotherhood of Railway and Steamship Clerks, Freight Handlers, Express and Steamship Employees; L. E. Sheppard, president of the Order of Railroad Conductors; E. J. Marlon, president of the Order of Railroad Telegraphers; and Timothy O'Shea, vice president of the Brotherhood of Locomotive Firemen and Engineers.

POSTAL ROBBERY IS CLEANED UP

TOLEDO, July 1.—Sherman Fink, 25, Philadelphia, was ordered returned to Bayonne, N. J., Thursday by Federal Judge Kilgus to stand trial on the charge of playing a postoffice messenger during a holdup.

Fink was arrested while working as a tailor in a Toledo store. It is alleged he shot Matthew Lyons, postoffice messenger, when Fink and several others grabbed between \$400,000 and \$500,000 in loot. It is alleged that

Fink has confessed his part in the robbery when taken before Judge Kilgus and postoffice inspector Thursday.

Our City's Water Supply Comes From One of the World's Greatest Bodies of Fresh Water

The people of the City of East Chicago not only get their water from one of the largest bodies of fresh water in the world, but the closeness of the community to Lake Michigan insures relatively cool water. Water here does not have to travel through miles of pipes to inland points, as is the case in many sections of a large city.

There is a distinct advantage in getting drinking water from such a large fresh water sea as Lake Michigan. It means better water than is furnished to communities that depend upon rivers.

But the people of the City of East Chicago have still further advantage. This community is supplied with lake water that is first filtered and purified by one of the most modern and scientific filtration plants in the United States. That insures clear, clean, potable water, free from germs. And the nearness of our city to the lake adds to the coolness of the water.

Clear, cool, fresh water, always ready day and night. Enjoy this filtered water in this warm weather.

8-CENT FARE CONTINUED INDEFINITELY

Copies of the supplemental order from the Public Service Commission of Indiana, continuing the 8 cent fare on the H. W. & E. C. street railways for an indefinite period, have been received from Indianapolis.

After summing up the evidence submitted, the order says: "No complaint was offered at the hearing concerning the service and the evidence indicates that petitioner has been making extensive repairs to its track and equipment and that the business of the utility is conducted with economy and efficiency. It is to be hoped that the fare may be reduced but it can be reduced only by material reduction of petitioner's operating expenses, which is mainly labor cost, or by a very large increase in fares."
