

## Public Is Amazed at Continued Enormous Demand For Tanlac

People All Over America Want to Know What Is Behind the Phenomenal Success of This Preparation That Makes It the World's Greatest Tonic.

Day after day the question is being asked all over the United States and Canada: What is the reason for the phenomenal success of Tanlac? Why do we hear so much about it and why do Tanlac sales keep increasing every year, when other medicines seem to have a short-lived popularity and are then forgotten?

The answer is simple enough. The test of time has proven to people all over the American continent that Tanlac always produces most gratifying results and that the remarkable relief it brings seems to be more permanent than ever before believed possible.

Tens of thousands of persons, everywhere, who took it when it was first introduced six years ago, report that they are still enjoying excellent health and millions of American homes are now using Tanlac as the family medicine after first trying it out thoroughly and proclaim it the World's Greatest Tonic.

Thousands of men and women of all ages and in all walks of life afflicted with stomach, liver and kidney disorders, some of them of long standing, as well as thousands of weak, thin, nervous men and women apparently on the verge of collapse have testified publicly that they have been fully restored to their normal health, strength and weight by its use.

Still others, who seemed fairly well, yet who suffered with indigestion, headaches, shortness of breath, dizzy spells, sour gassy stomach, coated tongue, toulness of breath, constipation, bad complexion, loss of appetite, sleeplessness at night and terribly depressed, depressed feelings, state that they have been entirely relieved by Central Drug Store and by leading druggists—Adv.

these distressing symptoms and restored to health and happiness by taking Tanlac.

Tanlac has never been advertised a cure-all or that it would perform unheard-of wonders. The advertising has been clean, straightforward and conservative. Actual facts and figures have been stated and that in a true, business-like way that has commanded the confidence of all in the conservative class set forth.

The enormous demand for Tanlac is due to merit alone, for no amount of advertising would continue to sell any article that does not possess real merit. Unless full value underlays the article advertised, the advertising will ultimately fall of its own weight. You can feel some of the people some of the time, but you can't fool all of the people all of the time.

Tanlac has been well advertised. It is true, but such a large and rapidly growing demand could not be brought about by advertising alone. It is what the people themselves say that counts. The bottle of Tanlac is sold in a neighborhood through advertising, but ten more are sold in that same community as a result of the sale of that first bottle and that is why Tanlac has succeeded. People are always willing to talk about their ailments, but they are more than glad to tell others of the medicine that helped them. It is something they could not keep to themselves if they tried, for the impulse to sympathize with your fellowmen and want to help him is one of the strongest, as well as one of the biggest, things in human nature.

That is the reason why the people of every section of the United States and Canada have become to speak of Tanlac as the World's Greatest Tonic. And that is the reason why the demand for this remarkable medicine has grown to such proportions that it is almost impossible to keep dealers supplied.

Tanlac is sold by Chemists by Summerville Pharmacy, and in Indiana Harbor by Central Drug Store and by leading druggists—Adv.
