

EAST CHICAGO —AND— THE HARBOR

TAXI-DRIVER ATTACKED

During a dispute over a taxi fare early Sunday morning, Ed. Marshall colored, of 8888 Cedar street, Indiana Harbor, struck Joe Glibbo, driver of a checker taxi-cab, over the head and caused serious scalp injuries.

The colored man ran leaving his victim unconscious in the seat of the car, but was later caught and arrested by police officers Solomon and Budich. He is being held on a charge of assault and battery with intent to kill.

AUTO COLLISION

Foster, the four-corner taxi driver, was slightly injured Saturday night when he ran his car into the Baxon machine of R. A. Vane, of Hammond at the corner of Forsyth and 151st streets.

According to the statement of Mr. Vane, he was going east on 151st street and when coming onto Forsyth he swerved his machine to the curb to keep from hitting the Ford head-on. The front wheels of both cars were damaged and the fenders torn off.

SAID ON HOUSE

Wesley North, colored, charged with keeping a house of ill repute at 8534 Parrish avenue, Indiana Harbor, was arrested with eight associates Sunday night by police officers Kekich and Kirtin.

This place has been under surveillance of the Indiana Harbor police for the last week and yesterday evening when neighbors complained to the police of the questionable conduct there, the raid was made.

DOCTOR ROBBED

Dr. David R. Johns of 1211 Beacon street found both his medical and surgical bags missing last night, when starting out on an urgent call. Dr. Johns says he left both bags on the back porch in the afternoon and when he came out about 8 o'clock in the evening they were gone.

A lady next door claims to have seen three boys carrying two bags resembling physicians' cases shortly before the doctor reported his loss. She said the boys were running toward Hammond on Hoffman street. The loss was reported to the East Chicago police.

BURGLAR DROPS LOOT

Nick Markovich, owner of a soft drink parlor at 3881 Catalpa street, Indiana Harbor, saved the contents of his cash register early this morning when he fired after a fleeing

thief and caused him to drop the steel money box. Aroused by some-one prowling in the front of his place, Markovich made his way to the bar-room where in the dusk of the early morning he made out the dark outline of a man running out of the building. The burglar not halting when commanded, Markovich says he shot after him, but does not believe that the bullets took as the thief made his escape. Nothing was found missing.

The term "renaissance" which is often ambiguously used, in reality properly defines one portion of a long movement to advance European culture. It means "new birth," and the period to which it refers immediately succeeded the so-called "dark ages" and "middle ages." The general renaissance is said to begin about 1350, at the time when the ancient civilization which the barbarians overthrew at length absorbed the barbarians themselves. The Italian renaissance which is really the period of modern culture, came later.—Detroit News.

The newest idea for hats is a heat-proof lining. For this purpose the lining of the hat is made of a series of layers of thin, lightweight fabric of different colors, the combination acting as a light-filter. While not excluding light, it filters out the heat rays—in other words, the longer light waves, and thus keeps the head cool in warm weather.—Philadelphia Ledger.
