## Factory News

### THE CANNING COMPANY IS EXTREMELY BUSY

Canning Beans at a Record Rate

to Catch up With  
Its Orders.

The Laloga Canning company is  
now turning out canned beans at a  
record rate in order to catch up with  
orders which are far ahead of shipments  
made by the company. The factory  
was forced to close down several times  
a few weeks ago on account of a  
shortage of cans, but this condition  
has been remedied at least for the  
time being and cans have been arriving  
at the rate of two carloads per day.  
The company has a surplus  
stock of over 600,000 pounds of raw  
beans.

The Canning company has greatly  
enlarged its works in order to  
accommodate the big stock of beans.  
The addition is on the south end of the  
factory.

CARLOAD OF MACHINES

is Being Shipped by Separator Com-  
pany to Canada.

BIG FLAG STAFF

is Being Set up on the Condensed

Milk Co's Factory.

The Indiana Condensed Milk com-  
pany has ordered a big flagpole to  
be set upon the roof of the factory.  
This will be put up the first of next  
week with a big new flag will float  
at top.

The factory is located on the  
west end of its lot on the Noblesville road  
and along the railroad, with a high  
fence.

GETTING READY.

Wheel Works Baseball Nine Prepare

for the Season.

The Indiana baseball club at the  
Indestructible Wheel Works, will re-  
ceive its equipment next week and  
will begin intensive practice on the  
last week of the factory in a short  
time. The equipment is furnished  
by L. C. Willis, the factory president,  
who is connected with a sporting  
club company of Indianapolis. The  
team will probably come a challenge  
to other local favorites, as it would  
be well for them to fit up their equip-  
ment and get in a fair pre-season  
practice.
