

J. B. STOLL, EDITOR.

WEDNESDAY, NOV. 24, 1909.

## TO OUR READERS.

Upon mature reflection, we have determined to adopt the cash in advance system with all our subscribers. No paper will be sent from this office after the first day of January next that is not prepaid. Bills will be made out against all who are in arrears, and if not paid at the above stated time, their names will be erased from our list, and the amount collected according to law. We earnestly call upon all our readers to aid us in inaugurating the advance system—the only one upon which a paper can be successfully published.

## INDIANA PRESS ASSOCIATION.

To the Editors and Publishers of Indiana: The Indiana Press Association will meet at Indianapolis, January 6, 1910, for the transaction of such business as may be properly brought before it. The editors and publishers are requested to be present at that time. It is desired that the Association be made a working organization, and in order to do this there must be co-operation. Therefore, let every paper in the State be represented.

T. H. B. McCAIN, President.  
J. N. SCARCE, Secretary.

## TOO LATE.

At a meeting of the Democratic Central Committee of Cass county, held at Logansport on the 15th inst., following resolutions were adopted:

Resolved, That the Democratic State Central Committee are earnestly requested to change the time of holding the Democratic State Convention from the 8th of January to some day after the 1st of June, 1910, so that the success of the Democratic party in Indiana and the public interests will be thereby promoted.

Resolved, That the delegates to the State Convention shall be appointed at a mass meeting of the Democrats of Cass county, at the call of the chairman of the County Committee.

We are quite ready to admit that many good reasons could be assigned against holding the State convention at so early a date as the 8th of January, but since the State Central Committee has fixed the day, and everybody is making arrangements accordingly, it is folly to insist upon a postponement. Many counties have already elected their delegates, and it is almost impossible to change the time of the State Convention at this late period. Nor can any one seriously think of postponement when the convention once assembled at Indianapolis.

Whatever differences of opinion may have existed on this subject, however, all earnest Democrats should now direct their attention to procuring the nomination of a strong ticket, the adoption of a sound platform, and the overthrow of radicalism. Such efforts will bring good results—bickerings can not.

## THE MINNESOTA ELECTION.

The latest returns from the election in Minnesota elect the Republican candidate for Governor by a few hundred votes. There are four or five counties yet to hear from; the precise figures cannot, therefore, be given yet. The World says if the Democracy had been vigilant in the canvass there, and worked with the same zeal as the Republicans, that State would have been placed by the side of New York in the Democratic column. As it is, the vote is sufficiently close to show that it is within their reach at the next election. Large gains have been made in the Legislature of the State, and the Republican majority on joint ballot has been reduced more than one half. In addition to this, Democratic county officers have been elected in several of the Republican counties. All this very plainly shows that the Democratic gains are not confined to one State and one locality, but that they extend to all parts of the country. Also, that the Republican party is weakening in all quarters, opening the way for still greater triumphs in the Congressional elections next year.

## ADMIRAL FARRAGUT AND PORTER.

A Washington correspondent of the Pittsburgh Commercial, under date of the 10th inst., in speaking of the rival claims of Admiral Farragut and Porter for several millions of prize money in the capture of New Orleans, says that the former claims that Porter's mortar fleet bombarded the enemy's position for seven days without doing any serious damage, or in any way diminishing the offensive power of the forts; and further, that he did not capture or destroy any portion of the enemy's fleet, and that he (Farragut) ordered an attack in accordance with the directions of the secretary of war. The reply of Admiral Porter claims that he was first to suggest the attack; that he worked with his whole force eight days to get Farragut's fleet over the bar; that the statements in Farragut's paper are not true in fact; that he did damage the forts; and that he did capture and destroy part of the fleet. It is a very pretty fight as it stands. Gen. Butler is attorney for Farragut, and J. Haley Ash-ton for Porter, who are both actively engaged in searching for the truth, which evidently lies somewhere between the conflicting statements of the two admirals.

## MEETING OF JEWISH RABBIS.

A number of Jewish Rabbis from the principal cities of the Union were recently in conference in Philadelphia on the subject of reform in the Jewish Church. They adopted resolutions abolishing the use of prayers in the Hebrew tongue as unintelligible to the masses, disclaiming the doctrine of bodily resurrection, or the removal of the Jewish State by segregation from all other nations, and declaring the Aaronic priest-hood and the Masonic sacrificial worship to have been merely preparatory steps to Israel, and therefore things of the past, to be mentioned only in prayer in their educational capacity, and not to be practiced.

## OHIO ALL RIGHT.

A Cincinnati correspondent of the Indianapolis Journal furnishes some valuable information in regard to the probable action of the Ohio Legislature on the Fifteenth Amendment. If its statements prove correct, the friends of self-government throughout the land will rejoice at being saved from the disgrace attending the success of a measure which forever deprives sovereign States of their dearest rights. We quote the following from the letter referred to above:

The Republican majority in the present Legislature might just as well have been Democratic, for all of the service they will be to the Republican party. The majority as it is now claimed, is one in the Senate and three in the House. In Hamilton county, the ten Representatives are five Democrats and five "reform" Republicans. These five are convinced to help make up the majority on the Republican side. When the Legislature convenes, the Democrats will probably elect for Speaker Mr. Cunningham, reform Republican, who, in return, will vote with them on the "Fifteenth Amendment" and to disavow the State. Another of the reformers will be allowed to select the Clerk for the same considerations, and a third one will have the Sergeant-at-Arms, and thus for these three key offices will be bartered away the Republican majority. The Fifteenth Amendment, and the redistricting of the State, and consequently the Republican majority at the next election. It may be that the "bolters" will prove to be of no great avail, but indications are against this present.

We are quite certain that the Democracy will gladly yield all the offices to the "Reform Republicans" if they will only defeat that most infamous measure, the Fifteenth Amendment. The Democracy can well afford to dispense with official patronage in order to avert the consummation of a most wicked plot against the independence of State governments.

## CARL SCHURZ ON THE CHINESE.

Carl Schurz, one of the United States Senators from the State of Missouri, has recently been among the Chinese in San Francisco, and writes that he visited various factories wherein many hundred Chinese were employed at almost every branch of labor, and that because they are enabled by their few wages to work for less wages, they are preferred in all these branches to white laborers. He says further:

The Chinese need incredibly little to live on. They are satisfied with a little rice, a few eggs, and a little oil for a change. Most of their victuals are imported from China; even the eggs, which are preserved, are covered with a resinous crust. Yet, as told by this process they acquire a habitude which does not much suit the palate of our people. These importations, are exclusively made by Chinese merchants, and the Chinese laborer who lives within their reach purchases of them, even to the extent of the savings of the Chinese are not invested in this country, but are transmitted to China, so that in reality they do not bring much money into circulation. The poorer classes among them are absolutely ignorant, and I was told that they would read and write their own language. They adopt very little of American life, and they stick as closely as possible to their own native habits, although that is not always free from inconvenience to them.

## THE CURRENCY.

The Harrisburg (Pa.) Patriot says there is something wrong in the west, "What it is not exactly known. Business is dull and money very scarce. The people forget that the farmers of the west are now receiving half as much for their grain now as they have been in the habit of receiving for the last several years. And as accounts, in a great measure, for the scarcity of money. But they cannot realize that such is the fact, and the demand for an increase of the currency is almost universal. Senator Morgan is now at Washington engaged in drafting a bill to meet the wants of the west and south in this matter. The while the producers of the west and south are clamoring for an expansion of the circulating medium, the manufacturers and traders of the east are pleading for contraction and a speedy return to specie payment."

## A HORROR OF THE SEA.

The Havana correspondent of the World gives a most horrible story of a terrible scene on board of the French bark "Tamaris"—a "drama of the sea" that in scenes of horror and incidents of death, stands forth with unfortunate prominence. It is a tale of the coolie trade, and exceeds in grotesque horror the story which reached us only a few days ago concerning the massacre of Chinese emigrants on a ship coming to San Francisco. In this case a French bark was on the voyage, when there was a mutiny, and the crew were driven to abandon the vessel. By the aid of the Dutch authorities at Java, however, the vessel, which was left in possession of the coolies was recaptured, the crew, strongly reinforced, was again placed on board, and the voyage resumed. But when the coolies ascertained that they were to be conveyed to Havana, to which place, it appears, they had some strong objections, they commenced to jump overboard, and continued to do so, one after the other, until, out of the original 300, only 68 remained, who were brought into Havana, some against their will. If this is the sort of entertainment that Mr. Koonpaenschamp is preparing for us, the less we have of it the better.

## GRANT AND DELANO.

A book maker has forwarded to Commissioner Delano a work called the "Ancestry of General Grant." The author sends this note to Delano, which explains fully to the public, for the first time, why Delano was made Commissioner of Internal Revenue. He says: "You will find in the volume some notice of the Delano family. The Delano blood is the oldest American blood which General Grant has. It dates from a year after the Mayflower landed."

## STATE TREASURY.

The following statement will show the aggregate operations of the treasury of the State of Indiana, for the fiscal year ending October 31, 1909:

Balance in the treasury November 1, 1908	\$ 891,870.04
Receipts during the fiscal year	4,197,469.91
Total	\$ 5,089,339.95
Disbursements during the fiscal year	4,197,469.91
Balance in treasury Nov. 1, 1909	\$ 891,870.04

This balance has been reduced about \$80,000 since November 1st. The balance that remains will, however, be fully sufficient to cover all the January disbursements, and also pay the January interest on the State debt. The following counties have not yet settled their semi-annual accounts—Brown, Crawford, Daviess, Jackson, Madison, Montgomery, Porter, Shelby, Vermillion and Warren.—Bennettsville Courier.

## NEW YORK AND THE FIFTEENTH AMENDMENT.

The Democracy of New York achieved its most glorious triumph. Their State ticket was elected by majorities ranging from 30,000 to 30,000, and they have secured handsome working majorities in both branches of the Legislature. The new constitution, including a clause creating universal suffrage, was defeated by an overwhelming majority. We entirely agree with a contemporary that inasmuch as the preceding Legislature, without authority from its constituents, ratified the fifteenth amendment, we shall expect, and the country expects, now that the people have spoken against negro suffrage among themselves, that the newly elected Democratic Legislature will take early occasion to rescind the action of its predecessor. This would be more than an act of simple justice towards the people of those States, who do not desire, and are unwilling to surrender all their rights of self-government into the hands of a dictatorial and centralized power. That which New York would scorn to clasp to its own bosom as a thing of beauty, and joy forever, they will surely seek to trust in the arms of others who may not or dare not refuse the odious gift. Justice, as well as reason, demand this action of the New York Legislature. One by one the pillars of the temple of liberty are falling. State self government is the key stone in the arch of the great gate of the edifice. Our unscrupulous and ambitious rulers have already loosened it in its socket, and but two or three blows are needed to send it crashing down among the pillars already prostrate. Let New York hold back its hand and refuse to give one of those fatal blows. If our Ephesian Dome is to be destroyed, let no Democratic hand apply a torch to the pile.

Negro suffrage, in and of itself, is a matter of but little importance. It would be adding but one more corrupt element to our already too corrupt politics. But it is the forcible wrenching from States, in defiance of their protestations, of a right their founders and the framers of the instrument which is the charter of our federal union are careful to leave them the controlled possession of. Admitting that Congress has the right, or if we surrender to it the power, to control the question of suffrage in the States, a question which the Constitution left exclusively to the States, we admit, we surrender, to Congress the right and power to control any other matter which at present belongs exclusively to the States.

The plainest principles of justice point out the wrong and injustice of the Fifteenth Amendment being grafted upon the fundamental law, even if only one State objects to surrendering up its right to control the question of suffrage in its own way. The Democrats of New York know this, and the country will expect them to act as becomes patriots and citizens who love justice, respect law and would preserve the country from the rapacious pack which would tear it to pieces in order to aggrandize themselves.

## NEGRO SUFFRAGE.

Heavy storms have prevailed all over the country of late, and damages on land and water are considerable. Below we give a partial summary of the principal losses so far as reported:

## THE CLEVELAND RINK WAS BLOWN DOWN.

Thirteen barges and two boats, laden with 175,000 bushels of coal, valued at \$75,000, were lost at Jeffersonville, Ind. The ship, however, was greatly damaged, and several lives lost.

## A TRAIN ON THE HARTLEM ROAD WAS BLOWN FROM THE TRACK.

Many passengers were hurt and one boy killed. Toronto dispatches announce serious damage to shipping on the lake and in port.

## THE GALE WAS UNPRECEDENTEDLY HEAVY AT CHICAGO.

Some damage was done to the bridge over the Ohio River at Louisville, which will delay its completion for a time. The ship, however, was much less than the buildings anticipated.

## SEVERAL STEAMERS WERE BLOWN DOWN AT THE WHARF AT CAIRO.

Several steamers were blown down at the wharf at Cairo, and went meandering down the Mississippi, but all were brought back safely.

## THE PROPRIETOR THOS. A. SCOTT WAS WRECKED IN THE STRAITS OF MOXIE.

The great storm Tuesday night of last week. No lives lost.

## THE FORT WAYNE DEMOCRAT SAYS THAT WABASH, ON THE VALLEY ROAD, IS ENJOYING A PERIOD OF SPASMODIC RELIGION.

Men, women, and children are indicted for fishing, sewing, knitting, and blacking boots, respectively, on Sunday. About one hundred indictments were lately returned into Court against the best citizens of the town, including several ladies; and behold, the very essence of the "Fifteenth Amendment," three darky barbers, were in the list for about \$30.

## OUR READERS WILL DOUBTLESS REMEMBER A CASE OF MURDER WHICH OCCURRED ONE YEAR AGO IN WHITLEY COUNTY.

and wherein the Shepher boys (for a short time residents of this place) were implicated. The case has been on the docket for one year, and after consuming almost the entire term of the Circuit Court now in session at Columbus City, was suddenly dismissed by consent of both parties. All the parties implicated in the affray have been discharged.

## TWO OF THE LATEST NEWSPAPERS IN NORTHERN INDIANA ARE THE LIGONIER BANNER AND THE LAPONTE ARGUS.

With a newspaper properly managed after the fashion of these papers, the days of radicalism in Indiana are numbered.—Bennettsville Courier.

## MANY THANKS, FRIEND WHITLEY.

By incessant labor we hope to extirpate the evils of radicalism in northern Indiana, and in due course of time supplant them with the pure principles of genuine, progressive Democracy.

## HIS HONOR, JUDGE LOWRY, WILL MAKE PRETTY NEAR A CLEAN SWEEP OF ALL THE CASES ON THE DOCKET, DURING THE PRESENT SESSION OF THE CIRCUIT COURT.

The Judge is commended by all for the promptness and ability with which he disposes of the cases. He has been in the capital city this winter among the shoddy, while the taxpayers will enjoy the luxury of footing the bills. A continuance of "hard times," for a few years longer, may induce the people to change their minds from the confounding verdict rendered the last few years.

## GENERAL BUTTERFIELD WAS NOT TURNED OUT OF OFFICE AS HE SHOULD HAVE BEEN, BUT PERMITTED TO RESIGN.

But the singular feature of the case is, that he cannot get a civil or military court to investigate his conduct. He dares not for investigation, but is informed he must seek remedy at the hands of Congress. When Stanton and Holt were in power they did not ask Congress to investigate or hang, but that was for disloyalty—not for stealing, which may make a difference.

## THE LOGANSPORT PHAROS SAYS THAT THE CUMBERLAND MEN ARE ALREADY BEGINNING TO MAKE OPEN WAR UPON THOSE OF THE RADICAL PARTY WHO OPPOSED THE ELECTION OF THE "CHRISTIAN STATESMEN" TO THE UNITED STATES SENATE.

In southern Indiana Cumberland's partisans are formidable and determined, and they will undoubtedly make trouble in the next Radical State Convention. Some of the most active of the anti-Cumberlards live in this Congressional District, and among them are Tynes and his fuglemen.

## POLITICAL ITEMS.

The *Laporte Herald* has just discovered that "the Democratic press in this part of Indiana is strongly urging the claims of Mr. Stoll for the Auditor of State Candidacy."

The New Hampshire *Statesman* thinks that "General Grant's head has got dizzy." Grant needs trouble himself about that. So long as his head swims, he won't sink.

Mr. Pennington, Republican, has introduced a resolution into the Georgia Legislature requesting Congress to remove all the disabilities of the fourteenth amendment.

Grant is engaged on his message and intends to remain in Washington until it is finished. He has decided to send it to Congress in manuscript to prevent premature publication of the important document.

The "colored people" of Tennessee have called a convention to meet on the 3d of December, to investigate the condition of their race in the State. This will open a splendid field for the operations of a "Swindling Committee."

In the Territory of Wyoming the Democrats carried every county and elected every member of the Legislature in both branches. For Delegates to Congress, Nuckolls (Democrat) had 3,801 votes; Corbett (Radical), 1,963 votes.

Mr. Seward has placed on exhibition in New York the presents he received while in California. Mr. Grant could probably be induced to exhibit his presents there also if he could find vacant space enough in the city to hold them.

The radicals have held their own way since 1861. The people complain of hard times. A change of administration may bring about a change for the better. Radical control will continue radical policy. Will the people vote so as to bring about a change?

The drawbacks frauds in the New York Custom House, so far as investigated, amount to over one million. Twenty-five or thirty persons are implicated. It is needless to say, all are virtuous "oil" Republicans, and "that's the way the money goes, pop goes the weasel."

One good radical in the interior of the State of New York substituted the name of Jefferson Davis for that of Horace Greeley, on the state ticket, for the office of comptroller. If this were not a Radical, for an Oliver, it certainly was a Jefferson for a Horace.

The official returns of the late Massachusetts State elections show the following result for Governor: Whole number of votes, 138,510; William Claflin received 74,106; John Quincy Adams, 50,735; Edwin M. Chamberlain, 13,567; Claflin's plurality over Adams, 23,371.

There is a widespread rumor that the Supreme Court of the United States will at its session in December, deliver its opinion in the several cases heretofore argued, involving the constitutionality of the acts of Congress making Treasury notes a legal tender, and that the decision will be adverse to the law.

The Philadelphia *Press* characterizes the New York Custom House as the "hotbed of corruption," and says that frauds have been perpetrated there to the extent of one million dollars. It is hardly necessary to add that the mushrooms that have flourished in that hot-bed are Radicals of the straightest sect.

The Democratic majority in the late election in New York exceeds twenty-seven thousand upon all candidates except secretary of State. About two thousand German Democrats in the state voted for Gen. Siegel. Horace Greeley, though leading his ticket in New York city, falls behind it in the balance of the State.

Greeley publishes a list of counties in New York, which voted at the late election, under the head of "officials." In every single county, Mr. Greeley is himself the hindmost candidate! For a wonder, that number of the *Tribune* does not say a single word about frauds in the election! The principal editor was evidently sick—at heart.

The next elections to take place are those of State officers and members of congress in Mississippi and Texas. They will be held under unconstitutional acts of congress, and if they go "loyal" will be ranked as "reconstructed," like their neighboring sisters. If "disloyal" will probably be continued under military rule. Tyrannical injustice is better than involuntary alienation.

Our Radical brethren have come to the conclusion that President Grant too studiously conceals the negro in the woodpile, and that the ebony brother should be inducted into a front seat. The gentleman from Africa don't know how to take his exaltation. If he would present the President with a two-horned rhinoceros or some thing of that kind for the juvenile Presidents and P. residents, he would immediately receive proper consideration.

As the time approaches for the meeting of congress, Washington is filling up with the usual number of dead-beats, speculators and beggars. There will be much life in the capital city this winter among the shoddy, while the taxpayers will enjoy the luxury of footing the bills. A continuance of "hard times," for a few years longer, may induce the people to change their minds from the confounding verdict rendered the last few years.

General Butterfield was not turned out of office as he should have been, but permitted to resign. But the singular feature of the case is, that he cannot get a civil or military court to investigate his conduct. He dares not for investigation, but is informed he must seek remedy at the hands of Congress. When Stanton and Holt were in power they did not ask Congress to investigate or hang, but that was for disloyalty—not for stealing, which may make a difference.

The Logansport *Pharos* says that the Cumberland men are already beginning to make open war upon those of the Radical party who opposed the election of the "Christian Statesmen" to the United States Senate. In southern Indiana Cumberland's partisans are formidable and determined, and they will undoubtedly make trouble in the next Radical State Convention. Some of the most active of the anti-Cumberlards live in this Congressional District, and among them are Tynes and his fuglemen.

The Logansport *Pharos* says that the Cumberland men are already beginning to make open war upon those of the Radical party who opposed the election of the "Christian Statesmen" to the United States Senate. In southern Indiana Cumberland's partisans are formidable and determined, and they will undoubtedly make trouble in the next Radical State Convention. Some of the most active of the anti-Cumberlards live in this Congressional District, and among them are Tynes and his fuglemen.
