

The Ligonier Banner.

LIGONIER, IND., NOV. 6, 1879.

X SUBSCRIBERS who receive their papers with an **X** marked on the margin will understand that the time for which they have paid has expired, or is about to expire, and that if they desire to receive the paper they must remit immediately.

—That was a right nice little snow last Sunday, for a beginning.

—Saturday was the second anniversary of the death of Senator Morton.

—There was an unusually large attendance at the M. E. church Sunday eve.

—A substantial wooden awning has been put up in front of Fisher and Koontz's business rooms.

—Willis Foster, of the vicinity of Millersburg, sold \$183 worth of hogs in this market last Monday.

—The protracted meeting in the M. E. church will continue all week. A lively interest is being manifested.

—Our new Hawpatch localizer handles the pen like a veteran. Keep on, "Pedagogue." You have made a good beginning.

—Girls, won't you organize a cooking club in this burg? An organization of that kind would be conducive of great good.

—Now is a good time to begin laying up some capital for Christmas. It is necessary for young men to be prepared for it as for a rainy day.

—J. W. Bixler, we are told, had some notion of holding on to the prosecutorship after his term had expired, but wisely thought himself better.

—Ye farmers, our town people stand in need of more dry wood than now comes to town. They want some right away, and a good deal by and by.

—Quals will be qualis now instead of "stubble duck," the game law expiring last Friday, and the hunter will hang his game on the outer walls.

—Tramps should ever be admonished that there is no excuse now for able-bodied men begging their way through the world when there is plenty of work.

—The young men of this place having organized a reading club, the young ladies should now lose no time in organizing a cooking club. Both are useful organizations.

—THE BANNER has much better facilities for doing plain and fancy job printing than any other office in this county. Our prices are moderate and entire satisfaction is guaranteed.

—Quarterly meeting will be held at the M. E. Church on Saturday and Sunday next. Presiding Elder A. Greenman will be present on Sunday evening. All are cordially invited.

—The Lake Shore railroad has lately been experimenting with petroleum and finds that it can be successfully used as fuel for locomotives, saving money, and doing away with smoke and cinders.

—They do say that that hirsute abomination known as "banged hair" is going out of fashion. We never could see why sensible and handsome women took delight in making themselves look like ugly idiots.

—The name of the postoffice at Boydston's Mills has been changed to North Webster. As there are two Websters in Indiana, to avoid mistakes those writing to write to this place should not omit the word "North." —*Syracuse Reflector*.

—Last Saturday was All Saints' Day, a festival in honor of all the angels and saints of heaven, observed in the Roman Catholic church on November 1, and also in the Protestant Episcopal and Lutheran churches. The festival has been observed since the fourth century in the East and became general in the ninth century.

—THE TENNESSEANS.—This company drew a large audience at the Academy, last evening, considering the rain, and the entertainment gave unbounded satisfaction. The programme is a good one, and the rare musical talent of the singers is generally conceded. The Tennesseans may be sure of a warm reception whenever they return to this city. —*Fort Wayne Sentinel*, Sept. 24th, 1879.

—Another attempt to abolish the Hebrew Sabbath, or rather, to unite it with the Christian Sunday, so that the Hebrews will not be at the disadvantage of doing business but five instead of six days in the week, will probably be made at an approaching conference in London. Nearly all the synagogues in Europe will be represented at this meeting, and the general opinion seems to be that this desirable change is only a question of time.

—Merchants and other business men have about reached the conclusion that canvas awnings are too expensive and of too short durability to be desirable. Wooden awnings, which are serviceable at all seasons, and last much longer than the other, will therefore soon come in general use in this place. The expenditure of about \$17 every two or three years for the sole purpose of shutting out the sun in summer time is more than most men feel like submitting to for that purpose.

—Some sensible writer, we do not know who, says: "A man may pay rent on his store all his life, and never do any business. Rent draws no patrons, and attracts no attention. Rent only gives a man a right to do business at a certain location. After he has become responsible for rent, and has bought stock, he is only ready to begin business. He may be content with what business fails to him without effort on his part. So a boy may be contented to fish with an unbaited hook, or to hold his basket in the water and wait for the fish to swim into it. The store and the stock of goods are the passive instruments, only of use after the business begins by accident, or has been created. It is manifestly foolish to wait for accidental business. The shrewd man will create business. He will create it by some form of advertising. Experience will teach him that in no other way can he reach so many readers as by advertising in a live newspaper."

—The time of the year is close at hand when twelve yoke of young men and women get together, and with a half barrel of crackers, fifteen cans of oysters and a half dozen bottles of pepper sauce, go to a friend's house where they eat up all the marketing and kick seven holes through the best carpet on the place and go away at two o'clock in the morning to tell what a "delightful surprise party we had"—and probably it will be to every one except the proprietors of the house. —*Salem Democrat*.

—No. 1, on the Cincinnati, Wabash & Michigan railway, struck a wagon on a road-crossing just south of Treaty, last Monday morning, killing Mrs. Christian Clupper instantly, and seriously, if not fatally, injuring her husband. They were an old couple. The accident occurred within one hundred rods of their home. The engine struck the hind wheel of the wagon. Mr. Clupper was thrown fifty feet from his wagon. A little boy was in the wagon at the time and escaped unhurt. The engineer whistled and the bell was rung. The railroad company is no way at fault.
