The new train that leaves Chicago at 5:25 every evening, arriving here at 8:30 would be a popular train if it would make regular stops. Passengers at South Bend, Elkhart or Goshen, who want to come to Ligonier are not allowed to get aboard if there is no Chicago passenger to get off at Ligonier, which is only a flag station for passengers, bound for Toledo or other eastern points. It would seem that Ligonier merits a service better than this at the hands of the Lake Shore.

It is admitted that Mr. Olds told the city council at a late meeting, in which the rate to be charged by the proposed electric light company, were being considered, that the talk of cheap lights must be dropped and that 10 cents flat must be charged for incandescents and that \$68 must be figured for street lights. This is a higher price than Mr. Draper asked over a year ago, but we have been told that street lights were to cost the taxpayers but little or nothing and every poor man was to have lighting service at half price. We were also told that the plant would cost but \$14,000.
