VOL. 43--NO. 36

## TOWNS WRECKED; FORTY ARE KILLED

TORNADOES IN ARKANSAS WORK  
HAVOC IN WESTERN PART  
OF THE STATE.

## RELIEF IS HURRIED TO CARNAGE SCENE

Communication Is Restored and Res-  
cue Parties Make Fast Progress—  
Scores of Villages and Hamlets  
Feel Terrific Effect of Storms.

Little Rock, Ark., Nov. 25.—Relief  
was hastened to Arkansas towns  
which were destroyed by tornadoes,  
and the stricken district was in com-  
munication with the outside world, as  
the telegraph companies dispatched  
linemen to repair the damage as early  
as possible. Late reports confirm  
that damage amounting to hundreds  
of thousands of dollars to property  
over the state has been done, and that  
the loss of life will probably exceed  
40. It is impossible as yet to secure  
the names.

## One Storm Starts in Missouri.

One of the tornadoes started in Mis-  
souri, traveling south through Carroll,  
Newton and Johnson counties, the  
heavy wind abating when the Arkans-  
as river was reached. It swept a  
path through these counties a half-  
mile wide, almost totally destroying  
Boxley, Murray, Lowgap, Ozark, Dale,  
Boston, Judea, Trath, Omega, Dry  
Fork, Dinsmore, Parthenon, Mossville,  
Limestone, Red Fork, and other ham-  
lets. The tornado split at the head  
of Mulberry creek, a portion going  
through Tum and Smedley, into Ozark,  
where a number of houses were blown  
down.

## Thirty Dead in One Town.

The main storm almost wiped out  
Piney, where the largest loss of life  
occurred. There are probably 30 dead  
at that place, Knoxville and London.  
A second tornado came from the di-  
rection of Louisiana and traveled  
north through Lafayette, Pike and  
Hempstead counties. Had this storm  
continued 40 miles further there would  
have been a junction of the two torna-  
dos. Lewisville, Lodi, Ozan, Mur-  
freesboro and other towns are reported  
to have suffered severely, with a scat-  
tering loss of life.

## Four Dead at Cravens.

From the towns of Berryville and  
Cravens the most definite early re-  
ports are received. At the former,  
three persons were injured and the  
property loss is roughly estimated at  
between \$25,000 and \$40,000. At  
Cravens four persons are known to be  
dead, members of the family of John  
Rosin, a farmer, who were caught un-  
der the falling timbers of their home.  
L. G. Holt and wife, an aged couple,  
were seriously injured, and may die.  
Eight persons who took refuge in a  
store were caught in the crash of the  
building, and all were injured, and  
eight others are reported as missing.  
At Cravens practically all the larger  
buildings were either demolished or  
badly damaged.

## Whole County Laid Waste.

From Knoxville a dispatch received  
Tuesday partially confirms the report  
that the village of Barr, four miles  
from this place, was totally wrecked.  
Section men who went to the scene  
state that the entire intermediate  
country has been laid waste by the  
wind and hail which followed, the hail  
in some places standing to a depth of  
six inches.  
Physicians and hastily made up re-  
lief parties were sent from Knoxville  
to both Barr and Piney.

## In the vicinity of Mulberry, five per- sons were reported killed and others injured.

## DISEASED CATTLE IN MICHIGAN.

Governor Expects Visit Wolverine  
State—May Establish Quarantine.

Detroit, Mich., Nov. 25.—Dr. Eichorn  
of the bureau of animal industry at  
Washington, with Dr. Duffee, United  
States inspector from Buffalo, and  
four other experts, went Tuesday to  
the farm of Shaw Bros., in Livonia  
township, and pronounced the disease  
from which the cattle there are suf-  
fering to be unmistakably hoof and  
mouth disease. Drs. Eichorn and  
Duffee announced that the worst af-  
fected cattle will be immediately  
killed; that an immediate quarantine  
will be put in effect over the greater  
part of Wayne county; that all cattle  
arriving at the Detroit stock yards  
during the next six days will be de-  
stroyed, and that Secretary of Agri-  
culture Wilson arrived there Tuesday  
night to determine whether there shall  
be a quarantine put in effect against  
the entire state of Michigan.

## Nearly Hit President.

Washington, Nov. 25.—Because he  
barely avoided running down the  
president of the United States with  
his bicycle while the latter was walk-  
ing to church, Gilbert Boyer, a negro  
youth, was arrested on the charge of  
"not having a suitable bell on his bi-  
cycle."

## Gives \$50,000 to College.

Charlottesville, Va., Nov. 25.—An  
unconditional gift of \$50,000 to the  
endowment fund of the University of  
Virginia has been made by Col. Oliver  
R. Payne of New York.

## Many Overcome at Fire.

Butler, Pa., Nov. 25.—Three firemen  
were seriously injured and ten others  
overcome by smoke Tuesday during a  
fire at the new hotel Monroe, this city.

Stock Law Concerning Tuberculosis  
Tuberculosis among animals comes  
under the general class of contagious  
diseases and as such is subject to the  
provisions of the State Live Stock  
Sanitary law. The federal law pre-  
vents the importation of cattle into  
this country for breeding purposes  
unless it is shown by the tuberculin  
test that they are free from the dis-  
ease. Most foreign countries make a  
similar requirement. Several of the  
states have made a law making such  
a test a necessity for breeding and  
dairy stock and Indiana has such a  
law by virtue of a proclamation made  
by Governor Hanly last July.

The state law requires that any-  
one knowing the presence of this dis-  
ease among stock shall report the  
same to the State Veterinarian and  
furthermore provides a penalty for  
failure to do so. Tuberculosis stock  
can not be condemned but may be  
placed in permanent quarantine.  
The tuberculin test is not compulsory  
but is used by the State Veterinarian  
as being the most reliable means of  
recognizing the disease and of separ-  
ating the diseased from the healthy  
animals. Animals found to be dis-  
eased either by physical examina-  
tion or the tuberculin test will be  
placed in quarantine and may be  
kept by the owner for breeding pur-  
poses or may be disposed of for food  
subject to the federal rules and regu-  
lations of meat inspection. As a  
matter of fact, eighty per cent. of  
the carcasses are fit for food and by  
permitting the keeping and feeding  
for a time the losses may be  
greatly decreased. Those cases show-  
ing advanced or generalized disease  
are condemned and the owner re-  
ceives only the value of the hide.  
The state makes no compensation for  
loss either in this or any other dis-  
ease of live stock.

The law relating to foods prevents  
the use of milk or butter from any  
diseased animal and therefore pre-  
vents the use of milk from such cat-  
tle although there may be no physi-  
cal evidence of disease. According to  
recent investigators, the possibility  
of harm is removed by proper pas-  
turization and it would seem that  
this law might be wisely modified.  
Some of the cities are demanding  
evidence of freedom from tubercu-  
losis among dairy cows under local  
ordinances and prescribe the con-  
ditions under which the tests may be  
made. Chicago is demanding such a  
test and her action will affect more  
dairies in this state than that of the  
home cities. G. H. ROBERTS,  
From the office of State Veterinarian.

## "Eight" Connection Social.

Labor of Love circle, Kings Daugh-  
ters, extend a cordial invitation to  
yourself and friends to the "Eight"  
Connection Social at the parlors of  
the Presbyterian church Tuesday  
evening, the fifth day before the  
eighth of December.

1. The door will be opened promp-  
tly at eight minutes after 7 p. m. and  
be open till eight minutes before 8,  
when a program of eight numbers  
will be given.

2. It will cost eight cents to get in.  
If door are closed knock eight times.  
3. Every eighth person will be ad-  
mitted free.

4. The doors will be opened to al-  
low persons to leave for home from  
eight minutes before to eight minutes  
after the hour.

5. Should the doors be closed at  
any time you wish to leave a special  
pass can be secured for one-eighth  
of the admission fee.

6. A special feature will be the  
sale of one kind of confectionery.  
7. Among the attractions will be a  
chance to get your fortune told for  
three-eighths the admission fee. An  
\$8,000 beauty will be on exhibition.  
One-eighth the price of admission  
will be charged for this rate privi-  
lege.

8. Above all, we will make a special  
effort to have you all agree with  
us, that free refreshments served  
from eight minutes before nine until  
all are served, are eight times better  
than anything you ever ate.

Come early and enjoy the evening.  
Dec. 8, 1908.

## How To Cure A Cold

Be as careful as you can you will  
be a cold occasionally, and when  
you do, get a medicine of known re-  
liability, one that has an established  
reputation and that is certain to ef-  
fect a quick cure. Such a medicine  
is Chamberlain's Cough Remedy. It  
has gained a world's wide reputation  
by its remarkable cures of this most  
common ailment, and can always be  
depended upon. It acts on nature's  
plan, relieves the lungs, aids ex-  
pectorator, opens the secretions and  
aids nature in restoring the system  
to a healthy condition. During the  
many years in which it has been in  
general use we have yet to learn of a  
single case of a cold or an attack of  
the grip having resulted in pneu-  
monia when this remedy was used,  
which shows conclusively that it is a  
certain preventive of that danger-  
ous disease. Chamberlain's Cough Re-  
medy contains no opium or other nar-  
cotic and may be given as confidently  
to a baby as to an adult. For  
sale by S. J. Williams.

## Elson's Advice

My treatments are the embodiment  
of recent scientific research. As an  
aid to beauty I advise you my full  
course of progressive facial scalp  
massage treatment. Also consult me  
for manicuring, shampooing, chiro-  
pody and all kinds of hair work done.  
Office phone 72, residence phone 18.  
ARNOLD ELSON.

## ARCHBOLD FOLLOWS JOHN D. ON STAND

ROCKEFELLER'S TESTIMONY IS  
CONCLUDED IN FEDERAL  
SUIT AT NEW YORK.

## THE OIL KING TELLS OF HIS HOLDINGS

Admits When Questioned That He  
Owned About One-Fourth of Stand-  
ard Stock When Organization Was  
Effected in 1889.

New York, Nov. 25.—John D. Rocke-  
feller was replaced on the stand by  
Vice-President John D. Archbold of  
the Standard Oil Company late Tues-  
day afternoon in the government's suit  
to dissolve that organization.

Mr. Rockefeller's examination was  
concluded late Tuesday afternoon.  
After telling of his earlier expe-  
riences in the oil industry, Mr. Arch-  
bold said the introduction of refined  
oil for domestic use was most difficult  
because of opposition of the public as  
a result of its odor and burning qual-  
ities. From 1870 to 1875 the multipli-  
cation of refineries brought about a  
surplus which caused wide fluctua-  
tions of prices of oil. There were no  
systems of reserve or storage, he ad-  
ded. Speculation in oil stocks was  
rampant, and even the price of oil  
was speculated in, which demoralized  
the business and made it hazardous  
to the manufacturer. The manage-  
ment of gathering lines was very bad,  
said Mr. Archbold.

## Tells of Stock Ownership.

Mr. Rockefeller testified that  
at the time of the organization of  
the Standard Oil Company of New  
Jersey in 1889 he owned 256,854 shares  
of its stock out of a total issue of  
983,383 shares.

For the first time since he has been  
on the witness stand at this hearing  
Mr. Rockefeller was a little late in  
arriving Tuesday. Frank B. Kellogg,  
the government's special assistant at-  
torney-general, resumed his cross-ex-  
amination, taking up the organization  
of the Standard Oil Company of New  
Jersey where he ended it Monday. Mr.  
Kellogg read what he said was a list  
of stocks obtained by that company  
in 1899 for which it had exchanged its  
own shares. He said that 442,797 out  
of a total of 983,383 shares first issued  
were in the name of John D. Rocke-  
feller.

Mr. Rockefeller said he did not own  
so much stock as that but did own  
256,854 shares of the Standard Oil  
Company of New Jersey at that time  
and that he accepted the other stock  
and distributed it to the proper stock-  
holders. He added that frequently  
holders of certificates of the Standard  
Oil trust exchanged them for stock in  
the Standard Oil Company of New  
Jersey rather than accept shares of  
the various subsidiary companies.

"I turned over my trust certificates  
to the liquidating trustees," said Mr.  
Rockefeller, "and obtained a paper  
on which I secured shares in the con-  
stituent companies, which I turned in  
to the Standard Oil Company of New  
Jersey."

Mr. Rockefeller declared that he  
never acted as an attorney for any  
one in this process of liquidation.  
Calls Past Not Wholly Secret.

"You were trying to give the im-  
pression that the large number of  
companies you had acquired an inter-  
est in were not controlled by the  
Standard Oil Company of Ohio?"  
"I tried to give the status at that  
time."

Mr. Kellogg asked the witness if  
he made it known to any one at that  
time that he had an interest in the  
companies included in the trust agree-  
ment of 1879, and if it was not a fact  
that this agreement was kept secret  
while he was combining the com-  
panies.  
"I cannot say, but I think it must  
have been known to a number of peo-  
ple outside of those who signed it,"  
replied Mr. Rockefeller.

## Does Not Recall Contracts.

Mr. Rockefeller was asked if he had  
not made an affidavit that the Stan-  
dard had made contracts with rail-  
roads whereby the Standard had ob-  
tained rebates for guaranteeing a cer-  
tain volume of oil. He did not recall.  
"Didn't the officers and agents of the  
Standard Oil Company of Ohio at that  
time control a majority of the stocks  
of the subsidiary companies with the  
idea of concealing their real owner-  
ship?"  
"It may have been that the prop-  
erty were owned by individuals who  
were stockholders in the Standard Oil  
Company of Ohio."

Mr. Rockefeller said that he never  
heard of the General Industrial De-  
velopment Syndicate, Limited, of Lon-  
don, nor did he know whether the  
Standard owns the Manhattan Oil  
Company of Ohio.

## Negro Assassins Captured.

Tiptonville, Tenn., Nov. 25.—Mar-  
shall, Ed. and Jim Stinback, the ne-  
groes who shot and killed Special De-  
puty Sheriff Burruss and fatally wound-  
ed John Hall, a deputy, at a negro  
church near here, were captured at  
Ridgely Tuesday and placed in jail  
at Tiptonville.

## Kills Daughter; Shoots Son.

New York, Nov. 25.—Realizing that  
his home was about to be broken up  
because of his actions, Carl Loose, a  
baker, Tuesday shot and killed his  
daughter Meta, aged 17, and probably  
fatally wounded his son Frederick, pas-  
tor of a Lutheran church at Yale, S. D.

## His Him Hard

MR. EDITOR: The municipal elec-  
tion is past and we all hope that the  
fight for Municipal Ownership is  
ended. In view of the decided ma-  
jority against the proposition, all  
given in the section of the city  
where the merits of the question was  
not affected by local sentiment or  
sectional prejudice, we believe the  
City Council should now lay the  
idea to rest and take immediate steps  
to provide us with street lighting ser-  
vice by granting some private party  
a reasonable franchise and contract  
for the service.

We believe the majority of our city  
councilmen are fair minded enough  
and sufficiently appreciate their of-  
fice as servants of the public will and  
not its dictators or masters, to carry  
out the expressed will of the ma-  
jority. It is hoped that they will not  
be influenced by the effort of the  
municipal ownership organ to in-  
some way secure further delay by  
prejudicing them against those who  
honestly sought to defeat the effort  
to place this burden upon the city.

It is regretted that good citizens,  
and in no small numbers, who ac-  
tively sought to defeat the proposi-  
tion, and who were interested solely  
in the welfare of the city as taxpay-  
ers, and in the triumph of right, as  
they saw it, should be assailed for  
their activity in the fight and their  
characters maligned and their moti-  
ves impugned without any basis for  
such charges or any regard for truth  
or honor. This is characteristic how-  
ever of Thompson in every fight that  
he engages in. Judging from the ef-  
fusion in last week's issue one would  
suppose that he was the embodiment  
of all the graces of a righteous apos-  
tle of civic honor and municipal up-  
rightness, and that he had the most  
punctilious regard for truth, veracity  
and fairness in every statement made  
and every action done.

Such an exhibition of arrogance is  
certainly nauseating to self-respect-  
ing citizens, who are familiar with  
the circumstances of the contest.  
No one who even casually observed  
the tactics of this self constituted  
"Doctor of Civic Righteousness,"  
and a few of his allies, has failed to  
note that there was no trickery too  
base, no statement too maliciously  
false, or no promise too absurd for  
their use, if by its means they could  
promote a prejudice against some  
citizen identified with the opposition,  
deceive some one about the results of  
municipal ownership or secure an  
additional vote for their side of the  
question.

There was no stone unturned by  
the friends of the Municipal propo-  
sition, to carry the election and the  
effort to minimize the decisiveness  
of the victory by statements made by  
Thompson, is only another instance  
of the distinctive character of his  
organ, and the contemptible inso-  
lence of its publisher.

## ANOTHER TAXPAYER.

On The Toilet Table  
A few drops of any good toilet  
water in the last rinsing water gives  
a faint suggestion of perfume to the  
hair that is very refreshing.

Twenty-four hours before shampoo-  
ing saturate the scalp with warm  
olive oil. Careful grooming every  
night with a brush will encourage  
the hair to be good.

A simple remedy for freckles and  
tan: Ten grains of borax, two ounces  
of lime water, two ounces of oil of  
sweet almonds.

A good cooling powder for perspir-  
ing feet is composed of four parts of  
talcum powder and one part boracic  
acid thoroughly mixed.

Oatmeal in the bath water will im-  
part a velvety softness to the skin.  
To avoid stopping the wastepipe, tie  
the oatmeal in a good sized cheese-  
cloth bag.

When the hands are sore and blis-  
tered, wash them in fresh buttermilk  
and allow it to dry on the skin, as it  
aids in whitening it.

A reddish brown veil is the best  
protection against the sun's rays.  
White and blue veils are no good  
whatever, since the sun's rays pass  
directly through them.

Before going out anoint the com-  
plexion with a good cold cream, forc-  
ing into the pores all they will ac-  
cept. Then dust them with a good  
powder. By doing this and by wear-  
ing a brown or red veil sunburn can  
be prevented.

When these precautions have been  
overlooked, and the surface is  
burned, apply hot water compresses  
for fifteen minutes and then massage  
well with cold cream.

If blackheads are very prominent  
on the face you can force them to  
the surface with a watch key and  
apply hydrozone, which will sizzle  
them away in a very few hours.  
Wiping the face with diluted alcohol  
will often remove tiny blackheads.

The main thing to remember is to  
keep the skin clean by a warm, soapy  
nightly facial bath given with a cor-  
rect complexion brush and to use a  
good cream to keep the skin soft so  
that the pores can free themselves of  
dust and seaceous deposits.

McLean Street. City water and im-  
provements. Call at Mer State  
Bank.

## REVOLT IN HAYTI; OFFICIAL SLAIN?

PRESIDENT NORD ALEXIS THE  
OBJECTIVE POINT OF FIERCE  
UPRISING.

## GENERAL LECOMTE IS REPORTED EXECUTED

Minister of Interior Taken Prisoner by  
Opposition to Government and Ry-  
mored Dead—Gunboat Captured by  
the Rebels.

Port Au Prince, Haiti, Nov. 25.—The  
revolutionary movement against Pres-  
ident Nord Alexis is spreading.  
The towns of Aquin and Jeremie  
have both declared against the gov-  
ernment.

The gunboat Croyant, which has  
fallen into the hands of the rebels, en-  
countered the gunboat Centenaire off  
Jeremie, and shots were exchanged.

Gen. Lecomte, the minister of the  
interior, who went out at the head of  
a government force against the rebels,  
has been taken prisoner.

## Previous Revolt Fierce.

The present revolt of the people of  
Haiti followed that of several months  
ago, when many nations became an-  
xious over the safety of foreign resi-  
dents at Port-au-Prince and several of  
the countries sent gunboats to the  
scene to care for their countrymen,  
who otherwise would have been left  
unprotected at the hands of the gov-  
ernment and rebel forces.

## News Creates Furore.

The news that the minister of in-  
terior had met his death at the hands  
of the revolutionists created almost a  
panic in this city, in which most of  
the population supports President Alexis.  
Great crowds gathered on the street  
corners and vowed vengeance upon  
the rebels for their act. No acts of  
violence other than occasional pistol  
shots at suspected members of the op-  
position force marred the serenity of  
the capital city, but in other parts of  
the realm panic prevailed, according  
to incoming reports.

## Fear for Ship's Safety.

Manila, Nov. 25.—Some concern is  
felt here regarding the safety of the  
American hospital ship Relief. This  
vessel left here November 15 for  
Guam, and was due the 20th. She has  
not yet arrived. Orders have been  
given that the supply ship Supply  
leave Guam in search of the Relief.

## Kaiser Ill with Cold.

Potsdam, Nov. 25.—Emperor Wil-  
liam canceled all his engagements  
for Tuesday on account of a cold. On  
the advice of his physicians he stayed  
in his rooms.

## Colds And Croup in Children

"My little girl is subject to colds"  
says Mrs. Wm. H. Serig, No. 41  
Fifth St., Wheeling, W. Va. "Last  
winter she had a severe spell and a  
terrible cough, but I cured her with  
Chamberlain's Cough Remedy with-  
out the aid of a doctor, and my little  
boy has been prevented many times  
from having the croup by the timely  
use of this syrup. This remedy is  
for sale by S. J. Williams. 33-4t

not its dictators or masters, to carry  
out the expressed will of the ma-  
jority. It is hoped that they will not  
be influenced by the effort of the  
municipal ownership organ to in-  
some way secure further delay by  
prejudicing them against those who  
honestly sought to defeat the effort  
to place this burden upon the city.

It is regretted that good citizens,  
and in no small numbers, who ac-  
tively sought to defeat the proposi-  
tion, and who were interested solely  
in the welfare of the city as taxpay-  
ers, and in the triumph of right, as  
they saw it, should be assailed for  
their activity in the fight and their  
characters maligned and their moti-  
ves impugned without any basis for  
such charges or any regard for truth  
or honor. This is characteristic how-  
ever of Thompson in every fight that  
he engages in. Judging from the ef-  
fusion in last week's issue one would  
suppose that he was the embodiment  
of all the graces of a righteous apos-  
tle of civic honor and municipal up-  
rightness, and that he had the most  
punctilious regard for truth, veracity  
and fairness in every statement made  
and every action done.

## ANOTHER TAXPAYER.

On The Toilet Table  
A few drops of any good toilet  
water in the last rinsing water gives  
a faint suggestion of perfume to the  
hair that is very refreshing.

Twenty-four hours before shampoo-  
ing saturate the scalp with warm  
olive oil. Careful grooming every  
night with a brush will encourage  
the hair to be good.

A simple remedy for freckles and  
tan: Ten grains of borax, two ounces  
of lime water, two ounces of oil of  
sweet almonds.

A good cooling powder for perspir-  
ing feet is composed of four parts of  
talcum powder and one part boracic  
acid thoroughly mixed.

Oatmeal in the bath water will im-  
part a velvety softness to the skin.  
To avoid stopping the wastepipe, tie  
the oatmeal in a good sized cheese-  
cloth bag.

When the hands are sore and blis-  
tered, wash them in fresh buttermilk  
and allow it to dry on the skin, as it  
aids in whitening it.

A reddish brown veil is the best  
protection against the sun's rays.  
White and blue veils are no good  
whatever, since the sun's rays pass  
directly through them.

Before going out anoint the com-  
plexion with a good cold cream, forc-  
ing into the pores all they will ac-  
cept. Then dust them with a good  
powder. By doing this and by wear-  
ing a brown or red veil sunburn can  
be prevented.

When these precautions have been  
overlooked, and the surface is  
burned, apply hot water compresses  
for fifteen minutes and then massage  
well with cold cream.

If blackheads are very prominent  
on the face you can force them to  
the surface with a watch key and  
apply hydrozone, which will sizzle  
them away in a very few hours.  
Wiping the face with diluted alcohol  
will often remove tiny blackheads.

The main thing to remember is to  
keep the skin clean by a warm, soapy  
nightly facial bath given with a cor-  
rect complexion brush and to use a  
good cream to keep the skin soft so  
that the pores can free themselves of  
dust and seaceous deposits.

Dwelling To Rent  
A good seven room dwelling on  
McLean Street. City water and im-  
provements. Call at Mer State  
Bank.

## FOUR MEN DIE IN GOTHAM FIRE.

Daring Rescue of Four Others by New  
York Firemen.

New York, Nov. 25.—Four men are  
believed to have lost their lives in a  
fire which partly destroyed a seven-  
story business building on Canal  
street Monday night and which in
