day afternoon at 2 o'clock with the in-
terment in the Sweet cemetery.

Society Brand Clothes

Society Brand Clothes

Bespoke Your Success With
Their Unquestionable Style
and Quality

Society Brand Clothes will dress you up to your ambitions
—your improved appearance will invite prosperity to knock
at your door.

It is very extravagant practice to wear cheap, style-dead
clothes—you are placed in the same class with the clothes
you are wearing and it takes but one glance to get your
classification.

Stores like nem, hub hobbies. One of our big hobbies is
CLOTHES. We have always shunned "average" clothes.
That a pattern "is popular" and that "everybody is buying
it"—dooms it with us.

There's no welcome here for the same, tame and lame. The
main spring of our CLOTHING is it's different.

If every man knew how wonderfully good Society Brand
Clothes are—business suits, evening clothes, overcoats—
the demand might embarrass us.

The knowledge is extending though.

We have prepared for the biggest season in our history.

We shall be happy if you will come in and see the new spring
styles, and make your selections while the choosing is at
its best.

Our great business has attained its present size
by being built on a solid foundation of value giv-
ing and courteous dealings.

Cafeteria Supper.
The Social Hour will give a caf-
eteria supper at the Presbyterian
church beginning at five o'clock Wed-
nesday evening, April 14. Menu: Meat
loaf, baked beans, potato salad, escal-
loped potatoes, jello, home made ice
cream, cake and coffee.

Bulldog Tenacity

To motorists of experience
who have used it for years
and know its rugged per-
formance under stiff service,
the outstanding virtue of the
GOULD STORAGE BAT-
TERY is its bulldog tenacity.
By this we mean that there
is an inbuilt quality that gives
exceptionally long life with
minimum repairs.

For example, take the
DREADNAUGHT PLATES
built by an exclusive Gould
process by the same men who
build plates for the giant
Gould Submarine Batteries.
No plates can compare with
them for ruggedness and ten-
acity of life. And plates make
the battery.
