Revivals and New Arrivals

AMONG the accessories of dress which the smart shops are featuring, there are to be found revivals of lovely things that pleased the gentlemen of two or three generations ago, along with the vogue for shorter sleeves came the lace mits, to make a bid for favor, and lace stockings to be worn with satin slippers, or other finery in the way of footwear. Naturally in their company we find the older types of fans, like that shown in the picture above, the cut steel slipper socks, together with beaded, knitted and crocheted purses and wide-brimmed, flower trimmed hats. They are all enchanting, with a flavor of old-time elegance.

Among new arrivals there are some matched sets in sports clothes that seem destined to success, with people who can afford them. They are the new skirts, scarfs and hats made to match, or skirts, scarfs and parasols, or scarf, bag and hat; in fact almost any combination of not more than three pieces. They are a triumph at southern resorts and will journey north and appear in the summer on the beaches, in the mountains, and elsewhere. These sets are classed among sports clothes, but some other way of describing them must be found, for that term is too narrow. "Pastime clothes" fits pretty well. They are of several degrees of costliness and expensiveness—out of the category of inexpensive things entirely. Still, a clever needlewoman might acquire a matched set without too much extravagance by making the pieces herself.

One very handsome set is made of white figured fantail silk combined with white and sapphire blue striped silk of the same kind. The upper part of the skirt is of the all white and the side panels and border of the striped silk. The long scarf is white with bordered ends in the stripe and the crown of the soft hat is also white, but the uprolling brim is striped. One can think of many color combinations that would be as adorable as this masterpiece in blue and white.

There is a decided vogue for the dark silk blouse which will be welcomed by women who go in for the practical things.

Mode Demands Separate Skirts

EVERY day sees the sport skirt and the hygienic blouse growing in importance, and it looks now as though they are to crowd the tailored suit for wear upon some occasions where, heretofore, the latter has reigned supreme. For instance, sport skirts, hygienic blouses and summer sweater coats or sweaters appear often on railway trains, when their wearers are making short trips. They are practical for clean trips—that is, where oil instead of coal is used in the engines, and there are no cinders or smoke. They are sponsored by people who dress well and we may look for them to persist in the use, for frequenters of the California and southern resorts have established a precedent.

Among the new arrivals in these separate skirts there are some interesting black and white models in four- and similar silks and a few striped infantas have entered the contest for favor, the latter in colors and white as well as black and white. All these

skirts, with dainty lingerie blouses, look well. The light, open-knit sweater, in black yarn, trimmed with white, follows naturally and is very smart, but the gayer colors look well also with these black and white skirts and white blouses.

In wool there are such good specimens as are pictured above. There is not much to say about the details of these skirts, for they are nearly all simply made this season. This one is straight with flat box-plaits over the hips and inverted plaits at the back to dispose of the fullness. The set-in pockets reveal a very clever ingenuity. They appear to be straps with rounded ends turned back and fastened with small black and white buttons. Two very large buttons of the same kind fasten the wide belt.

YOUR SATISFACTION

is more important than our profit. In fact the only way we can profit is to see that every man is satisfied. We'll gladly refund your money if you're not.

"High" in the Quality—not in the price

You may feel that clothes prices are high; some of them are—higher than the quality themselves. We discovered that when we made our purchases; we protected you then, bought Hart Schaffner & Marx and Campus Togs for you.

We found the best values in them for the money; we know you will. The "high" is not in price but in the quality; in the all-wool fabrics and tailoring. That's the reason they outwear ordinary clothes; cost you less by the year.

\$25 to \$75 real styles and real values

Ask to see the new spring styles in suits and overcoats. We have a big variety to show you.

Hats \$3.00 to \$9.40. Dress Shirts \$1.00 to \$13.00

These are every day prices.

The Store Where Most all People Trade

Of Course They Are Higher.

The Wawaka correspondent writing to the Kendallville News-Sun says:

"Many outspoken comments are expressed regarding taxes being much higher—one party whose taxes were \$98 last year must pay \$150 this year. Farmers find their taxes much higher than they expected and say so. Much dissatisfaction is freely expressed over the new law. With the wheat practically gone, new seedling to be done, scarcity of help, weather against him, strike hitting him hard, this tax business is like the 'last straw' to the farmer of Elkhart township."

To the Citizens of Ligonier

I have installed some new machines which now gives me one of the best equipped Laundries for a town of this size in northern Indiana. Which I think I deserve the patronage of the home laundry business. My prices are lower than any laundry in this part of the country having given to the people of Ligonier the advantage of the advance in prices of all supplies and labor. But I can not continue so with out the support of my home friends. If work continues to go to Kendallville, I will have to advance my prices or quit the Laundry business. With your support I can give to Ligonier the best of service and work and also continue to improve. Is it not good for our home community to have a Laundry giving good service? We are here for that purpose, so let us hear from you by phone 86 or in person.
