

# Can You Answer Yes?

Alluring ways to become separated from our earnings confront us on every side. Compared with these the channels of profitable saving are relatively small.

Yet in the business of getting on in life saving is admittedly of far greater importance than earning or spending. Do you save? Do you save haphazardly? Or do you save and do you bank consistently?

When you answer yes to the last query you can begin to expect big things of the future.

# Citizens Bank

Ligonier, Indiana

"The Oldest Bank in Noble County".

## We Sell Genuine International Repairs

Made For

By the

INTERNATIONAL HARVESTER COMPANY

REPAIRS made for International implements and other farm equipment by the Harvester Company are the only repairs made from the original patterns. All others are copied from copies, and in this roundabout reproduction they may lose in correctness of shape, sharpness of detail, closeness in fitting, and quality of material. These repairs are made for Deering, McCormick, Milwaukee, Titan and other International-made machines.

### Genuine IH Repairs

Are Better in Quality  
Fit Better and Wear Longer

The Harvester Company stands back of its machines. Be fair in the matter. Do not substitute imitation repairs for the genuine and expect best service. Repairs made by other concerns and marked "Made for" or "Will fit", are not genuine IH repairs. They often lack weight, are not always correct in shape, are imperfectly finished, do not fit properly, or are made of inferior material. Buy Genuine International Repairs for your International Farm Equipment.

Beware of Any Other Kind!

SEAGLEY BROS.

## Get Full Earning Power Farm Farm Machinery

What Means Most to You Is What We Try Most to Give  
There is only one way to buy an implement economically.  
Buy it for its ability to do good work for you right from  
Buy it for its ability to do good work for you right from the start and year after year.

It is our aim to sell full earning power everytime we sell a farm implement.

That is why we buy from a firm that takes every care to maintain its reputation for making only good implements,—why we show you the implement before you buy so that you can be sure it fits your requirements,—why we set the implement up exactly right before we turn it over to you,

—why we are always ready to help you understand every adjustment before you start operating the implement,—why we maintain a prompt repair service so that when parts become worn, you can renew them without loss of time.

All of those things go to insure full earning power. Yet their great importance is sometimes overlooked. You will appreciate the care take in observing them.

Come in and see us whenever you need a farm implements. Gale Corn Planters, Studebaker Wagons, New Idea Spreaders, Oliver Plows, Gale Riding Plows, Dunham Cultipackers.

We will soon have other plants. Buy your GARDEN SEED in bulk at one third the money.

A. B. Weaver

## WAS A SURPRISE TO NEIGHBORHOOD

"They are Talking of My Recovery All the Way to Bloomington," Says Mrs. Beal

"My wonderful recovery has not only been a grand surprise to my husband and myself, but to all our neighbors for miles around where we live," said Mrs. Ida Beal, who resides at Normal, Illinois, on R. F. D. 4.

"Why the people all along the way to Bloomington are talking about the difference Taniac has made in me," she added, "and I feel it my duty to tell everybody about this grand medicine."

"For twelve years at least my kidneys have bothered me and I have suffered with almost unbearable pains in my back. But this was not my only trouble by any means, for at the time I got Taniac I had not enjoyed a good meal in ten years on account of a chronic case of indigestion. There was hardly a minute when I was free from suffering, and the pains in my back were so severe at times that I simply had to sit down and shut my eyes and hold my head. At times I was almost deathly sick at my stomach, and my kidneys disturbed me so bad in the mornings I could hardly dress myself. It was all I could do to get in and out of bed and I couldn't stoop over and pick up anything to save my life on account of the pains in my back. I could not eat anything without suffering so from bloating, palpitation of the heart and shortness of breath that I would almost faint. I wasn't able to work but an hour or two a day and that would lay me up in bed with an awful headache."

"This is just the condition I was in when I began taking Taniac, but I am simply feeling like a different woman now, Taniac helped me right from the start and in a few days after I began taking it I felt so much better that I was surprised and wondered if it would continue to help me until I got well. I have taken eight bottles now and as I said everybody who knows me is talking about my recovery. My kidneys and back never bother me now and my stomach is in the best condition. I am eating three hearty meals a day and enjoy them all and never feel a touch of indigestion. I am enjoying good health for the first time in twelve years. Life is a pleasure to me again and I feel so grateful that I want to tell everybody about Taniac."

Tanac is sold in Ligonier by S. J. Williams and by the leading druggist in every town.

FARM ORGANIZATION NEWS.

The first issue of the Noble County Farmer is out. It is published by a Kendallville job office and is the official organ of the Noble County Farmers.

Food is absolutely necessary. More than a hundred millions of people in the United States must be fed while, in addition, many millions in Europe must have food from American farms. People of the cities must realize that farmers must have a fair price for their products. Cheap labor and cheap labor have gone and so the last of cheap food has been seen. From now on, consumers must pay a price that will give a fair return for the farmers' labor and his investment. Under the conditions, if wheat was worth \$2.20 per bushel in 1917, the crop of 1920 should bring not less than \$3.00. If corn was worth 80c in 1914, the 1920 crop should return \$1.75 to \$2.00 per bushel. Prices for other crops, for live stock, dairy, and poultry products, should be increased accordingly. Food production should be maintained, but this can only be hoped for when farmers are assured of reasonable prices. The situation demands the serious and careful consideration of all the people.

The next meeting of the Elkhart Farmers organization will be held at Cosperville the second Wednesday in May.

It is said that farmers raise more corn to feed more hogs to buy more land to raise more corn to feed more hogs, etc. while labor calls more strikes to get more wages to call more strikes, to get more wages, etc. Take your choice for national welfare.

Motor Clubs complain of excessive charges by farmers for pulling cars out of the mud but what have they to say of tourists who when pulled out of mud throw into "high" and "beat it" without even a "thank-you"? Do they do it? Ask the farmers.

Railroads build road beds for steam trains to haul freight over. Is it right that the public should build road beds for truck trains to haul freight over?

The Wolverine Oats purchased by members through the Pure Seed Division have proved to be quite satisfactory so far. They easily average three bushels to the sack. Their growth and development will be watched with much interest. The Wolverine variety was bred by plant specialists of the Michigan Agricultural College. They have made good in that State.

FOR SALE—A client who is making a business adjustment has left for disposal 200 shares of Rich Charter Oak Copper Company stock, part of entire amount. Will sell same for \$5.00 per share. Address, Othello Smith, assistant County Prosecutor, Cass County, Logansport, Indiana. 8b3f

## Wise Old Owl

The Wawaka correspondent ran over to Diamond lake Sunday afternoon and made the acquaintance of the cottagers' pet there—a little male owl who sits solemnly guarding his little mate and her eggs from thieving squirrels. Perched in the aperture of a rotted limb, away up in a big oak tree, there he stays, a true sentinel. Each season the cottagers say, he sits there—no one disturbs him—folks come and go, the community pump being just under his big tree. No eight hours for him there he sits in majesty observed by all—all observing.
