Dog Returns Home.

When Mr. and Mrs. Edward B. Wal-
ters and Mr. and Mrs. Earl Ack-
erman left Kendallville Monday on a
motor trip to Florida they took with
them a little dog owned by Mr. Wal-
ters. On Tuesday Dr. Seybert and
family moved into the Walters home.
Late Tuesday evening Dr. Seybert
noticed a dog barking loudly on his back
porch and when he opened the door
the little Walters dog rushed in act-
ing very happy. The dog was footsore
and lank. The presumption is that
the dog made his getaway when the
party camped for the night presum-
ably near Indianapolis and found his
way back home.

Christian Church Banquet.

At the Christian church this even-
ing the old members of the mission-
ary society will give a banquet for
the new members the society has re-
cently added to its numbers many of
the friends of the church and it is
hoped that by tonight the increase
will be 100 per cent making a total
of fifty members. An interesting fea-
ture is the advent of several leading
men of the church into the work of
the organization.

Following are the officers:
President—Mrs. Bailey Wray
Vice President—Mrs. Charles Cor-
nelius
Secretary—Mrs. Chauncey Bowman
Treasurer—Mrs. W. A. Jackson.

The health officer of Kendallville
reports six births and nine deaths
in that city during the month of Sep-
tember.

Blessed Cheerfulness

Blessed be cheerfulness! It is prom-
ise at the dawn. It is preparative of
rest when we lie down to sleep at
night. It is coin current in all social
experiences. It is like a breath of
wholesome outdoor air in stuffy rooms.
It is a claim on attention and remem-
brance. It is even an element in the
divine satisfaction when we are told
that, "God loveth a cheerful giver."
When the cynic and the grumbler come
into the room we are glad of an ex-
cuse to leave. When some cheerful
soul comes breezing in we sit up and
pay attention and forget our grudges
against life and fate. And in our most
discontented hours, even when we take
pains to conceal our own dishearten-
ments, are we not inclined to be in-
tolerant of other people's gloom?

Children's Sight

Children with normal eyesight or
with moderate defects see better as
they grow older. Sneller's eye test,
given to 8,245 children, showed that
the percentage of children with nor-
mal vision increased as the children
grew older and the percentages of
those with minor defects decreased,
the New York World says. The num-
ber of children with markedly defec-
tive vision increased, however, with
age.

Of all the children tested 63 per cent
were found to be normal, 27 per cent
moderately defective and only 10 per
cent had poor sight. The percentage
of boys with normal sight was slightly
higher than the girls, but the average
for those with very poor vision was
the same.

Whales

The sperm whale could swallow a
man. It grows to a length of 60 feet
and has an enormous head, which
amounts to about half its bulk and a
third of its length. Its throat is
broad enough to allow it to swallow a
man. The sperm whale is found chief-
ly in southern waters, and in consid-
erable numbers in the vicinity of New
Zealand. Occasionally, though, it is
met with as far north as the Arctic.
One of a number of important points
that distinguish it from other whales
is that it has teeth. The throat of
most varieties of whales are com-
paratively small—not more than four
or five inches across.

Colored Electric Wires

The color employed in the electri-
cal wiring of a house is utilized to
identify the wires and thus distin-
guish the polarity. If one wire is
grounded the wiring rules require
that it be the white wire. In a three-
wire installation this is the neutral
wire, so that the black wire may be
either positive or negative. The white
wire is taken to the screw shell of
all sockets. Single-pole switches are
inserted in the black wire. In cities
where

cludes every sensational, pulsating
nerve racking thrilling event that has

past decade. Be sure to see it.

A Neighborly Deed.

The following is taken from the
New Paris Herald:
Mr. and Mrs. Russell Whitehead liv-
ing out in the Solomon Creek neigh-
borhood have been having a serious
typhoid fever both being
the same time. We are glad
that they are both much im-
proved at this writing.
In connection with the illness of
Mr. and Mrs. Whitehead came an act of
neighborly kindness which it is a
pleasure to record. A bunch of Mr.
Whitehead's neighbors gathered in one
day a couple of weeks ago and cut
feed and filled his silo. This was
an act of neighborliness calculated to
give a man courage when he gets up
from a sick bed and it also tends to
cement the members of the community
together in bonds of closer fellow-
ship.

Raid Woman's Home.

When the home of Mrs. Victoria
Gorski in South Bend was raided a
still was found in operation. It was
a 35-gallon outfit located in the cel-
lar. Nearby was 200 gallons of mash.
The woman is at liberty under \$1-
000 bond.

Forty Hours of Devotion.

late Conception church Kendallville,
