burned early Wednesday with a loss  
of about \$4,000. The fire is thought

probably started in the upper part  
of the elevator. The building was

dict of guilty after three hours de-

## Why the Embargo.

Ora Dill says the reason for the  
freight embargo in southern Florida  
is that there has been such a volume  
of household effects shipped there the  
railway warehouses are gorged and  
even the new sheds built to house the  
freight are inadequate.

The rush to Florida this fall is the  
greatest in all history and much suffer-  
ing will result as many without  
means cannot get away.

## How The Banks Use Money

Savings deposits in the United  
States increased more than \$2,000,000,-  
000 during the last year. The re-  
sources of all the banks in this coun-  
try now amount to more than \$60,000,-  
000,000 and their deposits to over \$50,-  
000,000,000. What becomes of this  
accumulated surplus capital?

In loans and discounts the banks  
have more than \$31,000,000,000. These  
are the short time loans to manufac-  
turers, farmers and merchants to  
provide seasonal working capital. They  
are secured usually by the products  
the borrowers produce or sell. Busi-  
ness obviously will never need to  
draw on the total loanable funds of  
banks for these current needs. The  
banks therefore must find other ways  
to employ their funds. In long-term  
credits in seasoned stocks bonds and  
real estate mortgages, the banks have  
placed a little in excess of \$14,000,000,-  
000.

## F. D. Butz Barn Fire.

There is often a funny side to any  
calamity or disaster and this proved  
particularly true in the burning of the  
F. D. Butz hay barn Tuesday night.  
Mr. Butz himself today told the story  
as follows: "Yesterday Mrs. George  
Knauer of Avilla was a visitor at our  
home. She said the Kendallville tele-  
phone operator informed the Avilla  
telephone operator that my hay barn  
was on fire. The Avilla operator  
thought it was my Avilla barn and  
quickly called to George Knauer who  
was passing by to spread the alarm.  
He ran widely down the street shout-  
ing fire while enroute to the fire sta-  
tion to ring the bell. In the mean-  
time the Avilla operator learned her  
mistake and hurriedly secured an-  
other man to run down Knauer before  
he reached the fire station. Mr.  
Knauer was overtaken and Avilla's  
excitement subsided."—Kendallville

## Protest Highway Change.

Protesting against a proposed  
change in the location of state road  
No. 17 known as the Toledo and Chi-  
cago pike, a petition is being circulat-  
ed in DeKalb and Noble counties.  
Hundreds of interested voters and tax-  
payers of the two counties will carry  
the fight to the Indiana state high-  
way commission within a few days.  
A score of workers are making a di-  
rect appeal for support and an or-  
ganization has been perfected to car-  
ry on the fight.

The proposed removal of the pre-  
sent highway between Butler and Ken-  
dallville one or two miles north of  
the New York Central lines would it  
is contended leave a road requiring  
high cost of maintenance to be borne  
directly by the taxpayers of the two  
counties. The present road has new  
bridges constructed and drainage and  
grading has been practically com-  
pleted.
