**Fort Wayne Robbers.**  
One man was captured and placed in the city jail on a charge of enter-  
ing a house to commit a felony after  
an exciting chase and with the Fort  
Wayne police; a home in the down-  
town residential section was looted  
of jewels valued at more than \$200  
and the discovery of the theft of  
hundreds of dollars worth of valu-  
able pappers from another residence  
yesterday climaxed a week of as-  
saults holdups and robberies that has  
not been equaled in police records  
there in many months.

The homes entered were those of  
George A. Jacobs and Mrs. Jane  
Schone.

**Is Shot For Burglar.**  
Taken for a burglar when he tried  
to climb through a first floor win-  
dow at the home of Isaac Murray at  
South Bend while in an intoxicated  
condition Paul Milica 22 was shot and  
fatally wounded by Murray early Sun-  
day morning.  
Milica died at St. Joseph hospital  
about three hours after the shooting.  
Death was due to a bullet wound in  
the head.

**Death of Jacob Kindig.**  
Jacob H. Kindig 73 died Sunday at  
his home in Goshen. He was born  
near Syracuse on October 4 1852 and  
had been a resident of Goshen for  
18 years.

Wanted washings to do. Mrs. L. M.  
Conits 210 Grant street.

**Tries to End Life.**  
After writing a note telling of her  
worries regarding a former love af-  
fairs Mrs. Lucille Hartman 21 of Co-  
shen turned on two gas jets in her  
room Sunday afternoon in an attempt  
to commit suicide.

Members of the family from whom  
she was renting her room probably  
saved her life when they smelled the  
escaping gas and went up to her  
room, where they found her uncon-  
scious.

**Secure Heavy Loot.**  
St. Louis authorities today were  
searching for two youths who early  
Monday robbed four offices in the  
Victoria building there and escaped  
with loot valued by police at \$150,000.  
Both young men were unmasked and  
heavily armed. Entering the building  
shortly before daybreak the yeg-  
men overpowered the night watch-  
man blew open a safe in each of the  
four offices and made off with gems  
Liberty bonds and all available cash.  
No trace of them has been found.

**Negro Woman Cut In Flight.**  
Mary Smith colored of South Bend  
was taken to a hospital Sunday after-  
noon suffering from severe cuts on  
her back. Mrs. Jessie Williams also

\$1 debt.

American Cafe.

**Rare Gems**  
Very rare are diamonds of the black  
and rose-colored varieties. The green  
diamond is much more common. The  
"grass-green" variety, however, is  
scarce, but when it does occur is gen-  
erally of a brilliancy exceeding that of  
the emerald. The Museum of Natural  
History at Paris possesses a collection  
of green-tinted diamonds that is held  
to be of the finest, but at the museum  
in Dresden is to be seen the most per-  
fect specimen of this color.

**One on the Sergeant**  
A group of many rookies were being  
put through their pace by a "hard-  
boiled" drill sergeant. "Mark time!"  
he roared. "Shall I mark time with  
my feet?" asked one recruit in a small  
voice. "Of course, you fool," yelled  
the sergeant, "did you ever hear of  
marking time with your hands?"  
"Yes," was the reply. "Clocks do it."

**Nature's Orderliness**  
There are about 200 blades of grass  
to a square inch. If you reckon up the  
number of blades of grass on earth  
you will be surprised to know that it  
is about the same as the number of  
atoms in a thimbleful of water. They  
have all a law and order and structure  
of their own, never seen, but inferred  
by the mind.—Sir Oliver Lodge.

**Colored Diamonds**  
Of blue diamonds the most notable  
are the "Hope" and the "Bismarck."  
These, by some authorities, are held  
to be, indeed, the only known speci-  
mens of the "true blue diamond." Dark  
blue diamonds, resembling the sap-  
phire, but displaying the same beau-  
tiful play of colors peculiar to the di-  
amond, are handsome gems.

**Dog Without a Bark**  
A barkless dog emerged from a clin-  
ical demonstration conducted by the  
American Veterinary Medical associa-  
tion recently at Portland, Ore. The  
barking apparatus was removed as  
easily as tonsils, the veterinarians de-  
clared.—Popular Science Monthly.

**Measured Dead Sea**  
William F. Lynch, an American ex-  
plorer, in 1948 conducted an expedi-  
tion, equipped by the United States  
government, to the Jordan and Dead  
sea. He claimed to be the first to  
examine the shores and to sound the  
depths of the sea.

**Wonderful Machine**  
Probably the most wonderful piece  
of mechanism of its kind in the world  
is the scale used in the Bank of Eng-  
land. It stands about seven feet high,  
and weighs approximately two tons.  
It can weigh a grain of dust, or hun-  
dreds of pounds of gold.

**Illuminating**  
Little Eddie (with newspaper)—  
"Mother, it says here that the baseball  
team won three games in succession.  
What's that mean?" Mrs. Highbrow—  
"That means consecutively, dear."—  
Boston Transcript.

**Well Trained**  
"Now, just make yourself right at  
home," said the wife of his host, cor-  
dially. "Oh, dear," he sighed, "that  
means I'll have to go out back of the  
garage to smoke my pipe."—Cincin-  
nati Enquirer.

**Two Great Purposes**  
The improvement of the understand-  
ing is for two ends: First, for our  
own increase of knowledge; secondly,  
to enable us to deliver and make out  
that knowledge to others.—Locke.

**City Often Flooded**  
Floods are of common occurrence  
at Leningrad. In fact, they are as  
familiar to the inhabitants as erup-  
tions of Vesuvius are to the popula-  
tion of Naples.

**Opportunity's Way**  
"Opportunity sometimes makes a  
noise like something to be afraid of,"  
wrote Old Man Smith, of Bindangle's  
Church.—Harrisburg Telegraph.

**Apple-Growing States**  
Washington state produces more  
than a fifth of all the apples grown in  
the United States and New York  
state nearly one-seventh.

**Not Allowed the Razor**  
Shaving by means of pumice stone,  
which was the custom in pre-Roman  
days, is still the only method allowed  
in some mental hospitals.

**Bronze Tools**  
Bronze, the only tool metal known  
8,000 years ago, was invented inde-  
pendently in the Near East and by the  
Peruvian Indians.

**Noisy Orchestras**  
Kafir natives in Portuguese East  
Africa have wonderful orchestras com-  
posed entirely of xylophones and  
drums.

**War Against Corn Worm**  
Scientists are now trying to develop  
corn with long shucks to prevent corn-  
ear worms from getting to the ear

**In Slavery Days**  
Several aristocratic families of New  
York owned 50 slaves each in the  
Eighteenth century.

**Land of Small Wants**  
In Tibet a man who earned fifteen  
dollars a year would be looked upon  
as a millionaire.
