

THE DEMOCRAT.

T. McDONALD, Editor.
PLYMOUTH, IND.
Thursday Morning, July 30th, 1857.

Affairs in Minnesota.

Quite a noise is being made by a portion of the Republican press in reference to the Democratic Delegates, not acting with the Republicans. We propose to give a short sketch of the first days proceedings of the delegates, as we glean them from the St. Paul papers, in order that our readers may judge who are the seceders.

The St. Paul pioneer says, that the greater portion of the delegates met at the Capitol and were called to order precisely at 12 o'clock, by the Secretary of the Territory, who usually calls the house to order under such circumstances. The Democrats were well aware that the Republican members would urge the immediate organization of the Convention in consequence of some ten or twelve of the democratic members not having arrived. In order to give time for the absentees to arrive, Gov. Gorman moved that they adjourn until 12 o'clock next day. The motion was put by Secretary Chase and carried: all the Democrats and about twenty Republicans voting for the adjournment. The Secretary then declared the delegates adjourned until 12 o'clock next day, and the democrats accordingly left the Hall.

In the mean time, John W. North (Republican) nominated a Mr. Gilbrath temporary chairman and that, too, after the delegates had been adjourned in accordance with a vote of a majority of the delegates. Subsequently a Mr. Balcombe, an Abolitionist of the first water, was chosen permanent President of the convention, immediately after the delegates were adjourned, and without a quorum being present.

The question, between the parties is, was Secretary Chase the proper person to call the convention to order. The democrats contend that it was his duty, and refer to several cases in point as precedents. The Republicans deny his authority and argue that it is the duty of one of the delegates. There were 50 Republicans claiming seats and 43 Democrats. At our latest advice from St. Paul, each party was separately organized, and was busily engaged in drafting a Constitution.

The editor of the St. Joseph county Forum, who is at St. Paul writes that as near as he can ascertain, each party has an equal number of delegates legally elected; the whole number being one hundred and eight.

The Democrats claim fifty six, and the Republicans fifty nine, which makes seven more than the law allows.

There is a bare possibility that a compromise may be effected, but no probability. Such a state of affairs will be deplored by every well wisher of good order.

Liquor Ordinance.

It will be recollected that some time since our City Fathers passed an ordinance requiring Liquor Vendors to take out license—give bond &c., and affixed a penalty for retailing without license. Various opinions were entertained in reference to the power of the Trustees to enforce the Ordinance. Several of the vendors of the ardent were willing to comply with the Ordinance—got their bonds ready—had the requisite number of signers to their petitions, but owing to a portion of our citizens advising them to the contrary, they failed to take out license. A few weeks since an individual was recognized by Esq. Smith to the Common Pleas Court, to answer for violating the ordinance. The case came up for trial last week and was argued by Messrs. Farin & Reeve for the Trustees, and Corbin, Sample and Farnsworth, for the defendant. After hearing the arguments and taking the case under advisement, until next day, his Honor, Judge Egbert decided that the law under which Towns are incorporated, gives the Trustees no power to enforce such an ordinance.

We understand that the Trustees propose appealing to the Supreme Court. They are determined that the most ultra Temperance men of Plymouth shall have no cause to complain of them for being remiss in trying to lessen the evils of intemperance within their jurisdiction.

The Plymouth Bank refused, a few days since, to redeem its paper, even in currency, unless the bill-holder would submit to a share of 25 per cent. People in the country having bills on this concern, would do well to get rid of them, even at a discount, for the time will most certainly come when bills on the Plymouth Bank will not be redeemed at any price.

Road Work.

We have been asked probably fifty times within the last two years, how many days a Supervisor could compel the hands in his district to work on the highways, either in opening or repairing Roads, or pay an equivalent.

A case was decided last week which is precisely in point. James B. Logan, Supervisor in district No. 1, Green Township, after the hands had performed two days labor, warned them out to work the third day in order to finish a bridge on a new road, so that the road could be traveled. A portion of the hands refused to work, on the ground that the Supervisor could not compel them by law to work more than two days, unless it was to repair some old road. The result was that a trial was had before Esq. Earl, who decided that the Supervisor had the right to call the hands out more than two days, if the roads required more labor. An appeal was taken from his decision to the Common Pleas, where the decision of the Court below was affirmed.

The Republican papers do not seem disposed to blame Dawson, of the Fort Wayne Times, for knocking down with a cane Turner, of the Jeffersonian. They thought it very bad for Brooks to cane Sumner, and Republicanism built with rage at that attack—but they have no word of condemnation for the dastardly attack of their late candidate for Secretary of State upon an unarmed man. Politics makes all the difference—Logansport Pharos.

Be fair, Bro. Hall. We do not now remember a single Republican paper that did not blame Dawson. The Republican papers that we read, have unanimously referred to the assault as unwarranted by the offense, and we are certainly of that opinion.—Howard Tribune.

Don't "X." with the M. C. Republican and Westville Herald, eh?

The Goshen Democrat says that a man by the name of Alexander Smock was drowned in Elkhart River one day last week.

Thirteen persons were killed in St. Louis on the 18th inst. by a sun stroke.

Indictments have been found against Breslin and Gibson, the late Treasurers of Ohio, for embezzlement.

The Democrat admits that the Republicans here are not in favor of "Negro equality." Stick a pin there. It will not be long before it will assert the opposite.—M. C. Republican.

"Thou shalt not bear false witness."

Hon. D. P. Holloway will please accept our thanks for five No's of the Indiana Farmer, and a complimentary Ticket, to the next Agricultural Fair, in Wayne county.

We call attention to the proclamation of Gov. Walker, of Kansas, which will be found on our first page. It explains itself; read it carefully if you wish to know the truth in reference to matters in Lawrence.

Religious Notice.

The Northwestern Christian Conference will commence on Thursday before the third Sunday in August, at Kingsbury, in LaPorte county. A general invitation is extended to all.

Fact.

If the republican doctrines and arguments are true, how does it happen that out of 7,000,000 white inhabitants in the slave States, there are only about 350,000 slaveholders, and that while there is only 140,000 free blacks in the free States, there are about 270,000 free blacks in the slave States? Will our neighbor answer? What supreme nonsense it is, for men professing to be rational, to argue against facts such as these, shown by the census returns.

Can't our neighbor keep cool and talk about differences of opinion, without being so personal, and using such harsh language? Personal invective convinces no one, and detracts from the decency of those using it. Keep cool, keep cool. Don't act ungentlemanly because others think differently. The world is not all villainous except you, and you will not succeed in proving it.

Arrival of the Asia.

New York, July 24.
The Cunard steamship Asia, Capt. Lott, from Liverpool the 11th, arrived at 5 this p. m. Her news had been anticipated by the Ericsson.

Dispatches from Constantinople state that Lord Stratford de Redcliffe had received instructions from the Earl of Clarendon to propose a joint military and judicial administration for the Danubian Principalities.

We are indebted to Capt. Lott, for the latest news per Asia.

The London Saturday Times' city article says: "The unfavorable character of the monthly statement of the Bank of France, combined with the renewed fall in the Paris Bourse, caused English Funds to open at a decline of 1/2. Some purchases took place on the part of the public, and led to an improvement, which was partially maintained in the Stock Exchange. Money was obtainable this p. m. at 5@5 1/2, with full supplies at the latter rate."

Sweden.—The Swedish Chambers have voted considerable sums to be applied to the construction of forts for the national means of defence.

England.—At Oxford, Lord Montagu is the opponent of Thackeray. The 'Advertiser' says there will be an election in the city of London, Baron Rothschild having pledged himself to resign in the event of the failure of the bill for the removal of the Jewish disabilities.

France.—The 'Moniteur' publishes an article on the election, saying that, during eight years, the number of dissensionists, instead of increasing, has diminished.—France, which has now judged them five times, had not changed her opinions. The article, however, does not conclude without a general warning to the press, saying a limit must now be brought to discussion, which can have no other object than the useless agitation of the public feeling.

The Persians were strengthening the fortifications of Herat, though, by the treaty of peace, they were bound to evacuate the place.

The steamships Fulton and Kangaroo had arrived out.

From Kansas.

New York, July 23.
A dispatch was received at Washington yesterday from Kansas, stating that a collision between the United States troops, and free State men at Lawrence, was regarded as inevitable. A special messenger was yesterday dispatched with instructions to Governor Walker and General Harney.

An unexpected discharge.—At Norfolk, Va. on the afternoon of the 21 of July, an old cannon, which had not been cleaned out since the Revolutionary war, was primed, and the match applied, when, to the surprise of all present, an unexpectedly smart explosion took place from the mouth of the piece, something whizzed across the street, and there was a crashing of the wood in the door of the United fire engine house opposite. An investigation showed a respectable sized hole in the panel of the door, and inside an old six-pound cannon ball was found on the floor. The old cannon had not been used since the time it was last loaded for the especial benefit of the British troops, seventy years ago, and the artillerymen who then rammed home the ball little expected how many times the grass would grow and wither again above their graves before the missile should be discharged.

Street Education for Crime.

An unhappy young man, now confined in a New York jail for a State prison crime, thus briefly narrates the case of his present sad and degraded position:

"I had a good home education; it was my street education that ruined me. I used to slip out of the house and go off with the boys in the street. In the street I learned to lounge; in the street I learned to swear; in the street I learned to gamble; in the street I learned to perjure. Oh, sir, it is in the street the devil licks, for it is there the ruin of the young."

"Oh, JENNY, GET YOUR HOC CAKE DONE. Sheriff Jenney, the first offender (black republican) Sheriff ever elected in Ottawa county, Ohio, has just been indicted by the Grand Jury for rape committed on the wife of the jailor."

There's a nigger in the wood-pile sure. Cleveland Plaindealer.

The foundation of the largest cotton factory in the world has just been laid in Russia, on the island of Cronholm in the river Narva, between its two catenars.—It is in the form of a grand square, and will possess 1,672 windows, 20,000 gas burners, and will occupy 3,000 workmen.

The HOTTEST PART OF THE GLOBE.—Belmont considered the tract between the first and second catenars of the Nile to be the hottest on the globe. At the Thebes he says, it melts about three times a year about a half hour each time.

The Boston Traveller says that Mr. Everett's oration on Washington has already brought some twenty-five thousand dollars to the fund for the purchase of Mount Vernon.

An idea of the amount of letter writing in the United States may be inferred from the number of postage stamps sold, which during the last year, was one hundred and fifty millions.

Mr. Yates, of Vicksburg, while punishing a negro in Madison Parish, La., a few days since, was stopped by the heart and killed.

The most magnificent set of diamonds in the two Indies—those of the Dutchess of Savoy, daughter of Gen. Blandier—valued at \$145,000—were lately stolen at Naples.

Some graceless scamp says: "It is woman, and not her wrongs that should be redressed." That fellow ought to suffer the torment of being invited out to tea.

A medical man says that "those ladies who make it a business to trouble dry goods clerks, and never buy anything, ought to be called counter irritants."

Some faubry fellow says that happiness is a pig with a slippery tail, which everybody runs after, but nobody can hold.

Silence is an antidote against a slanderous and abusive press.

Arrival of the Circassian.

St. Johns, N. F., July 22.
The screw steamship Circassian, Liverpool the 11th inst., arrived here at half-past 4 o'clock this afternoon. The Asia sailed from Liverpool for New York on the same day.

GREAT BRITAIN.—The House of Lords had rejected the Jewish oath bill by 34 majority.

The government asks for a half a million each on account of the China and Persian war.

Thackeray has been nominated for Parliament from Oxford.

Lord Palmerston has promised a government regulation in regard to the supply of free negroes to the French West India islands.

A. Madeny and some of the opposition candidates had been returned at the second election.

Spain.—Some disturbances had occurred at Utrera, but they were immediately suppressed. No other demonstrations were expected.

The Cortes had passed a gag law on the press.

Italy.—Details from Italy show that there was no considerable loss of life in the revolutionary movement there.

Mazzini had very lately escaped from Italy.

Austria.—The King of Prussia is on a visit to the Emperor of Austria.

COMMERCIAL INTELLIGENCE.—The advices by the Canada caused an advance of fully 1-16 p. m. in the Liverpool cotton market. Sales of the week add up 67,000 bales. Market closed buoyant, with a tendency towards a further advance. Advices from Manchester were favorable.

The Liverpool provision market was generally steady. Beef firm; quotations nominal. Bacon heavy. Lard quiet. Tallow quotations barely maintained. Pot and pearl ashes dull; prices unchanged.—Sugar, tea and rice, firm.

LONDON MARKETS.—Iron, Welsh, bars and rails closed firm, with an improved demand at £70 to £75 for both. Breadstuffs dull. Sugar quiet; declined 1s. coffee firm.

The bullion in the Bank of England had increased £138,000, and the rates of discount had undergone no change. Consols for money 92 1/2 @ 92 1/2 for account.

We learn from the Huntington Herald that there are several cases of varioloid in that place.

THE IOWA CONSTITUTION.—The new Constitution of Iowa, which the people are to ratify or reject in August next, permanently fixes the seat of government at Des Moines. The State will not be allowed to contract a debt greater than \$250,000, and no city or town can do the same thing to a greater extent than five per cent. of its valuation.

The Legislature can pass a general banking law, and also establish a State bank with branches, but such a law or laws must be approved by a popular vote. A State Board of Education is provided for, and the three Judges of the Supreme Court are to be elected biennially for six years. There is a question outside of this, which excites much interest, and that is, whether in the qualifications for citizenship, the word "white" shall remain.—The Democrats in the Convention succeeded in making this a separate issue, and in prescribing that a majority of all the votes cast must be given affirmatively, in order to adopt it.—Cleveland Plain Dealer.

When a daughter remarks: "Mother, I would not hire help, for I can assist you to do all the work in the kitchen," set it down that she will make a good wife.

BRIGHT YOUNG ON A TOUR THROUGH THE U. S.—A gentleman who came down the Illinois Central Railroad, a few days since, says that Brigham Young went over the road the same day. It is surmised that Brigham was on the look out for information respecting the movements of the military expedition to his domains.

DANGEROUS COUNTERFEIT.—Counterfeiters on the North Western Bank of Virginia are in circulation in Chicago. They are a fac simile of the original, and will deceive an expert.

DEATH OF WILD CAT.—The famous Seminole chief Wild Cat is dead. He and forty of his tribe died of small pox.

AN ASSORTMENT.—In New York, during June, there were six murders, nine garrottings, six burglaries, four cases under the domination of perjury and forgery, eighteen violent assaults, nineteen larcenies, eleven of the class of counterfeiting, three suicides, and a riot of every day for general amusement.

TROUBLE AMONG THE METHODISTS.—The Methodist of Wesley Chapel, Indianapolis, are divided upon the seat question. Those in authority have changed the old custom which separated ladies and gentlemen, and allow them to sit together promiscuously while in the house of worship.

About eighty members ladies and gentlemen, have published a card, giving notice of their inability to conform to the innovation, regarding it as a departure from usages long established, "under which they have enjoyed not only personal comfort in the house of prayer, but also spiritual prosperity."

Some graceless scamp says: "It is woman, and not her wrongs that should be redressed." That fellow ought to suffer the torment of being invited out to tea.

Iron City Commercial College.

This institution stands in the front rank of that class of schools that confer practical benefits upon all who come within the scope of its instructions. It takes a young man just at that interesting period of life when he is looking about him what he shall do, and instructs him in those branches of practical knowledge—the lessons of an honest, money-making life, that will qualify him in future to operate to the best possible advantage to himself and the business world. Through the judicious and skillful management of the Principal, F. W. JENKINS, Esq., the Iron City Commercial College, of Pittsburgh, has steadily rose until it has no superior in the country. Our merchants speak of it with pride, and its usefulness is every day felt in the numerous counting rooms where its efficient graduates are employed.

Let our country merchants and our farmers, and all persons who have sons, hasten them to this college, where they can secure a finished business education. For terms and particular information, address F. W. JENKINS, Esq., Principal of the Iron City Commercial College, Pittsburgh, Pa.

We would call the attention of our merchants to the advertisement in this week's paper, of the firm of Williams & Huestis, wholesale Grocers, Fort Wayne, Ind.

Their stock consists of a general assortment of Groceries, together with everything usually found in a store, except dry goods. Their collection with some of the best, oldest and well known brands in the East, offers them facilities for buying in their stock, unsurpassed by anywhere else in the West. They are therefore enabled to furnish anything in their line, freight included, as low as can be bought in New York, Cincinnati, Chicago or any other market.

Fort Wayne is now within two or three hours ride of this place, uninterrupted by any change of cars. Merchants, therefore, in this place and vicinity, can obtain anything they may need in the line of Williams & Huestis, in a few hours, thereby avoiding the expense, delay and loss of time, occasioned by purchasing or ordering from a greater distance.

Williams & Huestis have but one price, and those ordering from them will obtain goods of the same quality and price, as if there in person to purchase.

If you would, therefore, save, both money and time, purchase of Williams & Huestis, wholesale Grocers, Fort Wayne, Ind.

WHO WANTS GOODS?

LOOK THIS WAY!

CHARLES PALMER.

Is now receiving, direct from Philadelphia and New York, the MOST VARIED stock of Groceries, Queensware, Glassware, DRY GOODS, Clothing & Yankee Notions.

That were ever offered for inspection and sale in this community, which he is now offering at as fair prices and terms, as any sane man dare name.

Thankful to the citizens of Marshall and adjoining counties for their very liberal patronage heretofore conferred on him, and hoping to be able to merit a continuance of favor.
