Hon. A. A. Hammon, Lieut. Governor of Indiana, will speak in Plymouth on Wednesday, the 25th day of August, 1858.

## THE QUEEN'S MESSAGE TO THE PRESIDENT. GREAT ENTHUSIASM!

New York, Aug. 17.

The Queen's message was, for some reason, received only in part last night. The following is Her Majesty's message in full.

To the Honorable the President of the United States:

Her Majesty desires to congratulate the President upon the successful completion of this great international work, in which the Queen has taken the deepest interest.

The Queen is convinced that the President will join her in fervently hoping that the Electric Cable, which now connects Great Britain with the United States, will prove an additional link between the two nations, whose friendship is founded upon their common interest and reciprocal esteem.

The Queen has much pleasure in communicating with the President, and renewing to him her wishes for the prosperity of the United States.

## THE PRESIDENT'S REPLY.

Washington, Aug. 15, 1858.

To Her Majesty Victoria, Queen of Great Britain:

The President cordially reciprocates the congratulations of Her Majesty the Queen, on the success of the great international enterprise accomplished by the skill and indomitable energies of the two countries.

It is a triumph more glorious, because more useful to mankind, than was ever won by conqueror on the field of battle.

May the Atlantic Telegraph, under the blessings of heaven, prove to be a bond of perpetual peace and friendship between the kindred nations, and an instrument designed by Divine Providence to diffuse religion, civilization, liberty and law throughout the world. In this view will not all nations of Christendom spontaneously unite in the declaration that it shall be forever neutral, and that its communications shall be held sacred in the passage to their places of destination, even in the midst of hostilities?

(Signed) JAMES BUCHANAN.

Washington, Aug. 16.

The intelligence of the reception of the Queen's message rapidly spread throughout the city, and this evidence of the successful working of the telegraphic cable occasioned much rejoicing. In some quarters, however, its authenticity was doubted, until a dispatch from the General Agent of the Associated Press removed all doubt.

The first intimation on the subject to the President was communicated through Senator Bigler from the Washington associated press agency, when the President returned from the Soldier's Home, and received at the White House the message from Her Majesty, Queen Victoria. He then prepared the public reply. The Queen's message was received with some doubt as to its authenticity, but the matter was relieved of all doubt by the following message from the Superintendent of the Newfoundland line:

Trinity Bay, Aug. 16.

The message to the President, purporting to be from the Queen, actually came over the Atlantic cable from Valentia, Ireland, and is unquestionably authentic. The President's reply will be sent as soon as received.

Signed, A. MCKAY, Sup't.

## The late Murder in Chicago.

Frank Busch, charged with the murder of James McGee, in Chicago, on the 13th inst., has been committed to jail to await his trial. His father, and a saloon keeper named Rome, are held as accessories to the murder.

The Republicans labored and futile attempt to show that the Democratic Convention, which assembled here on the 5th inst., was a failure, is a fair specimen of regard for truth. The misrepresentations contained in its articles are so glaring that they cannot fail to bring contempt for the author. The editor of the Republican is the only member of the party, that we have heard speak of it, but what admitted that it was the largest gathering ever held by any political party, in the county. The convention was something more than common, or the editor would not have written a notice of it, a column and a half in length.

The Rochester Gazette has doffed its garb of neutrality, and is now the advocate of Black Republican principles. During the time it professed to be neutral, it refused to publish the proceedings of the Fulton County Democratic Convention, at which the Democrats of that County were justly indignant. Schuyler Colfax, knowing that every little helps, has, no doubt, been the cause of this avowed change in the Gazette. Schuyler is looking out on the deep voxel with storms, with great forebodings and fillings of heart, for fear of the things that are coming upon him.

The Republican fails to give the names of those prominent Democrats who have admitted that the public interest requires a change of administration, and says:

"If it will afford the hobbledehoy any satisfaction to consider the statement a falsehood, we shall certainly take no pains to dispel the pleasant delusion."

O. K. our readers will bear in mind that the Republican's statement in regard to "prominent Democrats," is false.

All Right.—The reason the Republicans wanted Mr. Parks to withdraw, was to put Ignatius Mattingly on the track.—Ignatius has been a faithful worker for them, and should be rewarded in some way. If something is not done for him pretty soon, he will waste away.

S. S. Cobaley left us a basket full of the "Darling Sweet Corn," and on trying it we found it to be the best green corn of the season.

S. P. Freeman of the Pittsburg Ft. Wayne & Chicago R. R. has our thanks for late papers. He prepared to deliver Chico go, Cincinnati and Pittsburg Dailies on the day of publication.

James Burdiss has again favored us with papers in advance of the mail.

## Religious Notice.

Elder Joseph Marsh, of Rochester N. Y., will preach at North School House, six miles south of Plymouth, on the Michigan road, on Saturday the 21st of August, at 2 o'clock p. m., and 10 o'clock a. m. Sunday following. All are invited to attend.

Arrival of the Europea.

The R. M. steamship Europa, Capt. Leach, for Boston, via Halifax, to Liverpool, arrived this P. M. to-day.

She was run foul of on Saturday, the 14th, at 10:30 P. M., by the R. M. steamship Arabia, from Liverpool on the 7th inst., bound to New York. The Arabia, it appears, mistook the light of the Europe for Cape Race light. The Europe lost her outwater, and had her stern knocked off, besides receiving other injury, and will have to be repaired here. The Arabia after boarding her lay by for some time, and then proceeded to New York. She is not so much injured as the Europe.

The Arabia's dispatches for the press were not put on board the Europe, but we have Liverpool advices to the 7th, the Arabia's day of sailing.

The steamer Fulton, which sailed from New York on the 24th, arrived at Southampton on the 5th of August.

The political news by the Arabia does not seem at a glance to be particularly important or interesting.

The news of the success of the cable was received on "Change" with glorious enthusiasm and declaration that the electric union of Great Britain and America will lead to the unity of all nations.

The announcement of the arrival of the Agamemnon is not in the papers to hand, but if we can possibly gather the particulars of her trip, they shall be forwarded.

The rebellion in Central India had been effectually put down.

Lord Cummings' proclamation was that if Douglas would embrace their faith, and bitterly denounce the Administration, that they would support him in preference to any man now acting with them. Mr. Douglas has been consistent in his course since the passage of the Nebraska bill; and as his course pleased them so well last winter, and displeases them so much now, they should play the demagogue with him, the same as the New York Tribune did with Montgomery, of Pennsylvania; this is take back all the good they have ever said of him. This is the only course left them, if they intend to convince the people that they are consistent.

Armstrong & Shoemaker are about opening a new Meat Market, where they intend keeping a good assortment of fresh meats, of all kinds. See Advertisement.

Col. Walker is a gentleman of fine abilities, and open and straightforward man, and has many warm personal friends who will struggle with a will for his election. We like him—and will acknowledge that we are prepossessed in his favor—and know of none who would fill the place of Congress with more credit to himself and his constituents. We speak now of Col. W. in his private and social relations.

Two cargoes of coolies, numbering nearly 800, had recently arrived at Havana, under the Dutch and Spanish flag.

A letter from Havana says the rumor that the United States was meditating a purchase of Cuba, caused great excitement there.

Yellow fever continued to rage. Capt. Albert Gage is among its recent victims.

All vessels of the Spanish fleet had been ordered to port by the Admiral, in order to escape the autumnal hurricanes. All the sailing vessels were rapidly getting to the north east.

## From the M. C. Republican. To the Republicans of Marshall County.

In order to place myself in my true position before you, I submit the following Certificate for your consideration.

We the undersigned, Chairman and Secretary of the Republican meeting held at Bremen, June 19, 1858, for the purpose of appointing delegates, to the Republican Nominating County Convention, and to select a candidate from German Township to be presented to the Convention for nomination for County Commissioner, certify, that at that meeting Geo. Pomeroy received two-thirds and Moses Keyser one-third of all the ballots cast. After the vote was announced Mr. Pomeroy stated to the meeting that he did not wish to be a candidate before the Convention, and that he would withdraw if there if Mr. Keyser would consent to be a candidate. Mr. Keyser then stated that he was satisfied with the choice the meeting had made, and he declined the offer of Mr. Pomeroy, and we understood from his statement that the Liberal, or Federal party will not be before the Convention for the office of Commissioner.

Washington, August 13.

Preparations are being made for the organization of an efficient military staff for Washington and Oregon Territories.

A force of 2,500 troops will be kept in Utah.

New Orleans, Aug. 13.

The total number of deaths the past week are 306, being a large increase, including 140 by yellow fever.

The total number of lives lost by the explosion of the steamer Virginia, on Saturday, was eight.

Bedford, Pa., Aug. 13.

The President and party left the Springs this morning, and will pass the night at Cumberland. The President is greatly

benefited by his sojourn here.

The New Orleans Delta of the 7th, contains an extract from a letter written by Judge McAlpin, dated at Mauleo, July 9th, in which he expressed his confidence that the Liberal, or Federal party will succeed in Mexico.

In the desperate battle on the 31 of July, near Cuaua, the Federal troops lost but few men, while the Church forces had 800 killed; 500 deserted in a body.

At Culma there was accumulated \$20,000,000 of silver bullion, from the neighboring mines, which could not be transported because of the troubled state of the country.
