Notice.

With this number a good many subscribers time expires. All those who receive their paper make with an **X** will know that their time for which they have subscribed has expired, and the paper will be discontinued unless otherwise ordered.

TRY and persuade your neighbor to subscribe for THE NEWS. By a little effort on the part of friends, our subscription list could be increased several hundred names this fall and winter. The crops have been splendid, prices are wonderfully good, and the small price asked for the paper—which is only **35 cents until the last of March**, making five months—places it within the reach of all. Every family in the two townships should have a copy for this winter's reading. Give us a lit, friends

LOCAL BREVITIES.

The normal closed last Thursday, after a twelve weeks session.

Aaron Johnson's wife presented him a fine 10 $\frac{1}{2}$ pound boy, Monday evening.

Henry Strohm went to Chicago Wednesday night to buy a full stock of notions for Hartman's.

See our prospectus on second page. The News five months for 35 cents. Dirt cheap.

Dr. Brennenman, the Goshen dentist, will be at Nappanee House next Tuesday and Wednesday.

The Baltimore & Ohio road wants to buy a lot of hard wood ties. For particulars enquire of the agent at this place.

You will find a complete stock of slates, ink, pens, pencils, stationery, school, copy, scratch and blank books, at Binkley's, cheap.

The Nappanee Cornet Band will give a concert in Johnson's Hall, on Friday evening, Nov. 14th. Turn out and patronize the boys.

Some one entered Peter Houson's house during his absence and carried off his over coat, some bed clothing and a cloak belonging to his little girl.

The following is the list of letters remaining in the Nappanee post office as alluded to: Miss Lizzie J. Cristner, Martha Reed More and Emma Hine.

BORN.—On Thursday, Oct. 30th, 1879, a daughter to the wife of Benj. Within Weight unknown.

One day last week a son was born to the wife of John Martin.

Say! you fellow over in Look; how is it about that whip you confounded in Goshen the other day? You could have saved money by buying yourself a new one.

All those interested in the Wisler and Fisher ditches are notified by the county auditor that the same will be heard and determined by the board of commissioners on the first Monday in December, 1879.

It is said that I. H. Hall left town very drunk last Wednesday, and on the road home his horse took fright and Ikey being in that condition could do nothing for himself, let the nag run away, breaking the buggy, and badly demoralizing Ikey's beautiful countenance. Served him right. A "prostitute" should stay sober.

The Nappanee schools commence next Monday, with Will H. Holdeman as principal, and Miss Flora Stauffer as primary teacher. Mr. H. wishes us to say to the scholars that they shall not purchase any books before school opens, as it is not yet decided what kind will be used.

Now, see here; Nappanee is surely increasing in population. When they commence to come three a day, it is good evidence that we are bound to become a city some day. Dr. Schwartz informed us the other day that he had a total fifteen birth cases in the last five weeks.

—What is the matter with the running-gears to the post-office at Hephzibah? Every subscriber that we have at that office complains about not receiving their papers regular. We want things to go differently from what the law, or we will have the matter investigated.

—It is claimed by Professor Tice and others that there will be one of the grandest meteoric showers, during the night of Nov. 13th, and that it will be the most brilliant display in that direction that has occurred since 1833.

—The commissioners of Elkhart county have passed the following law regulating the running at large of domestic animals: "That no animals of any kind or description whatever be allowed to run at large upon any public common or unenclosed ground within the limits of the county. Provided, however, That milch cows be excepted from the order from the first day of May to the first day of November in each year."

GRANT'S RECEPTION.—There will be an excursion over the Baltimore & Ohio road to Chicago, on Tuesday, November 11th, 1879. A special train will leave this station at 2.05 P.M., arriving at Chicago at 6:50 P.M. Tickets will be good to return on any train on or before the evening train of November 16th. Chicago will be attired in a holiday dress, the like of which may never occur again for years. Fare for round trip, \$4.10. The Second Annual Fat Stock Show in the Exposition Building, is an interesting feature of the excursion, which will probably be the last of the season to visit the Garden City of the West. Don't forget the date.

—Mr. Milton I. Beck, of Goshen, was in town on Tuesday, and gave us a call. Milt was one of the parts that was interested in that "farm swindle" that we mentioned last week. From his statement, we believe that we have done the man great injustice in mixing him up in this swindle, and we made the promise that we would investigate the matter ourselves, and if we found that his statements were true, that we would gladly retract all that we said against him. Mr. Beck is a promising young man, of considerable legal abilities, and we would be sorry indeed to do the least thing that would be detrimental to him. If the facts in the case are as we stated them last week, then we have nothing more to say, we will then have done our duty—warned the public.

—The result of Tuesday's election in New York left Robinson, Tilden's candidate, far behind in the race. In other State elections on the same day, the results are even more disastrous to the Bourbon candidates. Massachusetts has buried Butler again, and so deep that he will not be able to go one eye on another campaign. In Wisconsin Gov. Smith, Republican, was re-elected by an increased majority. Pennsylvania, Illinois, Minnesota and all the Northern States that held elections, have gone Republicans. Tom Ewing of Ohio, doesn't feel as lonesome now as he did before he heard the result of Tuesday's election. Maryland elects a Democratic Governor, and Yazoo, Mississippi, has gone Democratic by an increased majority.

The Young Folks' Monthly.

That interesting Young People's Magazine, the "Young Folks' Monthly," is upon our table, full of pleasure and profit to the class for which it is intended. Dialogues for schools and other entertainments, a series of drawing lessons, etc. It contains 32 large pages, and is no doubt the cheapest magazine for the price. One dollar per year in advance. For \$1.50 we will send THE NEWS and the Young Folks' Monthly both one year. All those who accept the above offer now will receive the Monthly the balance of the year free. A specimen copy may be seen at this office.

The Western Buzar.

Published at Chicago, comes to us in an entirely new dress, greatly improved in appearance, though having been for years one of the most enterprising and best papers of its class published. Current topics are discussed with ability, and its Literary and Fireside departments are much enjoyed by the women folks. Price reduced to \$1.65 per year. The publisher offers the rest of this year free to all subscribers who send their money now for 1880. For \$2.25 we will send THE NEWS and the Rural from now till January 1st, 1881. Sample copy may be seen at this office.

MAHONING ECHOES.

EAST LEWISTON, OHIO, Nov. 2d, 1879.

Two men were recently killed by as in Youngstown furnace. Rev. Jacob Wisler, pastor of the Low Mennonite church, of Elkhart county, spent a few days in this vicinity last week. Mr. and Mrs. John Blesser, of Wakarusa, spent a few weeks in Canada last j., arrived here last week, and will spend a short time visiting among their relatives here. The business "boom" has reached this part of our cherished country, and on every hand may be seen the "ear-marks" of industry and a general revival. All the furnaces and rolling mills in the Mahoning Valley, many of which have stood idle for three or four years during the late business depression, have again assumed work, and are running at full capacity. Some of these iron works have orders to fill for months in advance, and it requires their utmost capacity to keep up with the demands of trade, and new additions have to be constructed to afford more working room. The wheat market has also suddenly risen from \$1 to \$1.30, while all kinds of produce and merchandise again finds a ready and active market. All around the "boom" is visible, the dark shadows of the panic have vanished, and the "good times" have come. \$15,000 have recently gone to the blazes at the Todd furnace near Youngstown. While the workmen were getting ready to cast, the side of the basin of the furnace gave way, and the entire liquid contents of the stack went belching over the fore plates, covering the floor of the stack-house, and in a minute the building was all ablaze. The stock house and hoisting house, together with several thousand bushels of coke and coal and four or five railroad cars were reduced to ashes. The loss is estimated at \$15,000, covered by insurance for \$10,000. Who has ever heard of such an oppressive warm and dry October as we have had the present autumn? The "oldest inhabitants" are united in saying "not I for 21 years," and no one who had to toil in the heat of those sultry October days feels inclined to dispute, or even doubt the unanimous verdict.
