Goods for the Million.

F. VAN VALKENBURGH & CO.
 ARE just received one of the best stocks of
Fresh Groceries
 ever brought to this market, and are offering them at such prices as cannot fail to please every body. Sixteen lbs. of good Sugar can't be bought everywhere for \$1.00, but it can at their store. Syrup, Molasses, and spices of all kinds are not excelled in this or any other market. That Golden Syrup! Don't you wonder we shall have enough to round it up? We can get more. Dried Fruits of all kinds—especially excellent article of Peaches, Hamburg Cheese, that is cheese and no take. Tobacco, from a common article to the genuine Virginia leaf. Every body knows it would be kept in power to enumerate the articles kept in this establishment, but the gentlemen, who, Cooks and "the rest of mankind" respectfully invited to call and examine the new stock for themselves.

VARIETY STORE.
 THE undersigned having taken the Room formerly occupied by the Bank, are now offering to the citizens of Marshall county, and as many from other counties as will favor them with a call, a general assortment of
DRY GOODS,
 Queensware, glassware
AND
GROCERIES.
 Every thing that Men, Women and Children may need, can be found at
The Variety Store,
 and they will at all times find ready and willing hands to deal out according to their various necessities.
 We deem it unnecessary to boast of our cheap goods, as the people will ultimately find out where they can get the bargain, and on there they will buy. We prefer choosing a good article, and then ask the customer to give us that opportunity at all events. In our fair dealing, we feel that we offer in our goods a little
BETTER BARGAINS
 than they can find elsewhere, we shall not be able to do the best of our customers—that is, to give them a trial, we shall not have it. N. B. We shall be constantly receiving fresh supplies to meet the demands of a heavy and extensive trade, for we expect to realize it by dealing fairly and modestly with our customers.

CINCINNATI Clothing Store.
 THE undersigned having located in Plymouth, with the intention of making it his home, and his present permanent business, would inform the public generally that he intends keeping a general assortment of
Ready made Clothing
 TRUNKS, VALISES AND SATCHELS.
 And every thing that any poor destitute creature may want, whether he be at a way from home.
 Don't forget to call at the Cincinnati Clothing Store, in Rusk's building next door to Van Valkenburgh's, which is emphatically the place to clothe the naked.
HATS & CAPS.
 And most every thing that men and boys wear, may be found in abundance, and at the lowest possible cash prices. He wishes every one to closely inspect the workmanship of his clothing, as many are often deceived in that article, by the discovery of Rips when it is late, and which are not at all times very easily repaired, unless the customer wishes to carry a needle and thread in his pocket.
 HENRY PIERCE.

THAT VARIETY.
 Shinnabarger & Burch
 Have lately made some effort to furnish the promised variety of
NEW GOODS
 So long and so much needed in Plymouth, and if their patrons will favor them with a call, they shall not go away disappointed. We have commenced our business, relying more upon fair and honest business transactions, for success and patronage, than throwing slash at our neighbors. We desire to live upon friendly terms with all, and when we have not the pleasure of the one customer, we desire to be a pleasant duty instead of a grudging and disagreeable necessity, to prompt by direct them to our neighbors.
If we Sell Cheaper
 Than they, it is no evidence that we don't pay for our goods; it proves that for our cash, we bought cheap, and as a natural consequence, sell quick, and if this realize, they will get ten per cent profit and purchase and sell new articles three times in the year, we certainly realize in the end thirty per cent.
 We now have the pleasure of directing the attention of the citizens of Marshall and adjoining counties, to one of the largest stocks of
Staple and Fancy Dry Goods & Groceries
 Ever offered in this market, and we are determined to prove to all that our mode of selling is
Small profits and Quick Sales,
 As the true and saving policy both for the seller and purchaser. The present stock was bought with an eye single to the
Spring and Summer TRADE.
 And our customers shall be satisfied that we are not deceiving them, if they will but favor us with a call. We expect to make a permanent business, and we do not wish to disguise the fact that we wish to make you our friends and permanent customers, and we expect to do so by discounting you on honesty, and selling you cheap goods for your money.
Our Steam Saw Mill
 Is now in full operation, and although we have not been in the service of our country in any way, and a hundred times, or condensed to serve the people in either branch of the Legislature, yet we have done a little something for the convenience of our town and county, and can now furnish our fellow citizens with the lumber to build houses to keep the rain off their little ones. Throw Physic to the Dogs.
PULVERMACH'S HYDRO-ELECTRIC VOLTAIC CHAINS.
 Producing instant relief from the most acute pain, and permanently curing all Neuralgic diseases, Rheumatism, painful and swollen Joints, Neuritis of the face, Deafness, St. Vitus Dance, Palpitations of the Heart, periodical Headache, Pains in the Stomach, Indigestion, Dyspepsia, Uterine pains, Paralysis, &c., &c.
 These claims were first introduced in the city of New York less than one year since, and after being subjected to thorough trials in every hospital in the city, and applied by Drs. Valentine, Mort, Carmichael, Van Buren and others, it was discovered that they possessed strange and wonderful power in the relief and cure of the above class of diseases, and their sale, and the success that has attended their use, have rendered their introduction into this country, they were used in every hospital in Europe, and are secured by patents in France, Germany, Austria, Prussia, and England; and also in the United States.
"THINK CLOSE AND PONDER WELL."
 The principles upon which it is claimed that the Chains produce their marvellous cures are, that all nervous diseases, and all diseases produced by a deficient supply of nervous fluid, and an agent that resembles closely electricity, or electro magnetism; and second— that the electric chains, by being worn over and upon the part and organ diseased, furnished to the exhausted nervous fluid which is required to produce a healthy action through the entire system. No disgusting nostrum is allowed to be taken while using the chains, but a rigid observance of the general laws of health are required. Friction upon the part diseased adds much to the effects of the claims, by increasing their magnetic power.
One Thousand Dollars
 will be given to any person who will produce so many well authenticated certificates of cure both from intelligent patients and scientific physicians, as have been effected by the use of Pulvermacher's Electric Chains. They never fail to perform what they are advertised to do, and no person has ever been dissatisfied who has given them a trial.
IS NOT A FEMALE CASE
 More than one hundred permanent cures of Prolapsus Uteri, have been effected within the last year by the use of these chains. By applying one end of the chain over the region of the abdomen, and the other upon the spine just above the hip, the usual severe symptoms incident to that disease are at once removed.
MODE OF USE.
 The chain should be moistened before use with common vinegar, and then one end of the chain should be applied directly to the seat of the pain or disease, and the other end exposed to it.
BE NOT DECEIVED! The Electric Chains are not to cure all diseases; but for Nervous diseases it is claimed that NO Medical Agent in the world has produced so many cases in the last year as the Electric Chain.
INSTANT RELIEF is the most acute pain, is produced at the moment of application much more effectually than can be produced by opium, in any of its forms.
