Renew the fight.

Reduce the salaries.

Talk our principals all the time.

Two percent. of our population governs the country.

The country failed to discover the great prosperity seen by the Republican party.

The election of Cleveland was engineered by Ben Cable, the railroad attorney and paid for by Jay Gould. What can honest men hope from such an administration?

Bonds, says the secretary of the treasury; bonds, says the congressmen; bonds, says the road congress; bonds, says the banker and money sharks. Not another bond, says the People's party, but more money.

A tart correspondent has smoked out old Murat Halstead. Whew, but the toothless tiger snarls and snaps. It will avail nothing, field marshal, we are going to try our ideas and if they fail it can't be worse than yours.

Jay Gould was envied, feared and hated by many, but loved by none. Outside of his own family there was not a tear shed in all the world, but there was a feeling of relief when his hated life was ended.

The prevailing idea of the road congress when it first met, was bonds, oh yes, bonds, and they exempt from taxation. Possibly some people may be able to learn something some time. There is an over production in the bond business.

Jay Gould's life was devoid of all that is commendable. There is nothing in it that a good man would not detest. His career began by acting upon the confidential talk of his employer, which he overheard, and ended by boodling the Democratic party.

There is a bill before congress to sell bonds to provide funds to pay expenses of government. If after wasting (yes wasting) the enormous revenues of the government, they should commit the additional crime of selling bonds, every man that votes for it ought to be hung as soon as he returns to his constituents.

Congressmen Holman is preparing a graduated income tax bill. Well, who would have ever thought that these old Bourbons would have ever learned that much. All right gentlemen,

what we want is relief through just laws, and we are not particular through what party. Tally one for People's party principals.

D. W. Voorhees says he is sorry there are no more offices to dish out to the faithful party workers. The old demagogue. His highest idea of statesmanship is party success for the plunder there is in it. Considering his ability and opportunities, no man in Indiana has made such a dismal failure as D. W. Voorhees.

Some Democrats are foolish enough to think the platform ought to be carried out. Don't they know that it will require two years to divide the spoils and then it will be so late that it won't be safe to go on record just on the eve of a presidential campaign, so just vote us in once more and then the offices won't have to be divided and we can make the fur fly next time.

#### How Much Broader.

The Philadelphia Telegraph says People's party measures are too narrow ever to succeed. Let us see, they embrace land, money, transportation and taxation, and demand radical changes in each. When these are adjusted in accordance with the fundamental principals of our government so as to secure equal rights to all and special privileges to none, will the Telegraph or any other subsidized sheet tell us what is left unadjusted. Too narrow indeed!!! We will be charitable enough to believe this blind tool of legalized robbery never read our platform and therefore knows nothing about it or he wouldn't write such silly stuff.

#### Reform the Reformers.

There is in New York what is called the Democratic reform club. Now we don't ask that club to reform the Democratic party, that is a hopeless task, nor do we ask it to inaugurate the millennium, no nothing of that kind, but we would be pleased to see it exhibit its reformatory power by reforming itself. Should it perform that much needed and difficult job, we ourselves will move to have it excused from further duties. This aggregation of reform tendencies gave a dinner to those having similar tendencies. Now it so happened that each of the invited felt it incumbent on himself to enlighten the rest upon the necessary reformatory measures, and it so happened that one "crisp" speaker "was turned down," whereupon all these unreformed reformers took it in dudgeon, solemnly vowed that when reformers were overloaded with reform ideas at a reform dinner given by a reform club were unceremoniously "turned down" that ended all reform measures. Well, I swear.

#### Self Condemnation.

Ever since there has been a People's party, Republican press and politicians have denounced it for demanding the coinage of silver on the same terms that gold is coined. Shouted 70 cent dollar, dishonest dollar, short-legged dollar, but when the representatives of these hypocritical scoundrels appear before the international monetary commission they demanded exactly what the People's party has always demanded, the free coinage of silver. If free coinage was wrong a year ago it is wrong yet, if right now it is right then. These men speak the views of the administration; therefore we ask when was it converted? We suspect about the 8th of November. Does the president suppose that his enmity to silver and his wire pulling and log rolling to prevent free coinage are unknown in Europe? The conduct of the president and the leaders of the party make us the contempt and laughing stock of the world and handicaps us as a nation in any attempt to restore to silver its monetary use. When will we

have men with brains enough to understand the best interest of the country and courage enough to stand up for it?

#### Information Wanted.

The farmers are now being treated to the benefits of farmers institutes; that is, there is a day set upon which a man who is paid a big salary and traveling expenses will proceed to enlighten them on everything connected with farming except how to make it profitable. He will tell them how independent they are, that they can work sixteen hours a day and no one to say them nay. Tell them what a healthy occupation they have, they can breathe any amount of pure air and not be compelled to pay tribute for it to any trust, pool or syndicate. He will explain just how everything on the farm is produced except the mortgages. He will make plain the necessity of rotation in everything except the rotation of the vampires that suck the profits of industry. In discussing the production of our cereals, no man must speak of the low prices. That might bring out the fact that railroad charges are entirely, too high, and that would not do—it is politics. While dissecting the cattle industry, all must be careful not to mention the Armour combine—that would be political. No man must say that taxes and salaries are too high, and money too dear, oh no that is politics and those wise professors send word ahead that everything political must be left out. If a farmer has 80 acres of land and a half dozen boys, though burdened with thoughts of the future, he must not ask what shall I do with my boys, for that would call up the wages and land questions, that would be politics and something might be said that would offend those in power and the supplies that give these wise men their soft job might be cut off. If college professors worked sixteen hours each day and received nothing but a living, would they be so frightened by the ghost of politics. We have always noticed that it made a vast difference with the ignorant and unscrupulous whose ox is gored. When the People's party get into power the appropriations will not be cut down, but will be largely used to enlighten the understanding and quicken the conscience of college professors and cowardly ministers.

Piles of people have piles, but De Witt's Witch Hazel Salve will cure them. A. F. LONG & Co.

#### Deserving Praise.

We desire to say to our citizens, that for years we have been selling Dr. Kings New Discovery for consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits.—F. B. Meyer, druggist.

The wind from the North blows sharp and keen, and bad effects of colds are seen. One Minute Cough Cure so safe and sure, will quickly perform a wondrous cure.

A. F. LONG & Co.

#### MORRIS' ENGLISH STABLE POWDER.

#### SUNSTRUCK IN BATTLE!

DR. MILES MEDICAL CO. ELKHART, IND.—I must say the Restorative Nerve and Nerve and Liver Pills have done me great good.  
**FOR YEARS I HAVE NOT FELT AS WELL AS NOW.**  
The starting point of my disease was a sunstroke received in battle before Fort Hudson, Louisiana, June 18th, 1863. Up to the time of beginning to take Dr. Miles' Remedies I had had a continual distracting pain in my head; also, weak spells, and the past four years I have had to give up everything of an active character, and stay in the house for a time. I could not walk across the street. I KNOW YOUR REMEDIES HAVE CURED ME, and that the cure will be permanent. Several of my friends are using your remedies, and all speak well of them. Yours truly,  
COL. C. W. DEAN,  
National Military Home, Dayton, O.

#### WHY "ARE HEELER & WILSON'S No. 9" SEWING MACHINES POPULAR? BECAUSE LADIES BUY THEM LIKE THEM AND TELL THEIR FRIENDS.

Many ladies have used our machines twenty to thirty years in their family work, and are still using the original machines we furnished them a generation ago. Many of our machines have run more than twenty years without repairs, other than needles. With proper care they never wear out, and seldom need repair. We have built sewing machines for more than forty years and have constantly improved them. We build our machines on honor, and they are recognized everywhere as the most accurately fitted and finely finished sewing machines in the world. Our latest, the "No. 9," is the result of our long experience. In competition with the leading machines of the world, it received the Grand Prize at the Paris Exposition of 1889, as the best other machines receiving only complimentary medals of gold, silver and bronze. The Grand Prize was what all sought for, and our machine was awarded it.

Send for our illustrated catalogue. We want dealers in all unoccupied territory.

#### "Seeing is Believing."

And a good lamp must be simple; when it is not simple it is not good. Simple, Beautiful, Good—these words mean much, but to see "The Rochester" will impress the truth more forcibly. All metal, tough and seamless, and made in three pieces only, it is absolutely safe and unbreakable. Like Aladdin's of old, it is indeed a "wonderful lamp," for its marvelous light is purer and brighter than gas light, softer than electric light and more cheerful than either. Look for this stamp—THE ROCHESTER. If the lamp dealer has not the genuine Rochester, and the style you want, send to us for our new illustrated catalogue, and we will send you a lamp safely by express—your choice of over 2,000 varieties from the Largest Lamp Store in the World.
