

Killed by the Cars.

Special to the Pilot.

WHEATFIELD, April 11.—On Monday evening as the east bound local on I. I. & I. was doing some switching on the side track here Calvin Mulvain, the rear brakeman of the local, in alighting from the rear end of one of the box cars to make a coupling, caught his right foot in the frog of the switch and was pushed down and under the backing train. Six wheels passed over him, cutting his body in two just above the hips. His left arm was severed just above the elbow and his right leg was also badly mangled. The accident was seen by Mr. J. S. Watson, who ran to Mr. Mulvain's assistance, but before Mr. Watson succeeded in getting him out the car wheels had done their fatal work. Mr. Mulvain lived only a few moments. He was a single man, about 25 years of age, and resided at San Pierre with his aged mother. The remains were taken home to his mother on the same train.

Sterling Cheever, of Newton county, was found of unsound mind and dangerous to run at large, by a jury in the Jasper circuit court last Friday and was ordered committed to the care of the sheriff until quarters could be found for him in the insane asylum at Logansport. After Cheever was placed in the jail he became very violent and attempted to kill himself by butting his head against the iron sides of his cell. An attendant was required night and day to watch him. Monday night he was taken to Newton county and placed in charge of the sheriff there, as he properly belongs in that county. Cheever is 80 years old.

GOODLAND.

Farmers are about all through sowing oats.

Joseph Wright, of Morocco, was in town Friday and reports the new town, Beaver City, as coming to the front.

The time for garden has arrived and it gives the women the old time opportunity of leaning on the garden fence and gossiping about their other door neighbor.

A good substantial plank walk has been built from Elder Huston's residence west to East street.

Elmer Bringham spent two or three days at Lafayette last week among the boys. Don't think, gentle reader, that Elmer ever deals off the ace or the king but if there is one thing above another that he does like to do it is to have a good game of checkers. O say! how is Rensselaer—has she any checker players?

The farmers' elevator at Locheal appears to be a settled fact. The move is a good one but the location is bad. Goodland is far more centrally located and the farmers of this vicinity would take stock in an enterprise of this kind as willingly as those of Locheal, we believe. Gentlemen, go ahead with your enterprise but change your location.

If the C. & I. C. will just say so, we believe our people would donate enough money to paint their depot.

The old political demagogue and walking atlas of the Kentland Democrat says "Jack" was as silent as a clam after Prof. Davis gave him a dressing down a few weeks ago. You and your moth-eaten and filth covered sheet lie when you say that silence on our part has ever been caused by what the leader of the public crib has ever said about "Jack." But on the other hand how about the professor answering the questions we propounded to him a week or two ago? Perhaps you or the nincompoop of the Morocco Courier could answer them for him. Did you ever say anything about that side of the argument in your sheets, you or Davis?

The ladies of the W. R. C. propose to give a supper at their hall Friday evening of this week for the benefit of the W. R. C. Womanlike, they hate to be without a cent.

Theo. Carow is able to be at his old stand in Charley Case's saloon.

Will Young, formerly editor and proprietor of the Mt. Ayr News, but now a resident of Jonesboro, was in Goodland the fore part of last week.

Considerable change will soon be made in the time on the C. & I. C. The passenger now passing here at 3:18 p. m. north, will be changed to 11:15 a. m., and the one south will pass here about the usual time while the early train north will run one hour earlier and one hour later south.

Mr. Kitt, in last week's Herald, laments the chronic depot loafer. That is right. If there is a set on God's foot stool that respectable people have no use for it is the railroad station loafer. What is the best means of getting rid of him?

It is said that Goodland will soon have a sensation. It is reported, on what seems to be good authority, that a breach of promise suit will be commenced at the next term of court for one hundred thousand dollars by a Goodland woman against a non-resident.

A man by the name of Oscar Williams, four miles and a half south of here, met with a serious, but not fatal, accident a few days ago by the accidental discharge of a rifle. He was in the act of putting the gun away at the time of the accident. The ball struck the upper portion of Mr. Williams' right breast just above the nipple and lodged somewhere in the region of the collar bone. Considerable hemorrhage has been the result of the wound and a total paralysis of the right arm has also occurred

and grave fears are felt by the attending physicians for his recovery.

Mr. Stuba, for a number of years harness maker at this place, but now of Kokomo, was visiting friends here the latter part of last week, and fore part of this.

George Griffin, of Remington, was in town Sunday as the guest of his brother Charles.

A number of Kentland people were sight-seeing in Goodland Sunday. We also noticed some from Rensselaer. The latter appear to have been captivated by some of Goodland's fair daughters.

Mr. Charles Rhoades and wife, of Rensselaer, visited with Mrs. Rhoades' parents at this place last Sunday.

It is said but three pupils passed at the last examination held at this place three weeks ago. Another examination, and the last one of this school year, will be held next Saturday, and if there is no better results then, our graduating class will be a rather thin one.

JACK THE RIPPER.

FRANCESVILLE.

Orlando Pruett had quite an exciting runaway. His horse started to run when the line broke, then it began kicking. The boy jumped and fell together till he got away. The result was a smashed sulky and a scared boy.

We came near having a gas accident. Mr. Nelson had removed the burner from his stove and was burning wood, and had the gas key turned down when the gas came with such force as to burst the pipe, sending the gas every where, which took fire. By the timely work of Haymen the gas was shut off.

Our gas is a failure and was worse than a nuisance all winter. The greater part of the burners have been taken from the stoves and wood is used. Whether on account of the failure of the well or the cold weather freezing the pipes is not known. There was talk of another well but it has died down or exploded.

Our town well is on its downward course.

Mr. and Mrs. Leach were at Winamac Saturday.

Mose Gordon has the French measles.

Mrs. Fitch is visiting her mother in Walker township.

and Mr. Olds, who died at his grandson's, Charlie Witham. He was an old citizen of our town.

Last Sunday we visited Blackford and the surrounding country. We were surprised to see the people all sociable and found Landlord Hurley's table loaded with rations. We dined sumptuously, took a walk through the town and noticed that Mr. Hurley was building a new house for a blacksmith to occupy. The decision of Judge Taft in the Ohio court charging the strikers belonging to the brotherhood of locomotive engineers with conspiracy is a gross injustice to all labor societies. It is quite an easy task for a judge to put his foot upon the neck of the poor laborer and crush him to the earth. But capital can combine and reduce the laborer almost to starvation, and our courts remain as silent as the Pyramids of Egypt and our judges as inactive as the old Egyptian mummies. The time is soon to come when these grievances of the laborer must be adjusted, peaceably we hope, but it must be done.

Rensselaer ought to have a "Jack the Ripper."
